He charged that the officers of the government are now practically chosen by a handful of corporate managers who contribute the assets of the corporations to keep the conduct of the government in the hands they consider best for their private interests. In a comparison of modern and early methods of raising money for the conduct of political contests, Judge Parker said:

Individuals of all classes used 'o con-tribute to the campaign fund. Vsat sums are now contributed by corporationa which thrive through government favoritism. This has built up the class calle float-ers and has made them a most important factor in elections.

He asked: "Why do they contribute? If public welfars and the interests of subscribing corporation or trust should conflict which would likely be protected?

"The question to be settled is whether the floaters and illegal combinations can together control an election in this country. Such a contest means on one side vast sums of money and every man with an itching palm. It ought to array every honest, independent and patriotic citizen on the other side."

Jesse Grant of California, son of the late General Grant and a candidate for congress, visited Judge Parker today.

Emperor Nicholas himself was greatly aggrieved when he heard the news while he was inspecting the cruiser Oleg at Cronstadt this afternoon, and Foreign Minister Lamsdorff expressed to Ambassador Hardinge his deepest personal regrets. The Russian embassy at London has also been directed to convey similar expressions to the government of Great Britain. It is felt that this is all that

can possibly be done pending the receipt of the admiral's statement. That a horrible blunder has been committed is recognized and deplored everywhere, and nowhere has an attempt been made to justify the firing upon innocent fishermen. It is felt that Rojestvensky

Thus far no official word has been received from St. Petersburg as to the attitude of the Russian government.

Russia Will Apologize The fact that it had been decided during the day to prepare a semi-official note expressing the regret of the Russian government and its willingness to make full reparation so soon as the responsibility was fixed was communicated by the Associated Press to Lord Lansdowne and was the first information on the subject he had received from St. Petersburg. The absence during the day of Count Benckendorff, the Russian ambassador, necessarily caused some delay, but the Russian charge d'affaires, who called at the foreign office on request by note from Lord Lansdowne, unofficially expressed deep regret and, as far as it was possible for him to go, gave assurance of speedy action by the Russian government. Lord Lansdowne, in the interview, told M. Sansonoff, the charge, that he desired to see Ambassador Benckendorff Tuesday morning. Lord Lausdowne asked M. Sansonoff if he could offer any explanation of the affair, and the latter replied that he only knew what had appeared in the papers and that he had not received
