The discrepancy cannot now be explained Cuts Off Kouropatkin's Retreat. TOKIO, Aug. 28.-5 p. m.-The general staff maintained silence throughout today concerning the fighting in the vicinity of Line Yang. It is reported that General Kuroki had seized and cut the railroad south of Mukden, thus separating the Rus-

sian forces and cutting Line Yang off from

a direct line of retreat, but confirmation of

this report cannot be obtained. The fighting reported occurring east and southeast of Lias Yang is regarded here as preliminary to a large contest in the immediate vicinity of Lino Yang. It is said that Generals Kuroki, Oku and Nodgu will press forward speedily.

Japanese Drive Russians Back FIELD HEADQUARTERS OF THE SEC-OND JAPANESE ARMY, Priday, Aug. 26, via Fusan, Kores, Aug. 28.-Today the Japanese grove the Russians back from the first line of defenses outside of An shanshan. The fighting was confined to an artiflery duel and lasted all day. It is and that a big battle will occur shortly near Line Yang.

DISCUSS CONTRABAND OF WAR

Commission Will Decide Attitude of

Russin on the Question. ST. PETERSBURG, Aug. 18.-A joint commission, representing the foreign and marine ministers, to be presided over by Prof. De Martens,, professor of international law at the University of St. Peters burg, will sit forthwith to consider the distinction between conditional and absolute contraband of war,

It is expected that the result will be communicated to the British and American ambassadors by the end of the week, and that it will tend to the removal of existing causes of friction.

RATEROAD COMMISSION IS BUSY

Finds Several Cases Adjusted Before Meeting is Held.

SIOUX FALLS, S. D., Aug. 28,-(Special.) -A great deal of business was transacted at a regular meeting of the State Board of Railroad Commissioners, which has just been held at the headquarters of the commission in this city. J. P. Williams of Delmont filed a petition with the board, asking that a sidetrack be constructed to his warehouse at that place. The board was informed that the sidetrack had been extended by the Milwankee company as prayed for in the petition. The Farmers' Elevator company of Lane

a new town on the extension of the Milwaukee railroad from Woonsocket to Wessington Springs, filed a petition with the board, asking that the company be granted an elevator site on the right of way of the Milwaukee at that place. The after considering the matter, granted the petition. A committee from the board which recently visited Lane made a recommendation to the Milwaukee company that an agent be appointed to have charge of the company's business at that place, the business of the company at that point warranting such action. The board, during the meeting, received notice that the recommendation had been complied with and that an agent had been appointed.

In the case of a petition of citizens of Booge, situated on the Great Northern north of Sloux Falls, asking that the company reinstate an agent at that place, the petition was granted by the board. It is understood the station already has been reopened with an agent in charge.

The beard, after considering the application of Thomas Engelbretson for an ele-vator site on the right of way of the Milwaukee company at Naples, decided to cant the application, and Mr. Engelbret-

will secure the desired site. A hearing will be held by the railros commissioners at Kimball on September on the application of F. C. Zemifcka for warehouse lite on the right of way of the Milwaukee Railroad company at that place There is a possibility that the matter ma be adjusted before the date set for ti hearing.

Creamery Company in Trouble. ABERDEEN, S. D., Aug. St.-(Special.)

The Central Creamery company of thi place is in financial difficulties which th local manager assures the patrons of th concern will be satisfactorily adjuste within a very short time. The compan is the unccessor of the Minneapolis Col Storage company, which went out of bus ness about a year ago. This week th local banks forwarded checks which they had cashed for the firm to the Mir neapolis Loan and Trust company for co lection, and they were returned protested. The local manager says the lack of funds on deposit at Mirmeapolls is due to the absence of the president of the company, who went east some time ago and was there taken sick, but that the affairs of the company will be arranged in a short time. The concern's headquarters are at Minnespolls, and it has branches at Aberdeen, Fargo and Watertown. Pending the settlement of the trouble, the business of the company is practically at a stand-The protested checks do not aggre-

MINISTER'S TRIAL Coffee Hit Him Hard Indeed.

