Growth of the City.

LESS MONEY NEEDED THAN LAST YEAR

Ordinance Will Be Ready to Present to Council Tomorrow Night and Brings Encouragement to Property Owners.

"The levy ordinance will be ready wend to the council Monday night," said Mayor Koutsky last evening. "For a week the finance committee has worked on the problem and it has been declared that the city can get along with less money than it did last year, when a \$14-mill levy was made. This year we do not expect to make the levy much more than 8 mills, and if possible it will be kept down to 5 mills." By the utmost economy on the part of the administration the city will enter the next fiscal year with a balance in every fund. Axter all bills had been paid up to July I there remained to the credit of the various funds nearly \$45,000. All that remains to be taken out of this amount

City efficials generally assert without hesitation that the finances of the city were never in better condition then at present. This is considered an excellent soowing for the mayor and council and all times who have had anything to do with

now is the July salaries and running ex-

St. Bridget a Lawn Social. l'uesday evening the members of St. Bridget's parisa will give a lawn social of the features of the social will be the presenting of a diamond ring to one or three popular young women. Three contestants have entered this race for the ring. They are: Aliss Anna Flynn of St. ridget's parish, Miss Neille Gillin of St. mary's and Miss Myrtle Burns of St. Agnes'. Friends of these young women have been working hard for a week sccuring votes and a great deal of interest is being taken in the contest. The following program has been arranged: Song, "Stella," ailss Alta Davis; double quartet, "Three Loughty Men," Mrs. W. R. Bage, Miss Jennie Rellly, Mrs. W. H. Heyman, Miss Mabel Rich, Harry McMillan, G. W. Campbeil, R. O. Haskins, E. P. Baker; song, "Forbidden Music," Mrs. R. O. Haskins; cecitation, "At the Photographers," Miss Agnes Condon; song, "Killarney," John Grennan; duet, "Joan of Arc," E. P. Baker, if J. Bock; quartet, "Evening Hymn," Mae Lovely, accompanist.

Petty Thieves Again. Petty sneakthieves are again reported to be working in the residence portion of the city north of M street. While the articles agen are of small value much annovance cles out on lines in back yards or leave noon a sneakthief was caught carrying away a sofa pillow which had been placed on the back porch of a residence on North Twenty-fourth street. Those Rving west of Twenty-fourth street seem to be annoyed more than residents cast of the street car tracks. The statement is made that tramps infest the north railroad yards and make forays out to pick up any article that can be disposed of. With the limited police force the residence district cannot be given the protection needed.

Another night raid on the tramps is now being planned by Captain Shields.

Ofty Pays Water Bill. sh for water hydrant rental. This amount pays the rental of 202 hydrants from January I up to June 30. It is the first time in years that this bill has been paid when que and in cash. The city had the money in the water fund and was ready to settle the claim when the bill was presented. Until the overlap bonds were voted the hydrant rental bills were allowed to run and once or twice a year the city would confess judgment. By paying cash the city saved all legal procedure and quite a

Real Estate Men Win

In the game of base ball played at the Vinton street park Saturday afternoon between the real estate men and the lawyers for the benefit of the South Omaha hospital the dirt dealers won, the score being to 7 at the close of the ninth inning. While the game was anything but scien

tific, some very good plays were made. But the object was to get money for the heapital, and the game certainly brought in quite a sum, as over 500 tickets were sold. Long before the game was called the grand stand was crowded, the majority being women. It was fun the Lis crowd was looking for and it certainly was not disappointed. At the very commencement Umpires John

Hughes and John O'Hern gave it out, without stuttering, that no foolishness would tolerated, but the bunch of rooters only laughed and intimated very pointedly that the umpires were bluffing, but they

Once upon the field it was found that some changes would have to be made in both teams. In the real estate nine Lee Crawford took the place of L. C. Gibson second base and F. J. Persons was told off for right field in the stead of J. J. Ryan. Among the lawyers Frank Crawford took Hoover's place in left field and Hoover was sent over to right field, where Murdock should have been. After the second inning Tom Creigh went into center held and relieved Shotwell.

