advances were held up to the close of the session.
Statistics were generally of a favorable character for the dominant interest, the visible supply and the world's shipment as showing a large decrease.

The shipment of corn from world's points were too heavy to admit of much advance in that staple, and the weather all that could be asked for the growing crop. The strength in wheat was all sufficient to prevent the bears from taking any liberties with the cereal and it was a shade firmer than on Saturday.

Reports from the harvest field say that the crop is large. The local market was the crop is large. The local market was but little better than nominal, but at the same time steady.

Notes from Grain Market. Weather map shows general rains and good temperature. con shipments tather too heavy to permit of much advance.

London Times takes a very bearish position on the Russian wheat situation.

Chicago wires good foreign buying of deferred sutures, especially of December.

Minneapolis wheat stocks decreased 140,000 bushels for two days. Situation working very builtsh in northwest.
Southwestern grain and flour papers are of the opinion that the government cropfigures on wheat are six to eight points too high owing to damage from rust.

Oats harvesting is progressing in the south and southwest and central portions of this state. Rather unfavorable reports from Illinois will be the offset by excellent crop conditions elsewhere.

The first sample of the wheat crop of 1904 was received today by E. E. Huntley. It came from Gerdova, Neo., weighed fifty-three pounds to the busnel and would grade about No. 4 hard.

Commercial West has a Winnipeg dispatch stating that wheat conditions call for more conservative judgment than heretofore announced. Weather conditions in Canada have reduced wheat prospects 15 to 25 per cent.

25 per cent.

A St. Louis gossip dispatch said: "St. Louis operators are getting tired buying in this market." Omaha buyers are not tired taking profits yet. St. Louis traders are probably losing more sleep over their sales than their purchases of wheat.

C. A. Sweet returned this morning from a trip through the western part of the state. He said: "Corn never looked butter; oats are all harvested and the crop is fine. Farmers are companining of tust in wheat, but it certainly looks good to me."

AND CONTRACT OF THE PARTY OF TH

the price of wheat.

Officials of western railroads quite generally admitted the halt in business revival which has been caused by the reported damage to the wheat and the danger that another period of business hesitation may be thereby caused. This did not prevent a two-point rise in Atchison, which placed it in the leadership of the market.

The irreconcilable attitude of the parties to the meat packers strike disappointed hopes held last week of an early adjustment. Money continued very easy and the subtreasury paid out \$1.785,090 on account of newly arrived Japanese government bonds deposited at San Francisco, kenewed pressure to take profits in the St. Pauls, Eries, Northwesterns and United States Steel preferred in the final hour caused a material reaction in the market, carrying the last two stocks a point below has week, but the market steaded again and closed irregular. Bonds were somewhat irregular and not very active. Total sales par value \$2.790.090. United States bonds were unchanged on call.

LONDON, July 18.—Bullion to the amount of £11.000 was taken into the Bank of England today and £50.000 was withdrawn for shipment to Java. Money was in strong demand on the payment of the various calls. Trading on the stock exchange was inactive, being affected by the condition of the money market. Consols were weak on the scarcity of money and Russia's action in the Red Sea. Home rails were likewise influenced somewhat, though the prospects of dividends helped to steady them. CATTLE—Receipts were limited and demand likewire small. The few loads orifered soid readily to packers at satisfactory prices, but the conditions surrounding
the market are yet very uncertain.

In the cow and heirer division there is
no special change noted. The few coming
are seiling freely at good prices, but as in
beef steels the demand is yet uncertain.
Sales this morning compare tavorable with
prices before the break with only a very
amited number on sale. mited number on sale. Blockers and feeders are selling in about nast week's notches. The conditions sur-rounding the beef cattle trade exerts a more or less depressing influence in feeders and the market is very dull. The move-ment to the country last week was very small and the trade is very quiet at the