A minister of the gospel writes about Postum: "I was for years a sufferer from headaches; sametimes they were so vio-lent that growning in agony I would pace floor or garden holding my throbbing head for relief.

"I tried all sorts of remedies known to the alopathic and homeopathic schools, sometimes I thought it was caused by the stomach or billousness and again I would suspect it was purely nervousness and treated myself accordingly, but nothing ever gave me permanent relief. Having to appear before the public nearly every night, it was sometimes almost impossible for me to fulfill my engagements. Finally I came to suspect that the use of tea and coffee had something to do with my disorder and acruptly discontinued the use of both and took on Postum for a trial.

"From that happy hour I commenced to nend; gradually I got better and better and now I do not have a headache once in 6 months and all my other troubles are gone too. I am now using Postum exclusively and what no better beverage. "I know of others who have been bene fited by the use of Postum in place of coffee. A friend of mine here in Key West, hardware merchant, suffered for years with stomach and other troubles while he was using coffee, finally he quit and begun using Postum and got well. He is devoted to Postum and when worn and weary with business cares takes a cup of it piping hot and in a short time feels rested and nour-

"Some I know have become prejudiced against Postum because careless or igno-rant cooks tried to make it as they would coffee and will not allow it to boil full 15 limites, but when they try it again, well boiled, it stays for it is as delicious and snappy as the mild, smooth, high grade Name given by Postum Co., Battle

OMAHA SHUTS OUT IOWANS

Takes Second Game from Des Moines Despite Umpire Keefe.

LATTER MAKES SOME QUEER DECISIONS Pfeister Holds Visitors Down to Four Hits, While Locals Get Seven -Score Three to

Nothing.

Once more did Pa's little rosebuds trample the Prohibitionists in the dust on the Vinton street picnic grounds. It happened yesterday afternoon, when Omaha took the game from Des Moines and Umpire Keefe, 3 to 6. Des Moines seemed to bear up under the second consecutive defeat really better than Keefe. The 4,000 fans present had particular occasion to remember that it was Mr. Keefe who held the indicator.

While yesterday's game did not develop many thrilling climaxes, such as the villain and his pale trying to blow up the bridge and caught by a posse at the critical moment, or the villain's brother stealing the mortgage and spied by the heroine's little sister; yet, at times, more or less gest was injected into the game.

Pa's happy Hooligans came into the lime-light of base ball publicity pargicu'a 1/ in the fourth inning, when they got two scores; of the three runs. In the first and second First the Rangers went down in one, two, three order, but in the third they started i when Gonding made a hit and then pilfere second. Pfeister and Thiel went out and left Gonding on second base, looking as friendiéss as a dogcatcher. Nick Carts started the fourth inning by going to sec ond on Connery's error in fumbling Lie field's throw. Howard was hit by a pitches ball and Keefe gave him permission to walk to first. Harry Welch then made hit and Carter was put out trying to ge home. Dolan scrambled to first on Clark' wild throw, and at the same time Howard and Welch scored. It was a little comedy of errors on the part of the lowans, bu it proved a windfall for the local players who made two runs and then had money enough left to buy a new bat.

Keefe Gets in His Work. In the seventh Schipke led the grand march by being struck out. Then Gonding walked and Pfeister went the way of all mortals who allow the umpire to call three strikes on them. Thiel came on the stage with a merry ba ha and a bat and sent out a two-base hit. Carter then made good for a single. Gonding scored and Thiel was retired trying to follow Gonding home. Fully 3.210 people thought Thiel slid to the home plate before the ball reached the base, but Mr. Keefe said Thiel was out and that was the end of Thiel. Anyhow they made three runs and no crepe was noticed around the Omaha bench.

The game was by no means a batting one, Omaha making but seven hits and the visitors but four, these being all singles save two doubles. Thomas made several rapid transit unassisted putouts, which caused many glad words concerning him to emanate from the seats. Pfeister's assist to Thomas in the eighth, when Hoffman sent out a breezy liner, was of the kind that get men's names in the story books. A crowd of rooters from the Iowa cap ital attended the game and gave vent to many exclamations. The noise of the visting rooters was led by "Mose," the Des Moines newsboy king, and was of the sort that can be heard in all parts of the

Before the game Umpire Keefe's 3-year old son, the youngest pitcher in the world gave an exhibition of ins and outs original with himself. Gonding caught Master Keefe's high balls and in the regular game that followed. Today is ladies' day at the Vinton street park. Attendance, 4,000, The score;

Never before in the history of medicine has the demand grown so rapidly as with Bromo-Lax. Our faith in the remedy was such that we instructed Sherman & Mc-Connell Drug Co. to sell every box under a positive guarantee that it would cure colds and headaches, or the purchaser could have his money refunded by Sherman & McConnell Drug Co. Bromo-Lax is different from all other

headache remedies-it's better-it's different from all other cold cures-it's better. It contains no quinine or any of its injurious compounds. It is not just a lot of drugs thrown together, but each ingredient is put in for a specific use. Each ingredient helps the other ingredients to perform their work. It acts upon the nerve centers of the head, breaking up the colds. It clears the passages of the head, and relieving those awful headaches that accompany colds and lagrippe. It acts on the stomach and bowels, relieving those awful sick headaches that come from stomach

FIRE RECORD.

Hotel Guests Get Scare. CHADRON, Neb., Aug. 38 .- (Special.)-A fire broke out in the Hotel Blaine this norning at 7:30. It started in the rubbage room of the barber shop. The smoke was so intense all over the three stories that the guests were completely blinded and made their exit through stairways, out windows and out on the roofs of the onestory additions and down ladders. Many of them did not wait for baggage, but in the end no one was hurt and the fire was soon extinguished. Loss estimated at from \$300 to \$500, fully insured. The hardest part was two invalids, one mine host, E. D. Satterlee, who has hardly been expected to live for several days; the other Mrs. F. H. Pope, formerly Miss McNamara of Omaha, who was just returning from Colorado Springs. It is thought there will be no serious result from the fire to either, though both were in the thickest of the smoke when carried out. Mrs. Hattle A. Edwards.

STRIKERS QUIETLY WAITING

No Word Comes from the Chicago Conference Concerning Settlement.

WEDNESDAY IS THE TIME NOW FIXED

Donnelly Will, It is Expected, Concede That the Strike for Unskilled Labor is Lost and Let Men Go to Work.

South Omaha was unusually quiet yesterday ,especially in strike circles. There was no congregation of men on the streets, and but a small proportion of those or strike called at either the labor headquarters or the mechanical workers' rooms, While news was expected from Vice President Vail, who is now in Chicago, no in-formation other than that contained in the Sunday morning papers was received. Some of the men who appear anxious to return to work appeared to be disappointed that no settlement had been reached, so that they could go back to the packing houses today. Wednesday is the day now set, so the leaders say, for the announcement of

One of the attorneys for the union men said last night that the men had not lost their fight as far as unskilled labor is concerned, and that he expected that for some time the packing houses/ would be open shops.

"This fight," said the attorney, "was called for the purpose of securing a minimum wage scale of 1814 cents an hour for unskilled men at all of the packing plants in the country and for a closed shop, the recognition of a union of unskilled men. As far as wages were concerned, South Omaha was not concerned, as the unskilled laborers went out to enforce the general demand for 1814 cents an hour at other plants and the recognition of only union buttons. The strikers have lost this fight, and now all the skilled men can do is to go back and for the time being let the unskilled workers shift for themselves. President Donnelly will most likely concede an open shop for unskilled men, with the understanding that skilled men are to be taken back as rapidly as their services are required."

