Northwestern Does Not Change Tariff, as Was Generally Announced.

ONE DOLLAR AND ONE CENT STILL A TON

Sealer Thinks Solution of Problem May Yet Be Worked Out of the Northwestern's Independent

Position.

Some days ago the Northwestern issued a new tariff sheet restoring coal rates to the same basis as other reads, \$1.06 a ton for steam coal. Pressure of the most strenuous character was brought to bear on the Northwestern to take this action, practically every road bringing coal into Omaha urging the advance, with the consumers urged the maintenance of the reduced rates! In this they were encouraged by the efforts of the Commercial club. It was hoped that, through the maintenance of this rate by the Northwestern, the Burlington, Wabash and Missouri Pacific would be compelled to restore the rates existing before the commencement of the agitation some months ago.

It now develops that the Northwestern never circulated the rate sheets and that instead of the advance taking effect the old rate of \$1.01 a ton is still in force.

"It is to be hoped," said a Sixteenth street coal dealer, "that the Northwestern will stick to its existing rate and will not make any more flops. While it looks now as if there was little hope of bringing the other roads into line, the fact that the Northwestern holds to the \$1.01 rate may yet work out the problem." No Cunarder Sunk.

Anders F. Maren, traveling passenger agent for the Cunard steamship line, is in the city. Mr. Maren is spending a share of his trip to the west in denying the stories recently sent out that one of the Cunarders had sunk off the Spanish coast, He said the company had never lost a life through an accident of this kind and that at the time the story came out a few days ago, the Slavonia was in midocean, Ultonia was near New York.

Mr. Maren is enthusiastic over the new Cunard line. This will be the largest and fastest ship of its kind affoat and is expected to make the trip across the water in four and one-half days. The distance to Liverpool is 3,0% miles and the speed will be almost equal to a passenger train. The ship will consume 1,000 tons of coal daily. It is 800 feet long, 88 feet wide and of 40,000 tons burden. It will have a tur-

of developing twenty-five knots an hour. Western Passenger Association. An official call has been issued for the meeting of the Western Passenger association which is to be held at Chicago beginning November 3. A number of questions will be brought before the meeting One of the most important matters is the subject of extending the jurisdiction of the ssociation to southern passenger bureaus The question of half rates for teachers and pup.ls of Indian schools also is to be brought up for action of some kind. At present the rate is made only in this territory, but the question of extending the rate to other territories is to be acted upon. The privilege, it is said, has been abused in the past and persons have ridden on half rate tickets who were not entitled to the privilege. For this reason there is

opposition to enlarging the field. Another complicated question is that of the application of short line rates between Cleveland and Omaha by way of St. Louis and Kansas City.

Phiform rate sheets will be recommended and final action will be taken on the matrates for the Epworth league convention and the national encampment of the Grand Army of the Republic, both of which will be held at Denver the com-

Now Six Years Old with Thick Hair and Clean Scalp. Cure Permanent.

"My baby was about six weeks old when the top of her head became covered with thick scales, which would peel and come off, taking the hair with 1. It would soon form again and be as bad as before. I tried several things had as before. I tried several things and then went to the doctor. He said it was Eczema, and prescribed an ointment, which did not do any good. A friend spoke of Cuticura Soap. I tried it and read on the wrapper about Cuticura Ciutment as a remedy for Eczema. I bought a box and washed her head in warm water and Cuticura Soap and gently combed the scales off. They did not come back and her hair grew out fine and thick. She is now a year and a half old and has no trace of Eczema."

### THURSTON COMES FROM EAST Former Nebraska Senator Brings News of Republican Promise Everywhere.

ROOSEVELT STRONGER EVERY DAY

Hill Weights Down Parker and Davis Does Not Help Him-Big Republican Meeting at Boyd Theater.

John M. Thurston, ex-United States senator from Nebraska, arrived in Omaha yesterday from the east and was cordially greeted by old friends and neighbors. Senator Thurston, who will speak this evening at the Boyd theater, is being entertained at the Omaha club. morning at his late residence, 4804 North He has been campaigning in New York Twenty-fourth street, has been buried at and other states and is highly pleased

"The outlook through the entire country Omaha. Rev. C. W. I would like to say McKenzie family for a century. The book something that would scare the republicans into going to the polls to vote.

