While we show many beautiful new weaves, the chief element of novelty is perhaps in the new colors. Of these, browns, rich in color but not gaudy, in a wonderful range of tones and hues; particularly the new shades of golden or light mahogany browns take first rank as a favorite for the season. We would like to describe some of the new dress goods as befits their beauty, but space allows only the most meager mention, a look will tell you more.

NEW SILK AND WOOL CREPE DE PARIS.-This beautiful line of new fabrics, in more comprehensive, more instructive, more attractive in its handsome line of choice colors and variety of new weaves, than can be seen anywhere else in this city. It is a season of soft, supple, graceful draping fabrics, all colors and black, \$1.00, \$1.25, \$1.50, \$1.75, \$2.50 a yard.

Mrs. Davie Lokins was awakened at 3 a. m. by an explosion in a store and called her husband. He took his rifle and aroused Frank Conroy, James Mallison and Marshal Charles Conn. The four secreted themselves and soon saw the three robbers entering the creamery. The citizens opened fire and the robbers returned it. A score and more citizens were attracted by the battle and the robbers fied.

One of them was felled by a shot and crawled to the Illinois Central depot and was taken out in a dying condition. A second escaped and applied at a house some distance away and has not been found. On the step where he stood a great pool of blood was left and it is considered practically certain he is dead by this time, though he has not been found.

The third escaped, but is pursued by, a posse and is expected to be caught. They are supposed to be the same men who Saturday night blew the Illinois Central depot safe at Storm Lake, the next station, but got no money.

LAS ANIMAS COUNTY CASES

Democrats Ask Supreme Court for Writ of Prohibition Against District Court-Charge a Woman with Fraud.

DENVER, Colo., Nov. 28.-Governor-elect Alva Adams came to Denver from his home in Pueblo today and will remain until after the banquet to be given in his honor tomorrow night. He does not take the threat of the republicans to prevent his accession to the governorship seriously and has rented a house here for the two years of his term. Mr. Adams expressed the opinion today that Governor Peabody, after an investigation of the election returns. would reach the conclusion that he was not the people's choice for governor and

would gracefully retire. It is announced that Governor Peabody will appoint the two additional justices the supreme court, irrespective of whether he holds office the next term or not. Under the constitutional amendment adopted at the recent election the court of appeals and supreme court consolidate on April 5 next and two of the judges provided for are to be named by the governor. The legislature will meet one week before the next term of the governor be-

Contest for the Senate.

During that time or prior the state canassing board will declare the amendment adopted. Governor Peabody will make the appointments, and the senate, if republican, will confirm them. Should the democrats control the senate, Governor Peabody's appointments will be rejected and Governor Adams will appoint the two judges. The canvasa of the votes in Denver and Pueblo counties has not yet been completed, but from the unofficial returns t appears that the democrats will control the senate by a majority of two or three unless the state canvassing board throws out two or more of the democrats who are apparently elected and seats the republlcan candidates. The democrats are endeavoring to checkmate their opponents by preparations to prosecute republican workers for alleged violations of the election laws.

Woman Charged with Frand. Mrs. Rosa Snyder was arrested today on warrants charging her with buying votes at the late election. Lizzie Cummings and was one passenger, E. Kerscher, residing other women have made affidavits that Mrs. Snyder gave them \$5 each to vote the republican ticket. Mrs. Snyder is a complainant in one of the cases against democrats arrested on warrants issued by side of the road with drawn revolvers and United States Commissioner Capron charwith handkerchiefs tied over the upper ging conspiracy to intimidate voters in violation of a federal statute. These cases came up in Commissioner Capron's court today, but the hearings were postponed, although George Alten Smith, attorney for the defendants, demanded an immediate trial, declaring that "these suits were brought simply for political purposes and not for purposes of justice.

(Continued from First Page.)

Mr. Thomas was on his way home with out jeopardizing the lives of his wife or children. At about 2 o'clock in the morning all is changed. The Civic Federation is again brought into active life and Mr. Thomas is transmuted into a martyr and a here for doing his duty. All this is accomplished by a bomb with a small quantity of nitroglycerin, so placed as not to

do serious injury. Now, there are some things in this connection which I would like to have Mr. Thomas explain. In the face of his charge that I am responsible for this crime it is due to me that he should explain. It is due to the people of Omaha that he should explain. It is due to Chief Donahue and the detectives who are abused and maligned for not fining the man who placed the explosive bomb that he should explain.

Peculiar Circumstances. How does it happen that this bomb was exploded immediately after the charges of Mr. Thomas against Chief Donahue were exploded? How does it happen that the man who placed a bomb containing a high explosive did so with so much noise as to be heard by Mrs. Thomas and others while the windows and doors were shut? How does it happen that a bomb containing a high explosive or the fuse attached to it burned in such a way as to make a blaze of light sufficient to be seen by persons inside a house? How does it happen that the bomb or fuse burned for so long a time after the blaze was seen before the explosion occurred? How does it happen that when Mr. Thomas opened the door and saw what he believed to be a bomb about the size of a salmon can he did not kick it off the porch, where it could not harm his wife or children? Was it because he feared it might burn his toes? How does it happen that after Mr. Thomas left the burning bomb he hesitated about taking his overcoat to smother the fire and finally concluded to use a rug of less value when the lives of his wife and children were imperiled? How does it happen that Mrs. Thomas, at the time of the explosion, was out in the kitchen, safe from all harm, drawing a bucket of water? How foes it happen at the time of the explosion Mr. Thomas had the porch door closed and occupied a safe position so as not to be seriously injured? How does it happen that if this bomb was intended to destroy Mr. Thomas and the members of his family it did not contain a greater quantity of explosive or

bomb explosion at least ten minutes before the police department was notified? If Mr. Thomas will make full and definite explanation of these inquiries he will oblige one who he has unjustly charged with most henious crime. TOM DENNISON.