Packers Have No Word. South Omaha packing house managers sserted last night that they had received no word from Chicago and for that matter did not expect any, as the plants here were operating all right. The same old statement was made by the packers' representatives here that there was nothing to confer about, and that all the talk about a conference was out of the question. However, the packers here do look for word

GREEN DRAGON RUNS AWAY Barney Oldfield Loses Control of His

Machine and Loses Race-Kills Two Men. ST. LOUIS, Aug. 28.-Blinded by the dust

thrown by the swiftly moving machine of A. C. Weeb of Cleveland, O., Barney Oldfield of Toledo, O., lost control of his machine in a false start of the fifth event of the World's fair automobile speed contest today and, crashing through the outer fence of the course, instantly killed, John Scott, a watchman employed at the park and inflicted injuries upon Nathan Montgomery, a negro, from which he died a few hours later. Oldfield was painfully injured and his machine completely demoiished. The accident occurred after a false start

The flagman vainly attempted to signal Oldfield and Webb, who were leading, that the start was not allowed, but they did not see his flag and continued around the course at a high rate of speed.

Shortly after passing the first turn of the mile track Webb secured the lead by a narrow margin and the men were in relatively the same position when passing the three-quarter pole. In making the turn Webb's machine skidded and raised a cloud of dust that completely blinded Oldfield and helf smothered him. Not being able to see that he had completed the turn, Oldfield continued his course and crashed through the fence.

When Oldfield failed to appear after Webb had emerged from the dust cloud there was considerable excitement, but It was announced that he was not seriously injured and shortly afterward he was driven to the club house in an automobile It was not generally known that the accident had resulted fatally.

H. E. Fredrickson of Omaha bought the Green Dragon of Barney Oldfield last week just after the wizard had used the speeder in shaving down the world's record in Omaha, but by the terms of the contract the machine was not to change hands before next February. Mr. Fredrick on was in Missouri Valley last night and could not be communicated with regarding the disaster. But one of the men at his garage expressed keen regrets and manifested much concern in the report of the affair, adding that he knew it would be a matter of sincere disappointment to Mr. Fredrick-

The race, after a short delay, was run being won by Webb by a large margin. It was the most important event of the day, the prize being the Louisiana Purchase exposition trophy, valued at \$500. Summaries:

COMMERCE OF THE PHILIPPINES

Exports and Imports for Eight Months Show an Increase of a Million Dollars.

WASHINGTON, Aug. 28.-During the eight months ended March last the total commerce of the Philippine Islands shows an increased value of more than \$1,000,000 according to a statement given our today at the bureau of insular affairs.

The statement says that the Philippine import trade advanced nearly \$2,000,000 in value and that a slight falling off is shown in the exports as a result of decreased shipments in copra and sugar, although hemp and tobacco are exported in larger amounts than for the corresponding threefourths of the previous year. Excluding gold and silver and United States government purchases the customs house returns give the total value of merchandise imported for the fine months ended March, 1904, at \$25,927,024, and the exports at \$25,-256,163, a 7 per cent increase in imports and 2 per cent decrease in exports. rice-growing sections of the British and French East Indies have enjoyed most of the increase in trade, the latter territory sending three-fourths of the \$10,000,000 worth of rice received.

Culvary Clover Grows Well. The Glastonbury thorn, of historic memory, and the close trees in the close of the National Cathedral on Sts. Peter and Paul, in this city, have a neighbor in the plant world now whose history is fully as interesting as their own. This is the Calvary clover which has recently been planted in the Cathedral grounds. The plant is a native of Palestine, but grows freely in the open air with a little care. As far as is known there is only one other specimen in this country in a private garden. In London, however, there are number of plants.

Calvary clover is one of those seeming freaks of the natural kingdom that tend to the nature of a miracle, and in some instances have materially aided in enforcing the cause of Christianity by their unconscious testimony. Its leaves, like those of other clovers, are trefoil, embodying the doctrine of the Trinity, the central truth of Christianity, and when they first ap pear above ground a deep red spot like blood appears on each division of the leaf After some weeks these disappear. During the day the tiny leaflets form themselves into the shape of a cross, but when the sun sets the arms of the leaf fold to gether as in prayer. In due time the blossom becomes a small

yellow flower and then a spiral pod covered with sharp thorns. In ripening the thorns interlace and form a really remarkable resemblance to a crown of thorns. Legend says it is well to plant the seeds

on Good Friday. In the long posa are eight tiny seeds, which planted in open boxes or grounds will splendidly reproduce this wonderful plant.

