### PLAN TO LOWER COAL RATES

roads to Time.

COAL DEALERS THOROUGHLY AROUSED

Determine on Action that Will Save Industrial Life of Omaha from Death Blow of Corporations.

Coal dealers and consumers are not losing interest in the question of rates on soft coal from Missouri, Iowa and Kansas, The advance which went into effect August 1 is still up for consideration and everything possible to secure just treatment from the ratiroads interested in the so-called holdup proposition is being considered.

A new movement will be launched by the large consumers of Omaha the first of the the old rates have been under consideration by the consumers during the last few days and the first move in the plans agreed upon probably will be made Monday or Tuesday. Those interested in the movement believe ft will not be well to make the plans public for the time being.

A leading coal dealer who has gone into the rate question thoroughly said:

I believe the Burlington is not entirely to blame for this advance in rates. The other lines are Into it just as deeply as the Burlington, but that road is being put forward as a cat'spaw. It looks to me like there is no chance for relief for the consumers of this city except to secure a reduction of the present rates. We will have to get them reduced to the old busis before our factories can compete with those of surrounding cities. There is no chance to get an advance in the rates to St. Joseph, Kansas City and Council Bluffs for the reason that the distance tariffs in the states in which the cities named are located apply on coal shipments and under these tariffs the rates cannot be advanced, conse quently the only relief we can hope for is a reduction of the rates to Omaha.

Involves Life of Omaha. "I believe the people of this city do not realize how desperate the case before us is. It involves the very life of our manufacturing interests. We cannot hope to secure the location of any additional manufactories so long as these rates are in effect, and we cannot even trust that the factories we now have will remain with us unless we can get more just treatment on the part of the railroads.

"The coal dealers of Omaha are not so seriously affected, for under present conditions Council Bluffs deslers cannot enter long time ago the Union Pacific put in of 40 cents per ton on coal, and this tariff the city scross the river from entering the Nebraska territory in competition with It is the consumer and the citizen should take an interest in this matter, Of course, we coal dealers, as citizens of Omaha, are vitally interested in the welfare of the city, and that is the reason we are doing all we can to get fair treatment for Omaha. I have made a table of comparative rates to show just how great the

discrimination against this city is. "The distance from Cleveland, Ia., to Omaha is 159 miles. The rates are \$1.15 on slack and \$1.30 on lump coal for this distance. The distance from Mendota, Mo., to Kansas City is 180 miles and the rate is 75 cents per ton on both slack and lump coal. This one instance will tend to show just 25 sticks candy ...... 5c Here is a case where a railroad interested | Peerless Mixed Candy ...... 9c of \$1.30 is being charged for hauling the Assorted into this city.

"Now is the time to keep hammering on this matter until we secure some relief. If gradually die out and Omaha will have to Maple Dip Peanuts ................25c abor along carrying this great handicap. Cream Caramels .......................30c which will result in immense harm to the city and its people."

Mortality Statistics.

The following births and deaths have been reported to the Board of Health during the twenty-four hours ending at noon Friday:

Births—A. K. Shurtleff, 2009 Sherman avenue, boy: Charles Carlson, 2424 South Twentieth avenue, girl; Edwin Peets, fill

## LASELL

Seminary Young Women. Auburndale, Mass.

Training the intellect at the expense of the body or at a sacrifice of womanly spirit and womanly graces is a condition that cannot exist at Levell. What the woman shall be, rather than what she can do, is here considered of Brat-import-

she can de, is here considered of Trat-importance.

The highest standard is praintained for the intellectual development, but here, as in no other school for young women, the purely scholastic work is cambined with a unique and practical training in the hiphlaction of the vasious branches of Pomestic Science. Above all, it is the aim at Lazell to prepare each student for the greatest usefulness in life, to fit her for the womanly duties of home keeping, to polish her with the social graces and charm of bearing that mark true womanlood. Specialists preside in all branches, and the school is kept purposely small in number of students to hourse the best individual results and a true home atmosphere.

Everything that a beautiful suburban locution can offer for health, comfort and pleasure is secured at Auburndale—and Boston's wealth of clupational advantages and historic interests but be milles distant.

Leath is well worth investigating. Many parents have written strong commendatory leaters to the amount of the whole.

parents have written strong commendatory letters on the anusual quality of the school work. For catalogus and information address Q. C. BRACDON, Principal.
