Vandalism in the Park. Chairman Graham of the Board of Park ommissioners is greatly incensed over a number of depredations and acts of vandailsm committed within the last few days at Fairmount park and at his suggestion the board has placed a night policeman at

the park. A month or so ago Commissioner Graham had 100 young trees planted on the driveway on the bluff, each sapling being attached to a stake to prevent it being damaged by the wind. One night this week some vandal cut every single tree loose from its protecting stake. Not content with doing this damage, the same person. it is presumed, broke or cut in two sev-

the brick walks. This mischief is believed by Commissioner Graham to be the work of a gang of young fellows, who have been in the habit of congregating in the park at night after the day watchmen have gone home. Now that a night watchman has been engaged Mr. Graham hopes the vandalism will be stopped. Any persons caught destroying the park property, Mr. Graham stated yesterday, would be given the full extent of the law.

Iowa stockholders in the defunct Nebraska Fire Insurance company of Omaha will now have to pay up the unpaid amount of their stock subscriptions. In accordance with the mandate from the United States circuit court of appeals reversing a prior ruling by Judge Smith McPherson, the latter has rendered judgment in favor of Receiver A. U. Wyman against Thomas Bowman, M. F. Rohrer, F. O. Gleason, E. L. Shugart, J. J. Russell, J. M. Campbell and Chris Straub, all of Council Bluffs; John Y. Stone of Glenwood, Henry C. Laub of Demison and George W. Kingsworth of Sloux City.

The suit was brought to collect unpaid amounts on stock subscriptions, being 50 per cent of the amount originally subscribed. The defendants were among the original subscribers, although the stock later passed into different hands. The original suit was brought by Receiver Wyman about ten years ago.

The laws of Nebraska provide that subscribers for stock in a corporation are table for the full amount of their suberiptions, this liability following the stock when it it sold, but does not release the original holders.

It is understood now that the only thing which can prevent his nomination will be his inability to unite the Thomas McMann, an employe on the intervarious counties of his congressional district, the Fifth, in his behalf.

Mr. Ketchum has been a receptive candidate for the honor for more than two years; in fact his name would have been presented to the convention two years ago except for the implied promise that those who were interested in the nomination of Mr. Brown are said to have made that he should fall heir to their political power His candidacy for the nomination this has been openly avowed since the decision of Mr. Brown, following his bank trouble, not to stand for renomination. He secured the endorsement at once of Marshall county, his home, and the approval of other countles in his district, July 7 by the Title Guaranty and Trust but the effort to make the district unanimous in his support was thwarted by the entrance of Welcome Mowry of Tama county as a candidate. Mr. Mowry has had a grievance against certain members of the party ever since the Cedar Rapids convention of 1901, when he was defeated Both Russia and Japan Asks that Na in his aspirations for a second term in This year his friends believed they saw an opportunity to retrieve lost honors for Mr. Mowry and a chance for the party to show in substantial measure its repentance for the rough treatment accorde him at Cedar Rapids. They therefore announced through his home paper at taken at the request of Both Russia and Tracer that Mr. Mowry would stand for Japan. No jurisdiction would be exercised the nomination. The announcement at once raised a row in the district which bids fair to cause more or less trouble to the entire ticket unless something is done of an alleviating nature.

The leaders of the party see this and have come to the conclusion that the only way to settle the trouble is to concede the nomination to the Fifth district on the inderstanding that the district leaders must bury their differences and come to the convention united as one man. ENGLAND IS WILLING TO QUIT Government Never Did Desire Have Trouble with the Thibetans,

WASHINGTON, July 7 .- The discreet inquiries of the State department into the object of the British Thibetan expedition, as related in yesterday's Associated Press cablegram from London, appear to have developed a rather curious fact, namely, that the British home government was lukewarm, if not absolutely indifferent, in the matter of sending Younghusband's expedition toward Lhassa.

Indeed it is said here that Colonel Younghusband was allowed to go forward only to save the pride of Viceroy Curzon. The latter fancied that he had not been treated with proper consideration by the halfwild Thibetans, and, failing to secure what he deemed official recognition of the representatives of the Indian government, sent by him into Thibet, he appealed to the home government for an armed escort to secure proper treatment for his convoys and the home government reluctantly assented.

It is said here that the British government already has indicated its willingness; highest scores is stirring up all the hustle th withdraw this punitive expedition as soon as it can obtain from the Thibetans promises of yielding the points which were at issue between India and Thibet before the expedition crossed the border of the latter country. These are pledges of freedom of trade between the two countries and official recognition of the right of the representative of the British government to exercise his functions in Thibet. The British are willing to retire on this basis, the more readily that they are now satisfied with their own experience that there is no danger to be apprehended of Russian encroachments on India by way of Thibet, in view of the tremendous geographical obstacles. It is stated that the British government has received the American overtures on this subject in the best of temper. Indeed they were rather welcome as tending to emphasize the determination of the American government to do everything possible to protect the integrity of China, an object quite as dear to the British as to Ameri-
