This committee has conducted a national The Bee.)-Sir Thomas R. Dewar, M. P. has received the following letter from Mr. Chamberlain

This committee has conducted a national canvass in a manner, it believes, bentiting the dignity and integrity of the American people. It has advanced no imaginative claims respecting results and not accepted for one in the campaign a single dollar from the tariff-bred trusts, whose exactions have so greatly increased the cost of every necessity of life and which are now contributing from their gains great sums of money to perpetuate republican rule.

The democratic candidate, if elected, will be absolutely free from obligation direct or implied, to any person, or group of persons, other than the whole people who shall intrust to him the maintenance of the welfsre of the republic.

This committee asks for itself only so much credit as its conduct of the canvass may merit, but it does teef that both the party and the country are to be congratulated upon the fact that out of discordance and weakness has been wrought a ution of strength. The difficulties attendant upon this archievement are well understood. At every durth, by every conceivable method, in every durth, the efforts which we maintain to have at least hear patriotic and claim to show credit to beth the candidate and this committee, have been met by an avalanche of money.

The people of Washington county voted once or twice on the proposition to refund them and the vote was overwhelmingly against it. In 200 great manufacturing establishments of the United States wages fell \$13,000,000. Railway employes fell off 100,000 in number and wages were greatly reduced among those who were fortunate to retain their positions. It is estimated that the loss in carnings by the laboring men in the United States averaged \$380,000,000 a year and over \$1,000,000 a day during the tntire period from the election of Cleveland and a free trade congress to the election of McKinley and a protection congress. ensued and a number of persons were injured. from the election of Cleveland and a free trade congress to the election of McKinley and a protection congress.

Poverty and destitution were abroad throughout this great land. Thousands of laboring men throughout the land begged their daily bread from free bread and soup houses. The republican party assumed control again in 1897 and the country rapidly recovered from the terrible period preceding. The wages of workingmen over the country in 1990 amounted to more than \$800,000,000 more than in 1894.

Concerning state issues there are several matters of vital importance to the wage earners of the state. I maintain that the garnishee law is the paramount issue of the campaign in Nebraska. Governor Mickey is entitled to the support of every laboring man and wage earner in Nebraska, whether he be republican, democrat, socialist or what not. The original bill as drafted by the corporation and business interests of the state provided for imprisonment for debt. It was not, however, introduced because no one had the courage to do so. This fact shows to what extent the corporations of the state desires to grind the laboring man with the iron heel of class legislation. The bill as pressed was modified a great deal, but was vicious nevertheless and a measure of extreme class legislature.

but was vicious nevertheless and a measure of extreme class legislature.

The laws of this state allow the head of a family to hold exempt a homestead worth \$2.000 in addition to all household furniture. They also allow the head of a family, if he owns no homestead, personal property valued at \$500. I maintain, therefore, that a law which would allow one class of citizens to exempt from \$500 to \$2.000 worth of property and refuses to allow a laboring man an exemption of \$50 is criminal and malicious.

SUMMARY OF WAR SITUATION Indications that the Japs Will Try to Force Another General

Engagement.

Military activity in the vicinity of the Shakbe river is limited to the extension and strengthening of entrenchments. There are indications that the Japanese have not given up the plan of seeking to force General Kouropatkin into another general engagement, although in military circles at St. Petersburg the belief is expressed that there will be no other big battle in the who campaign this year.
