FOOTBALL PLAYERS CRIPPLED

Not for Years Have So Many Nebraskans Been Out of Condition.

RICHARDSON WAS NOT HURT IN GAME

Illness at Denver Said to Be Recurrence of Disease Which Has Troubled Him for Years.

LINCOLN, Oct. 12-(Special.)-The un preparedness of the Cornhuskers for their grueling game of last Saturday against Colorado is reflected this week by the long hospital list which Coach Booth has encountered. The blunt facts concerning foot ball affairs in Nebraska are that not for many years have so many 'varsity players been crippled and out of the game on account of injuries. Three of Booth's men were in bad shape when they went to Colorado, but the stress of circumstances compelled Booth to use them in the game. To this list has been added three more players, and Booth's cup of wor, as a con. sequence, is full to the point of overflowing. Booth expects future opponents to accuse

him of manufacturing "bear" stories, but his hospital list, in truth, includes the following men: Tuckles Cotton, Speer and C. Mason; Guards Barta and Borg, and Mills, the big center. The injuries to Cotton, Mills and Speer have been sufficient to keep them entirely out of the practice and not one of this trie has had on his suit during The other three have been the week. wearing their moleskins, but participation in scrimmage practice is allowed them only to a limited degree. Booth is quite hopeful that all of the six will be back in shape before the end of next week, and no great harm would be done were it not for the fact that 'varsity men, not substitutes, are needed in the lineup every day for the development of team play, a feature of fool ball as necessary as brilliant individual performance. Booth will deal tenderly with his cripples and keep the severest cases. out of next Saturday's game against Creighton university at Omaha, depending upon using two or three substitutes to aid the rest of the regulars in achieving a victory. He has decreed, however, that there must be no loafing in the Creighton game and he will expect his pupils to work every minute for a high score.

Case of Richardson,

The case of Guard Richardson, who substituted for Borg during the final fifteen minutes of the game at Boulder, has added to Booth's troubles. Richardson has been in Denver since Sauarday night in the care of physicians, Assistant Coach Westover staying with him to bring the man back home when he recovers. The dispatches since Sunday have been full of glaring reports that Richardson was kicked on the head during the game, later becoming a raving maniac, and that his life was de-spaired of. The enemies of fort ball-and there are some of them in Nebraska-have seized upon Richardson's plight to prove that it is a diagerous pastime and should be abolished. An investigation by the Ne-braska athielic authorities discloses that hat his illness was simply a recurrence of an old allment, of which Booth knew noth-ing. Richardson was a soldier in the Sec-and Nebraska regiment and was in camp it Chickamabgua. The colonel of his regi-ment and also a comrade in his company now explain that Richardson was subject is such afficies when he served as a soldier Violent physical exertion almost invariably stituted for Borg during the final fifteen minutes of the game at Boulder, has added Violent physical exertion almost invariably

and once, after a bicycle race in which Richardson was one of the riders, he became violent and was out of his head for several days. His experience at Boulder was but a recurrence of his old trouble. Booth, of course, cannot allow Richardson to play any more foot ball, but it brought him at least a semblance of relief to know that the man's attack at Denver had no relation to an injury sustained in the game. Reports from Denver are to the effect that Richardson is again rational and that Assistant Coach Westover will soon be able to bring him back to Lincoln.

Preparing for Minnesota Game.

Despite the absence of so many of his Flick, rf. Lajole, 2b. Stevall, 1b. Bemis, 1b. Turner, se Lash, cf. Biuelow Hick regulars, Booth is making a desperate en. deaver to point the others for the big game with Minnesota. The defeat his men sustained last week at the hands of Colorado has not had a despairing effect. The wide margin in Nebraska's favor in advancing the ball convinces Booth that he had the better team and that it was a case of tough luck, and not inferiority, which was responsible for Colorado's success. The players are satisfied that they could take Colorado's measure on any other day with reasonable case and by a decisive score, and they are getting into the prac- 1:40. tice with an much vim as if the unexpected had not happened at Colorado. This pleases Booth, who is willing to be quoted

that future opponents will not find the Cornhuskers easy, and he has forgotten the past by zealously preparing for the Several of the men are showing superb

and the ripping way in which they are working against the scrub team gives Booth hope that they will be ground gainers in an actual contest.

Manager Davis is still dickering with the railroads for a reduced rate to Minneapolis on October 29 for the Minnesota game. So far the railroads have not offered a fare

sufficiently low to satisfy the manager's desires, but he is hopeful that the roads will yet come to time by scheduling a rate that will attract several hundred rooters. But Minnesota is not the only foe that Nebraska fears. Iowa is reported to be coming along at a stiff pace, while the Haskell Indians are expected to give the pale-faced Cornhuskers the contest of their 1:45. lives. Illinois also is feared by Booth and his pupils must get very busy if their future battles are to result in victory.

Overwork Killing Us

in the Great Struggle for Wealth and Position We Are Becoming Weaker Than Our Foretathers.

By the cares of business and social life we use up or waste away the most vital elements of the human body before we realize our weak and run down condition. It seizes on us so quietly at first that little or no attention is paid to the symptoms, which commence with a queer, bewildering sensation in the head, later the power to concentrate the thoughts, so ecessary to brain workers, is lost. Following this will come deficient sight or blurred vision, muscular weakness and a dull pain in the small of the back. There is a tendency to tire easily: the digestion becomes impaired; the temper irritable; spirits depressed, ending in complete lack of confidence and a general feeling of disgust at our own weakness. When the blood and nerve forces have been wasted by disease, overwork, worry. brain-tire, high living, dissipation or other bad habits, Dr. Chase's Blood and Nerve Food rebuilds the system by replacing the same substances that have been lost. San Francisco Lad Lusted Less Thay Five Rounds.

Five Rounds. ST. LOUIS. Oct. 13.-In a fight tonight for the title of featherweight champion of the world. Tommy Sullivan of Brooklyn was given the decision over Abe Atteil of San Francisco in the fifth round of what was to have been a twenty-round contest. Attell went out with a low left upper to the stomach. He dropped to the floor, roll-ing about in apparent agony and claiming a foul. The decision of the referee was withheld for five minutes until examina-tion had been made by three physicians. As the doctors sound bo signs of a foul, the decision was given to Buillyan. The fight was a fine exhibition of sciences in which neither man received much pun-ishment. In the first three rounds Atteil account of the science of it.
