fay was the leading future in wheat, its December appears to be the specu- ive center of interest in corn. At the ening there, were concessions of about the limest immediately the furn came d by 11 o'clock September wheat ha- ined 1%c, December 1% and May from	for wheat for milling purposes, together with reiterated reports of serious damage by rust to the crop in the northwest today, caused a sharp upturn in speculative prices in this market. Final figures on December wheat showed a gain of lige over yester- day's closing quotations. Corn was up you be could be a strong to the special re- day's closing quotations. Corn was up you be could be a strong to the special re- day's closing more than the special re- day's closing for the special re- day's closing strong unchanged to the beer by the strong unchanged to the beer at a the trans of the special re- der the strong unchanged to the beer at a strong unchanged to the beer at the option being unchanged to the beer at the special to the special re- tone. As the scalar advanced, the buying became more general, resulting in addi- tional strength. The main factor in the situation was the extremely bullish news an exceedingly small yield of wheat and that the movement of new spring wheat will be necessarily light, as urgent farm work will prevent free deliveries before cold weather. A good milling demand was to reported from the northwest, and this fact had a stimulating effect on the speculative trading here. There was heavy selling of May 'y some life operators, but offerings wore readily taken. The demand conflued excellent throughout the entire day, with the market closing practically at the high point. After selling at \$1.05% Clearances of wheat and four were equal to \$1,00 bushels. Primary receipts were 1,118,02 bushels. Compared with the 55,0 bushels. Compared with the special to \$1,00 bushels. Firmary	Was produced by the August ngures of out- put and consumption of iron showing an example of 56,000 tons in the weekly ca- pactry of the furnaces and a reduction of 150,000 tons in the stocks at the furnaces. The reported placing of a large order by the Japanese government for steei plates was also a fuvorable influence.
