RENTS ON CITY PROPERTY

Large Hums Due, According to Old Report on File.

E. S. PETERSON COMPILES STATEMENT

Two Years Ago Estimated City Could Collect One Hundred Thousand Dollars on Rents that Were Due.

Previous statements regarding the use of city property by private corporations and individuals who pay no rent are out in the shade by statements made in an old report of E. T. Peterson of the city engineer's office. He mentions the names of a number of well-known firms who are occupying valuable city realty without compensation, and says further that persons and corporations are using much land formerly parts of streets that have been narrowed, and for which purchase prices never have been paid, nor taxes upon.

Mr. Peterson at that time, April 1, 1902, estimated that \$100,000 could be realized by the city if proper attention was given to the matter of leasing, collection of rents and insisting upon purchases where same had been agreed upon.

Mr. Peterson's report, which was never made public, is as follows:

As requested, I have now, for some time, devoted all of my time in the matter of getting our maps up to date, but I believe I have had time to get a number of other things to do, and I have very unsatisfactorily done so.

The properties mentioned in the various rights-of-way and land grants to the railroads I have been unable to get the proper description of all deeds to some referring to plots on file in the office of the city clerk, who informs me that he has been unable to find any such plots.

The greatest obstacles, however, which I have encountered, in the execution of this duty, are the other public property by corporations and individuals, without any authority, as far as the records disclose, of such occupancy.

Referring to a few taken at random, I might mention Farrell & Co., located in Parkman street between Seventh and Eleventh. The Sheridan Coal company, and the Nebraska Fuel company, in Howard street between Sixth and Seventh and the Illinois in blocks 16 and 17. The Atlantic Paving company on Jackson and Fifth streets; also on city lanes, Pennsylvania Coal company on Mason and Fifteenth streets; Chicago Lumber company on Marcy street between Fourteenth and Fifteenth; Hastings Road company on Hickory street; and Second Avenue, north of Third street, Omaha, Cook & Line company, on Eleventh and Chicago streets; David Talbot lot houses, on Eleventh street south of Nicholas street; Her's distillery, on Second street, north of Douglas street; and Pierce street.

These are only a few of the several hundred which are occupying city property without any authority or paying any remuneration for the same.

Plots Two Hundred Leases. I find in the city commissioner's office perhaps 20 leases issued prior and up to De-

The Leading Dress Goods House of the West

STOP CUT IN SUGAR RATE

Allied Railroads Respond to Appeals of Jobbers to Hold Off.

THREATENED WAR QUICKLY AVERTED

Hurry-Up Call Sent Out by Transportation Companies in Chicago—Result Means Much Good to Omaha Men.

The threatened sugar rate war, almost precipitated yesterday by a cut of 5 cents by the Milwaukee to become effective at once, and by the Burlington to take effect August 25, was nipped in the bud.

A hurry-up call of railroad officials representing the roads doing the cutting and other northern roads was made at Chicago and the old rates will stand. These rates were fixed at a meeting held some time ago in Chicago at which time the rate from New York to Omaha was fixed at 27 cents, and from the Gulf to Omaha at 37 cents. This was an increase for the Gulf roads during the last few days have been claiming their new rate was too high, consequently they have been losing much of the sugar trade. This inspired them to go back to the old rate.

The Burlington and the Milwaukee retaliated by making the 5-cent rate, which it would have been impossible for the southern roads to meet without a great loss of money.

Such a reduction in rates meant much to Omaha jobbers and all day Saturday the wires were kept hot to Chicago for information. All of the jobbers are heavily stocked with sugar for the trade of next month and this was bought under the high rate and would have to be disposed of under the low rate, meaning a loss of the difference.

A well informed jobber: "The effect of the cut in rates would be severe loss to Omaha jobbers. We have held in large stocks of sugar under the high rate to prepare for the large trade of next month and this would have to be sold in accordance with the cut. It would mean a heavy loss to the owners of sugar beet mills also, as they would have to shrink their profits to meet the decreased rate. In Nebraska and Utah the mills have just begun to grind and the California millers have started their shipments. It will be some ten days, however, before the products of these mills reach the eastern markets, as they supply their western trade first, but they, too, will likely come in for heavy loss."

HUSBAND RESCUES HIS WIFE

Takes Young Woman Away From Resort to Which She Was Led by Evil Companion.

Florence Burnett, an inmate of Jennie Martin's resort at 83 Dodge street, has been freed from the clutches of a woman, Ethel McCormick, who had lured her to the resort on the charges of vagrancy and being a disorderly character. It is said a charge of procuring will be filed against Miss Burnett next Monday morning in police court.

It is alleged that Florence Burnett went to Casella a few days ago and called on Mrs. Ethel McCormick to come to Omaha under the pretext of securing literature employment and wearing fine clothes and enjoying life. Mr. McCormick followed his wife to Omaha and, with two police officers, rescued her from the Martin resort Friday evening. It is said Mrs. McCormick was

working in a hotel at Casella at the time she left. Mrs. McCormick is being held at the Martin's resort at the city jail as a matter of course. The young woman, Mrs. McCormick, is anxious to return with her husband and the runaway wife seems equally anxious to return to the pastoral Casella. Mrs. McCormick is but 15 years of age. She was married at 15. It is reported love's dream was not continuously as blissful as it was at first. The young woman came to the attention of the police when she learned of her character. She looked herself in her room and averted the shame into which she came so near falling without knowing it.

