C., Oct. 18.-Sir: By executive order of May 9, 1964, I placed under your immediate super-vision the work of the Isthmian Canal com-mission, both in the construction of the ca-nal and in the exercise of such govern-mental powers as it seemed necessary for the United States to exercise under the treaty with the republic of Panama in the canal strip. There is ground for believing that in the execution of the rights con-ferred by the treaty the people of Panama have been unduly alarmed at the effect of the eablishment of a government in the canal strip by the commission. Apparently they fear lest the effect be to create out of part of their territory a competing and in-dependent community which shall injuri-ously affect their business, reduce their avery great benefit by the expenditure of millions of dollars in the construction of the origing is not be avoid creating any suspicion, however unfounded, of our intentions as to the inture. A person in order to be healthy must get rid of the waste products (or poisons) of the body. Nature has provided four ways to get rid of them: The Bowels, the Kidneys, the Bladder and the pores of the Skin. If the bowels become inactive, that portion of the food which should be thrown off lies in the intestines and decomposes, causing blood, nerve, liver and kidney trouble, and closes the pores of the skin, thus creating disease in the entire system. of the skin, thus creating disease in the entire system. After a conference with the scoretary of state and yourself, I have con-cluded that it will be of great advantage if you can visit the isthmus of Panama in person and hold a conference with the president and other governmental authori-ties of the republic of Panama. Are you staggering under the burden of a secret weakness which is a slow but sure drain on your strength and vitality? In your present condition are you fit to hold a responsible position? Can anybody rely on you or can you rely on yourself? Is your body almost wrecked and your brain in a whirl? It is terrible to be in this condition, but it is still worse to allow it to continue and become more aggravated, for it will then fill your whole life with failure, mis-ery and woe. There are thousands of ruined and cheerless homes, filed with discontent and unhappiness, lacking in love and companionship, through the sexual weakness and physical impairment of men whose years do not justify such a condition. tor Seventh Time. HAMILTON, Mass., Oct. 19.-Harvard won the intercollegiate golf championship for the seventh time today, defeating Yale in the thail round of team matches on the links of the Myopia Hunt club by a score of 184 to 7. Three Harvard men and two Yale players won their matches, while the leaders of the two teams, H. C. Egan and Max Behr, were even up at the end of the day's play of thirty-six holes. The Crimson victory was due to the steady work of Malcolm McBurnie. W. Egan and W. C. Chick, all three of whom won their matches declaively. The Yale winners were W. Clow and R. Abbat. The Yalo winners were W. Clow and R. Abbott. The great contest of the day was between H. Chandler Egan, the national champion and captain of the Harvard team, and Max Behr, who led the Yale players. The match was not only close, but well played both morning and afternoon, the players being even up at the end of each eighteen holes. Behr was two up at the end of the first nine holes, while Egan ob-tained a lead of three at the twenty-sixth. Then Behr, by playing par golf, won four holes in succession and took the lead. Egan squared matters on the thirty-second hole, while the next two were halved, one of them being played brilliantly and the other very poorly. It looked like a victory for Yale when Behr won the thirty-sixth, four strokes to five, but Egan laid his sec-ond shot onto the home green and, taking the usual two puts, won the hole and squared the match.