> as doubtful. "What do you call the doubtful states?" "Well, New York, Connecticut, New Jer-

sey, West Virginia and Indiana. I think New York will go republican by from 16,000 to 20,000 majority. "What do you think of West Virginia?"

"I think we are going to carry the state by from 12,000 to 15,000 anyway." "What do you think of the state ticket n New York!" Closer Than National Ticket.

"I think the vote will be closer than the national ticket, but I believe the situation is very promising. The democrats are not so sure as they were. The betting started favorable to the democratic candidate for governor, but it is changing and they are now offering odds of 10 to 8 in favor of the republican candidate. The men who make these bets are pretty shrewd and they watch the conditions. I made two speeches in New York City and filled about thirty engagements in the interior cities of the state. The republican counties are stronger than ever and the republicans have been gaining ground in the democratic counties When you get among the people you can't hear of a case where a republican is going to vote against Roosevelt."

thuslasm in the east!" "There is very little enthusiasm on either side this year. There is no red fire, but I have never seen better meetings. The personal injuries that have made him a young voters I find are for Roosevelt and they are attracted to him by the same qualities that the democrats charge as

"Does there appear to be much en

making him a dangerous man." "Do you think the fact that Parker is a Hill man, has lost him votes. "I think that is one of the factors that have lost votes for Parker."

#### Davis Not Strong Candidate. "Do you think Davis will affect the vote

in West Virginia?" "From what I hear the people say sion announces examinations to be held don't believe the fact that they have a to secure eligibles from which to make vice presidential candidate cuts very much figure. The people there say that Davis ings and a Saturday matinee, is being conwill not bring Parker 1,000 votes and that he will affect the vote very little outside of his immediate neighborhood."

"How do you find the situation in In dlana?" "I was in Indiana only three or four days, but republicans regard the state as safe. Republicans are standing by ment at large. Salary, \$1,500 per annum. Roosevelt, and the party leaders there say there is absolutely no cause for appre-

hension. Some of them are predicting a very large majority." 'What sort of issues are the democrats

making in the east?" "Well, they are making a strong issue of the tariff question. Roosevelt's personality is also a subject for criticism. They are still holding up imperialism, but it doesn't seem to cut much figure. If the democrats could vote at any other time on the question of keeping the islands, two-thirds of

them would vote favorably." "How does the east look upon the west?" "Our managers look upon everything west as republican with the exception of Nevada, Montana and Colorado. They have strong hopes of Montana and Colorado."

Senator Thurston will leave for Butte and Helena immediately after the meeting this evening. His appointments will take him up to Saturday night and he is not positive what arrangements then will be made, but he says it is not improbable that he will speak at Lincoln on Monday night.

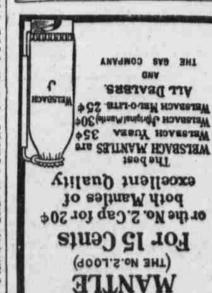

Reception by Fontanelles, The Fontanelle club has announced that it will give an open reception in honor of ex-Senator John M. Thurston in its club rooms after the meeting at the Boyd this evening. John Lee Webster will be chairman of the affair, which is in charge of a general committee composed of J. H. Van Dusen, Cadet Taylor, M. Morris McKay, Nelson C. Pratt and E. A. Benson. Senator Miliard has been named as chairman of the committee on reception.

The case has been appealed to the district court and its outcome is being watched with interest by all local jewelers, as it involves a point of much concern to them.

### MONTH FOR POLICE Nine Hundred and Twenty Arrests for

Various Causes Made During October.

October proved to be one of the most aggressive months the Omaha police department has experienced for a long time. Notwithstanding the inadequacy of the patrolmen and detectives from a numerical standpoint, a larger percentage of criminals in proportion to crime committed have been apprehended during the last month than any previous month, according to the records.

The following is an abstract of the police records for October:

Total number of arrests, 920. Thirty-three were bound from the police to the district court as follows: Robbery, twelve; forgery, three; grand larceny, three; larceny from person, three; breaking and entering, four; larceny of property, one; burglary, three; incorrigibility, four. Six fugitives from justice were apprehended and turned over sent to the county jail.