GENERAL CORBIN TAKES COMMAND Day Occupied in Discussing Details

of Military Problem.
HEADQUARTERS CAMP, GAINES-VILLE, Va., Aug. 28.-Maj. Gen. H. C. Corbin assumed command of the maneuver camps at Manassas thoroughfare and Gainesville at 1 o'clock today. The Fourth artillery band welcomed him with "Tenting on the Old Campground." Mrs. Corbin accompanied the general and remained in camp throughout the day, taking the evening train for Washington.

Gen. F. D. Grant, in command of Division No. 1, and Gen. J. F. Bell, in command of Division No. 2, at Thoroughfare, as well as all brigadier commanders from the two camps, paid their respects to General Corbin during the afternoon. Reports from the two division commanders were quested, and will be forthcoming probably tomorrow.

The strength of the two main camps at present is between 2,000 and 2,500 men. During the coming week this force will be augmented somewhat daily and will be occupied with drills and practice work. The nain thing to be accomplished in this time is the laying out of the two camps in skeleton form for the reception of the larger number of regular army troops and state militia to arrive next Saturday and Sunday. The sanitation of the camps is a subject of special study by medical offi-

cers. The signal corps, under command of Captain Carr, assisted by Captain Hatha-

An Ideal Place for Visitors Right Inside the Grounds-No Tiresome Journeys to or from the City-No Crowding-No Discomfort -Time and Money Saved.

No matter who you are or what you are; he matter if your purse be slender or otherwise, if you wish to see the World's Fair at St. Louis and enjoy every moment of your time, the best place to stay-indeed, the only place to stay-is The Inside Inn. The building of this splendid hostelry has marked a new departure in world's fair ac-

commodations, it being the first time that the administration of any exposition has taken the question of lodging and creature comforts of its visitors under its personal supervision. This the World's Fair management has done. The Inside Inn has been built with the same invish hand that has marked all other constructions at St. Louis. At is three stories high, 400 feet wide, 800 feet long, contains 2,257 bedrooms and can seat 2,500 people in its dining room at one sitting.

Every modern convenience obtainable has been installed and the comforts thus afforded enable visitors to enjoy the sights of the exposition whenever they please and then go to their rooms for a rest without a long, tiresome journey to and from their lodgings. A great saying of time and money is consequently effected, as sight seeing can be begun directly after breakfast and continued late into the night without any exasperating run for the "last car." No admission fee other than the first is required from those guests who remain within the precints of the fair at The In side Inn.

The Inside Inn is run on both the European and American plans and the rates are exceedingly moderate, ranging from \$1.50 to \$5.50 European, and from \$3.00 to \$7.00 American, including daily admission in both cases. The enormous capacity of the Innzide Inn assures first-class accommodations for all-no matter when or in what numbers they come but those who prefer to secure their rooms in advance may make reservations now for any period up to De cember lat. A NEW PRINCIPLE IN MEDICAL SCIENCE.

For years it has been the practice of medical men to treat patients suffering from piles by local, external applications. These treatments give but temporary relief, but have never affected a positive cure.

After months of research and study, accompanied by actual experience with various patients, Dr. C. A. Perrin arrived at a posttive conclusion as to the exact action of the various parts of the bowel system, under different conditions, and when subjected to various prescriptions.

He finally prepared that wonderful interaal remedy known as Dr. PERRIN'S PILE SPECIFIC, which is put up in bottles, retailing at all reliable drug stores for \$1.00 each. This internal remedy has been on the market for the past ten years, and in all of that time there has been but three cases where a

positive cure has not been effected. Dr. Perrin's Pile Specific is sold under a positive guarantee by the druggist making the sale, to refund the full purchase price, providing the remedy fails to cure. This is the absolute proof of its merit. Any man or woman who suffers from blind, bleeding, itching or internal piles can try this internal remedy with the absolute certainty that It will cost nothing unless it cures. Here is what one sufferer says of this wonderful
