with 'he early break and this decline induced a large number of new buying orders.

Corn in Chicago was soft early in sympathy with wheat, going off see, but it recovered this and an additional fraction.

Traters are anxiously awaiting the government crop report as the arbitrator between Jores and Ingalis in their estimates. It is the general opinion that the showing will prove disastrous to Jones and his 2, 600,000,000 estimates. Nothing better in the way of weather could be asked for Primary Receipts—Wheat, 1,855,000 bushels, against 1415,000 bushels; corn, 274,000 bushels, against 1415,000 bushels, against 143,000 bushels, against 153,000 bushels, against 150,000 bushels, against 170,000 bushels, against 170,

NEW YORK STOCKS AND BONDS

Market Opens Irregular and Quotations Fall on Heavy Profit Taking.

There Was a Slight Rally in Steel Preferred, Copper, Lead, Sugar and Cotton Carrying Stocks,

NEW YORK, Oct. 2.—The motives prompting operations in stocks today were extremely difficult to fathom owing to the conflicting movements in different stocks in the same groups and supposably under the same influences, but it was discernable on general lines that the load of sales to realize was rather heavier than at any time heretofore on the present advance and sufficient to stagger the market and fairly carry it backward for a time. The forces in the market were able to rally themselves, however, apparently refreshed by the extent to which the realizing had been carried and to make headway toward recovery.

serves, however, apparently refreshed by the extent to which the realising had been carried and to make headway toward recovery.

The early trading had the advantage of the close and a still higher range of prices in London before the opening here. The usual Monday morning intelligence from railway traffic were particularly sanguine of future growth of traffic and reported good actual increase in freight movement of a result of the corn crop scare. The merchandise movement was reported to be expanding, but some failing off was reported in the grain market, especially of corn. The later rise in the market on Saturday seemed to have definite sentiment over the bank statement and to leave no ground for depressing influence from it in the absence of any actual rise in money rates. The confidence engendered by last week's sustained rise in prices had been brought on an unusual accumulation of buying orders over Sunday. Yet with all these advantages there was such a mass of profit-taking sales thrown upon the market that prices promptly receded after opening irregular and continued to gravitate to a lower level, until many of the leaders were a point or more below last week's closing. The advance of St. Paul was apparently designed to sustain the rest of the market, and with its 3½ per cent semi-annual dividend deducted it looked cheap and was correspondingly easy to advance. It was the only off, point of resistance in the market until the appearance of the government estimate of cotton and a comparative advance in the cotton-carrying stocks, except Southern Railway and Louisville & Nashville, which were burdened with profit-taking on their former advance. On the rails there were points of strength in the trunk line group, but Pennsylvania was a conspicuous exception. The industrials also railled strongly, including United States Steel preferred. Amalgamated Copper, Lead and Sugar.

Time money was quoted a little firmer and the downward course of sterling ex-

ferred. Amaigamated Copper, Local Sugar.

Time money was quoted a little firmer and the downward course of sterling exchange was checked. Gold was marked up in London and the course of sterling at Paris and the weak return of the Imperial Bank of Germany indicated that New oYrk would find rivals for any demand on London for gold.

Bonds were irregular. Total sales, par value, 4,505,000. United States bonds were unchanged on call.

NEW YORK, Oct. 3.—METALS—The London tin market reported another advance, with spot at £128 128 6d and futures at £128 158. Locally the market was a shade higher in sympathy, being held at £28,1028,30. Copper was also a shade higher in London, closing at £58 5s for spot and £58 7s 6d for futures. Locally the market shows a stendier tone, but is without material changes. Lake is being held at £12.786/31.30; electrolytic at £12.769/12.874, and custing, at £12.506/12.62½. Lead was unchanged at £4.206/4.30 in the local market and at £11 178 6d in London. Speiter was unchanged at £1.106/6.20 in New York and at £22 7s 6d in London. Iron closed at 50s in Glasgow and at 48s in Middlesborough. Locally iron was unchanged. No. 1 foundry northern, £12.256/12.50; No. 2 foundry northern, £12.256/12.50; No. 1 foundry southern and No. 1 foundry southern soft. £13.506/12.75.

NEW YORK, Oct. 3.—COFFEE—Futures opened steady at a decline of 5210 points in response to rather easy European cables and expectations of an increase of about 800,000 bags in the world's visible supply figures for the month, which would make the total world's visible considerably the largest on record. There seemed no increase in bear speculation, but the adverse influences reported checked demand and the market showed no improvement during the session, closing standy at a decline of 5 points. Sales were reported of 26,500 bags, including October at 6,65c. December, at 6,80c.5c; March, at 7,1007,15c; May 7,3007,35c; July, 7,450 7,50c; September, 7,50c, Spot Rio steady; No. 7 invoice 8%c; mild quiet.

CATTLE—There were about 4.000 less cattie here today than arrived a week ago, as
will be seen from the table of receipts
above. From the way packers acted, howabove. From the way packers acted however, it was evident that the supply was
ample to meet their requirements, at least
so far as the western atters were concerned. Other kinds of cattle sold freely
enough at fully steady prices.

There were just a few cornfed steers on
sale and some of them were of good quality. The market could not be quoted anything but steady, though there was scarcely
enough offered to make a test of the situation.

thing but steady, though there was scarcely enough offered to make a test of the altuation.

There were around 100 cars of western beef steers on sale, and as rather unfavorable reports were received, from Chicago, packers were very slow about taking hold and their bids were lower. As a general thing, the market could be quoted slow and weak to a dime lower. It was late before much business was transacted.

Close to sixty-five cars of cows were included in the offerings, and as buyers all seemed to have liberal orders to fill, they were out in good season and trading was quite brisk, with prices steady to strong, as compared with last week's closing prices. The demand was general for all kinds, so that the bulk of the offerings was disposed of in fairly good season.

Bulls, veal calves and stags all sold in much the same notches they did toward the close of last week.

Speculators succeeded in closing out the bulk of their cattle last week, so that they were all anxious for fresh cattle this morning. Receipts were quite liberal, but anything at all desirable could safely be quoted active and strong, with some sales quite a little higher. In the case of common and light stuff, there probably was not much improvement in price, but it was easier to dispose of such kinds than it was last week.

2 cows.... 905 2 25 11 helfers. 519 2 00 8 cows.... 905 1 50 HOGS-There was only about a normal run of hogs on sale here this morning, but reports from Chicago were very bearish and as a result local packers started in to pound the market in bad shape. Shippers, however, had some orders to fill and it soon became evident that there were noncloo many hogs to go around, so that trading became more active, and instead of bidding spiloc lower, packers were willing to take the hogs at a decline of a nickel. The general market was just about a nickel lower, with the bulk selling around \$5.70 ps. Some of the coarse heavies were a trifle cheaper than that, with the better grades of medium weights from \$5.70 ps. 5. Choice light and butcher weights sold from \$5.75 to 35.85. The top price today is a nickel higher than on Saturday, but the hogs were much better today than any offered on Saturday. Trading was rather slow all the morning, but still a good clearance was made in fairly good season.

Packers are now looking much more at quality than they are at weight. Light hogs are still selling at the top of the market, but in order to do that they must be of good quality. Hogs of good quality weighing from 200 to 250 pounds seem to be in the greatest demand at the present time. Representative sales:
