ENGINEER INSPECTS CREEK

Milwaukee Road Sends Its Man to Consult with City.

PRAISES WORK DONE BY THE BIG DREDGE

Mayor Hopeful All the Roads Will Co-operate with the City in Solving Troublesome Creck

A. G. Baker, assistant engineer of the Milwaukee railroad, with headquarters in Chicago, visited the city yesterday in response to Mayor Macrae's request that each of the railroads centering in the city send their engineer to investigate Indian creek conditions and formulate some plan for preventing the periodical overflow of the turbulent little stream. Mr. Baker was met by Mayor Macrae and Aldermen Weaver and Gilbert and with them walked along the creek to Nineteenth avenue, the rest of the trip to the mouth of the creek in the river being by carriage.

Mr. Baker was much impressed with the work being done by the dredge and while the Indian creek question was for all the fund levied within the city, members of and uses jointly with the Rock Island that only recently two of the heaviest taxrailroad a second.

Mayor Macrae has suggested that whereas the city has gone to the great expense of widening and deepening the creek from to enjoin the board from so expending the Sixteenth avenue to the river, the severat railroads should for their part stand the cost of similar work on the creek from Sixteenth avenue to the center of the city, in addition to raising their bridges so as to sermit of a sufficient waterway under them in times of heavy rain. The estimated expense to each railroad, it is claimed, would not exceed \$3,000 or \$4,000 and it would resuit in their tracks being saved from the continual overflows from the creek. Mayor Macrae's plan for improving the

the city and Sixteenth avenue is to turn the creek during dry weather into the sewer at Thirteenth street and then widen and the January session. deepen the channel. As the dredge could not be used on this section of the creek owing to the numerous big bridges, the work would have to be done by teams. So far the Northwestern and Milwaukee railroads have sent their engineers here t inspect and report, and Mayor Macrae is hopeful that the other railroads will follow uit, as he is firmly of the opinion that when the railroads understand fully the existing conditions they will realize that it will prove an economical proposition to cooperate with the city in providing against

the periodical overflows of Indian creek. JURY PROMPTLY ACQUITS WITT

Requires Only a Few Minutes to

Reach a Verdict. The district court jury in the case of Fred Witt, the young Neola attorney who is charged with embezzlement, brought in a verdict of acquittal yesterday. The verdict was arrived at within a few minutes after the jury had been instructed and retired to its room. As soon as the court had formally discharged the jurors they pressed around the defendant and each one in turn shook hands with him. The result of the trial was what had been generally expected. The case had attracted more than ordinary interest on account of the prominence of the defendant and his family. Witt's young wife and baby were in court when the jury announced its verdict and joined in receiving the congratulations showered upon her husband. Mrs. Witt is a daughter of T. S. Campbell, a former clerk of the district court here but now a resident of Omaha.

At the close of the Witt case Judge Green discharged the petit jury for the term. State Board Decides Against the Drainage of Lakes Which Are Really Permanent Bodies of Water.

(From a Staff Correspondent.) DES MOINES, Dec. 21,-(Special.)-By eason of the ruling of Attorney General Mullan delivered today to State Superintendent John F. Riggs, the State Board of Educational Examiners will be under the necesity of making a radical change board to \$80, accepted the reduced amount in the manner of doing business. The state on the understanding that it was for his superintendent had asked the attorney genservices before the district court only. He | oral for a decision as to whether or not ing of the law and whether superintendents would institute suit against the county. The reason for this is that the Board of ploy persons o assist in making the examination of the papers of persons who have applied for state certificates, and in the case of the large classes which are annually examined at the State Normal school at Cedar Falls it has been the cus tom to employ members of the normal school faculty and to pay them for time lowing official notice yesterday relative to actually employed. Now the attorney genthe enforcement of the city ordinance re- eral holds that they are state officers and quiring the cleaning of snow and ice off cannot be paid any compensation beyond sidewalks by occupants of abutting prop- their regular salaries. The same applies The police are charged with the enforcement among other regulations of those relating to the removal of snow and ice from the sidewalks, and, while there has been a general compliance with the ordinance relating thereto, it is noticed that in many places the snow has been allowed to remain. This is inexcusable. Accidents must be provided against and the comfort of citizens must be above everybody and everything. It will be in the interest of health and good judgment to remember that from this date the police department will make wholesome and effective efforts to properly enforce the snow and ice ordinance. Attorney General Mullan is preparing papers to ask for a receiver for the Iowa Central Building and Loan association of Des Moines, a company which has ostensibly gone out of business after a life covering many years. It appears that the company has gone through with a process which istence a few weeks ago. The state examiner of building and loan associations made for doubt as to whether the rights of all the stockholders had been sufficiently guarded. A short time before the board ordered the dissolution there was a dividend declared, and then the assets of the bank were sold to another company, which had apparently been organized by the officers of the Iowa Central. It was deemed best that the courts should have the winding up of the affairs of the company and a receiver will be asked for, that the closing up process may be done properly. The company was owned by Congressman J. A. T. Hull of this city, John Gibson of

> Railroad Changes Coming. Announcement is made that the first of the year J. N. Tittemore, a railroad man well known in Iowa, will go from Peoria to Minneapolis to become traffic manager of the Iowa Central and the Minneapolis & St. Louis railroads. This is a new position and is taken to indicate that unde the Hawley ownership of these two roads running through Iowa and Minnesota there will be many changes to make them more aggressive. The first of the year the Min neapolis takes over the Des Moines & Fort Dodge railroad, running from here to Ruth ven, and a complete change will be made in the method of its operation. The Minneapolis trains will be transferred to the union depot here, but the Rock Island will still send trains out over the road, making connections at Gowrie for Sibley.

No Place for a Monument. The state of Iowa has a chance for a fine monument or statue, but has no place to permanently locate it. The monster fig. ure in staff representing "lowa" which formed one of the large group of the collonade at the St. Louis exposition during the past season has been offered to the state if the state will pay all expenses of There is a general desire that it shall be brought here, but there is no place to put it where it will be saved. It is possible that a place may be made for it in the main building at the state fairgrounds, but here it would be seen but one week each year. The State Board of Con-

trol is to be asked to take charge of it Rev. G. W. Crofts officiated. A large and place it in some state institution over which the board has control.

The state executive council has decided upon a policy of refusing to allow the drainmay be saved permanently to the state, but will order the drainage and sale of only such lakes as are really large swamps for most of the time. The case of Rush lake,
