GRAIN AND PRODUCE MARKET

Wheat Stimulated by Government Crep Report, Excited and Higher.

CONFIRMATION OF 125,000,000 ESTIMATE

Average Gain of Four Cents Over Saturday's Prices-Bulls Have Bard Work to

and the government report are sensational. Chicago considered it sufficiently so to advance September delivery right off, the instant the bell tapped, 2 cents, December 1%c and May 1%c. After this additional gains were made of %c on September, a point on December and %c on May.

From all sections come reports of urgent and anxious buying of cash wheat from millers, who now recognize the danger of supply shortage. Liverpool was decidedly atrong and higher and Paris prices jumped equal to 2 cents a bushel.

The corn situation is growing interesting because of the race which maturity is making with frost. From Des Moines and that vicinity frost reports were received, but not serious. The map did not show low ennough temperature, but it is frequently the case that there is a difference in weather position and ground of 10 degrees.

Corn, however, seems to have a hard time holding its own on the exchanges. The government crop estimate is excellent, and despite the strength in wheat, corn has hard work holding its own. The condition was given as \$4.5 per cent, as compared with \$0.1 per cent this time last year.

The wheat market received a new impetus when the visible supply was posted with \$0.1 per cent this time last year.

The wheat market received a new impetus when the visible supply was posted to this was added the sellers of calls on Saturday, the call price being passed by nearly a 2 cent advance. Thus atimulated, September, where there is apparently a shor: interest, advanced to \$1.09%, as compared with \$1.05%, Saturday, December to \$1.12%, as compared with \$1.05%, Saturday, D

to the close.

Corn for September was 1/2c higher, December 1/4c and May 1/4c, these advances coming late in the day in sympathy with wheat.

Boston Wool Market.

Boston Wool Market.

BOSTON, Sept. 12.—WOOl.—The Commercial Bulletin says: The wool market is firm and quotations are tending operations of manufacturers, extending over several stocks through the heavy operations of manufacturers, extending over several time of year. It is estimated that close to by per cent of Boston's allotment of Montana wool from the clip of 1204 was transferred to the control of manufacturers. Other territory is also well sold up. The situation is very strong and 70c, scoured. For fine territory is predicted. The week's deliveries exceed the receipts by over 1000, sext. Ool bas. The shipment of wool from Boston to date from December 31, 1933, according to the same authority, is 133, 431, 217 lbs. against 159,372,387 lbs. at the same time last year. The receipts to date are 152-65, 127,778 lbs. against 23,025,046 lbs. for the same period last year.

LONDON, Sept. 12.—The arrivals for the fifth series of woo sales closed today. The total arrivals for this series were as follows: New South Wales, 12447 bales; Queensland, 12,008 bales; Cape of Good Hope and Natal, 15,578 bales; Tasmania, 185 bales; New Zeniand, 3,290 bales; Tasmania, 185 bales; New Zeniand, 3,290 bales; Cape of Good Hope and Natal forwarded direct, making the total number of bales from Australiasia and 5,000 bales from Australiasia and Same with warded direct, making the total number of bales from Australiasia and Same with were baled over from the last series.

market could safely be quoted steau, to sirong and active on anything at all desirable. Packers were out in good season and at an early hour the bulk of the better grades was aut of first hands. The commoner kinds were not so brisk, but still they commanded steady prices.

The cow market was also active and steady to strong. The demand was genera; for all kinds, from canners to the choicest grades. Most everything offered was from the western ranges, not enough cornfeds being on sale to make a market. Trading was active from start to finish, and a good clearance was made before noon.

Bulls, veal calves and stags all soid freely at fully as good prices as were paid the latter part of last week.

There was an active demand for good, heavy feeders and also for choice vearlings at steady to strong prices, as compared with last week's close. The demand for the medium weight and medium to common class of cattle was none too brisk and some sales looked barely steady. There was a good demand though, for the desirable grades and everything answealing to that description was soon disposed of Representative sales: Representative sales

HOGS—There was a very light run of hogs in sight this morning, much smaller, in fact, than was generally anticipated. As the demand was of about usual proportions, the market ruled fairly active and generally a dime higher than at the close of last week. Owing to the fact there were only about 26 loads on sale, it took but a few minutes for a clearance to be made, and there was no particular change in the market from statt to finish. Heavy hogs were scarce, and could be quoted from \$5.40 to \$5.50, while medium and mixed loads sold from \$5.60 to \$6.70. It was very evident that all the packers had liberal orders and shippers were also looking for supplies, and consequently there were not near enough hogs to go around. The scarcity of heavy hogs today helped out the appearance of the market on paper to quite an extent. Representative sales:

ever was not very great. The quality of the bulk of the offerings was not anything extra.

There was a good sprinkling of feeders in both the sheep and lambs, and the more liberal offerings made buyers a little slow about taking hold and they were, of course, inclined to be a little bearish. They had to pay just about stendy prices for the desirable grades, however, and if there was any change at all it was on the commoner kinds, which were a little slow and perhaps a trifle lower,