WINONA BIBLE CONFERENCE

Tenth International Gathering of Christian Workers Ready to Begin Its Work.

WARSAW, Ind., Aug. 20.—The tenth Winona Bible conference and international gathering of Bible students and Christian workers will begin its annual session at Winona Lake Sunday, August 21, when the director, Rev. J. Wilbur Chapman, will deliver the opening sermon. All phases and topics of religious work are to be discussed by some of the leading pastors of England, Scotland, Canada and the United States.

Several Omaha ministers contemplate attending this conference. Dr. W. H. Burdick of the Second Presbyterian already is there.

PARAGUAYAN GOVERNMENT AND INSURGENTS FAIL TO COME TO TERMS

BURGOS AYRES, Aug. 20.—Passengers arriving at Paragon from Asuncion, capital of Paraguay, say that the truce between the Paraguayan government forces and the insurgents has been extended for a further period of forty-eight hours. The recent interview between the government and insurgent chiefs was without result. The latter demand three portfolios in the ministry, half the members of both chambers and the office of chief of police. The government concedes the ministries of foreign affairs and justice.

The government is said to possess 5,000 or 6,000 men, of whom about 1,500 are regulars and the rest unorganized men, who are daily deserting to the insurgents. The insurgent vessels have taken the departments of San Pablo, Villa Rosario, Concepcion and others. Families are emigrating to Asuncion, some are going to the interior and others are bound for Argentina. It is said that at the request of the diplomatic corps the government has agreed to lead not to further bombard Asuncion, so long as the government does not attack the insurgent squadron.

The number of cattle in Asuncion is limited and prices of provisions are rising.

PANAMA WANTS PEACE WITH ALL

Not Looking for War and Especially for Civil War. PANAMA, Aug. 20.—President Amador today informed the correspondent of the Associated Press that there is no truth in the report received in New York yesterday from Basco Ventura, Colombia, to the effect that the government of Panama had stationed a garrison at Nuiet, at the

A SIMPLE STORY

But one that is of vast importance to you. It touches the most vital point in your existence—YOUR POCKETBOOK.

CRANK THREATENS DEATH

Propounds Question to Federal Officers Bearing on Naturalization and Promises Violence.

NEW YORK, Aug. 20.—An anonymous letter was received today by Assistant United States District Attorney Joel M. Marx threatening the federal official and those connected with him with death if the prosecution and arrest of Italians for alleged naturalization frauds did not cease. Mr. Marx has since his appointment as assistant district attorney last January caused the arrest of many Italians on charges of naturalization frauds.

The letter, which evidently was written by an illiterate person, asks why the men who cause fraudulent papers to be issued are not arrested instead of the persons to whom they are issued. The letter was signed with a roughly drawn heart pierced by an arrow.

LEADS HIS MEN TO VICTORY

General MacArthur Takes Charge of the Maneuvers in California.

CAMP ATASCADERO, Cal., Aug. 20.—Today was Major General Arthur MacArthur's problem, the first of which he has taken charge of since the maneuvers began. It concerned with the march and deployment of a division. A blue force of two columns commanded by Colonel Markley and Ward and under the direct supervision of the general advanced against an inferior brown force, constituting an advance part of a main army supposed to be located at Santa Barbara.

The march included climbs over steep hills and many of the militia fell from the ranks from exhaustion. As an example of technical skill in handling men General MacArthur's strategy of today was worthy of his rank.

DISEASE IS A DEAR ARTICLE

Intelligent Laws Might Save Much Waste of Health, Life and Money.

By careful calculation the cost of malarial fever in Texas alone is estimated by Dr. Wolder to be at least \$2,000,000 a year and probably nearer \$10,000,000. One person in twelve in some places is down with the disease. What a good business plan it would be to save three-fourths of nine-tenths of this wasted money by preventing the disease. No physician doubts the possibility; the methods of prevention are well known and are easily carried out.

The public, however—at least its law-makers—cannot be brought to realize the wisdom of such economy. Money can be found for "junketing tours," public buildings of a political character, and a hundred less necessary measures, but nothing, or next to nothing for stopping the greatest loss to the community—that from disease. For every dollar spent to pay public health officers and the expense of preventive medicine there can be \$10 saved.

It is this financial aspect unfortunately that must be emphasized, and which, long enough and loudly enough reiterated, may at last bring about some attention and practical lawmaking on the part of our legislative bodies. Some philanthropist should give a \$1,000 prize for the best essay on the subject. "The Expense of Disease to the State" designed to show the common people how much could be saved by boards

DELICATE GIRLS

And women everywhere receive immediate benefit from a few doses of Hostetter's Stomach Bitters. It is especially commended as a cure for all womanly ills and has proven safe and reliable. Prominent physicians endorse