When all the preliminaries had been arranged the fight was on and every player was working and puffing harder than a switch engine pulling a meat train up

Trouble begun when Umpire Hughes gave his first decision. A bunch of well snown fans in the grand stand shouted

> OTHER WAY OF DARING DEATH Giving People a Thrilling Sensation.

"Cycling the Acrial Arch"-the thrill which sent the blood of European audiences for the first time when Ringling Bros." circus exhibits here Wednesday, July 20. miserable play of Harry Cohn. Try as the The feat is performed by Walter Lowe, an American, and is pronounced by those who have seen it the most electrifying of the core or more of dare-devil performances which have recently swept over European capitals. It requires a man of iron nerve and quick wit, a fearless cyclist and aero naut combined.

above the ground, where he mounts a bity-second to Twenty-sixth streets. All of cycle specially constructed for the performthe legal proceedings have been gone ance. It is built on the lines of a regular wheel, except that in place of the pedals to let the contract. Brick block seems to there are two stationary pocket stfrrups this district. It is the desire of the city self in the saddle, Lowe is ready for his strenuous ride. An attendant gives the bipossible so as to have a good road to the cycle a gentle shove, it rolls across the platform and onto an inclined board path eighty feet long, three feet wide and having an incline of forty-five degrees.

Gathering speed with every revolution of the wheels, the bicycle, with its daring rider, dashes down this path at a velocity nothing but a gray streak against the background. There is no brake on the machine no means of controlling its fearful velocity, and the slightest turn of the handlebars, At the bottom of the incline, the path takes a sharp upward curve. Up this Lowe, scercely visible so fast is he traveling by this time, dashes, and an instant later he and his wheel spring off into air

The momentum of the machine takes lowe, seated motionless on the saddle, across a space twenty feet wide. Then the bloycle hangs in the air for a second, then plunges down and lands on a platform ten feet across the ground. Across this platform rider and machin; speed to a gentle incline, which lends to the ground, where the journey ends,

Of course the most difficult part of the feat lies in forcing the bicycle to land properly on the platform after the flight through space. Here it is that the skill of the rider is put to the greatest test. When Lowe shoots from the path into air, his machine is tilted up in front at an angle of about forty-five degrees, at which angle t remains through the aerial dash. Were it to land on the receiving platform in that

When the wheel, at the end of the aerial flight hangs suspended for the merest instant in the air, Lowe tips his head forward. This movement is just enough to throw the front wheel down, so that when of children's suits reduced to \$1.25; wheels strike the platform at practically the same moment. Repeated trials have shown Lowe that if the front wheel hits the landinging before the rear wheel there men's overalls with bibs, 25c; all sorts of is a terrible jolt; that if the two wheels the platform a fraction of a second before the front wheel, there is no jolt at all. chine down the last way.

The success of the whole feat depends rider and wheel are suspended in midair, and how delicate and exact that nod must be only a dare-devil performer can appreciate.

ROLLER RINK AT AUDITORIUM

Omaha's New Institution to Have Definite Status in Near Future.

As soon as cool weather will permit of it, Omaha's new Auditorium will be the scene of roller skating. Manager Gillan yesterday announced that the Auditorium com-

pany has decided to install a roller rink service in the building which will be in operation when there are no other attractions there.

The company has already received bids from several concerns on skates. A new model with rubber rollers will be used. Not only is that sort much more desired by the skaters in view of the fact that the skates are noiseless and operate much easier, but it eliminates the possibility of marring or disfiguring the floor. The price of admission has not been fixed, but Manager Gillan gives assurance that it will be a reasonable one. a reasonable one.

"The revival of roller skating is being felt to a great degree in all the eastern and northern cities and should prove equally as popular in Omaha," said Mr. Gillan. "It vies with bowling and many have deserted that pastime for the skating sport. We will operate the rink both afternoon and evening and think that we have a big proposition."
