GRAIN AND PRODUCE MARKET

Unusually Quiet.

MINNEAPOLIS SHOWS MOST STRENGTH

Corn Rates East May Not Be Advanced-Gulf and Foreign Corn Demand Very Poor.

OMAHA Jap. 5, 1905. OMAHA Jan. 5, 1905.

The markets were dull today. May wheat opened at \$1.14%, the close Wednesday having been at \$5.0. The pit crowd feared it nad got in a dangerous place and tried to seell all at one time, causing a drop of \$5.0. The fact, however, the eastern crowd showed no signs of dumping its large holdings caused the bulls to feel they could safely pick up part of what they had soid, and this brought the market back to \$1.15%, it weakened again later in the session. The foreign markets were all down lightly, the reason being freer Indian offerings. A Bucnos Ayres cable gave the average yield Puenos Ayres cable gave the average yield for the province at twelve bushels an acre, which was below general expeciations. The wheat strength in Minneapolis helped the Chicago market. Minneapolis was for above, while Wednesday It was only Packleshing Minneapolis. above, while Wednesday it was only Picchigher. Minneapolis is a consuming market and the grain is wanted there for consumption. In the Minneapolis receipts for the day were fifty-three cars of Canadian wheat. The shipments were \$1,000 bushels and the flour \$7,000 barrels. Two hundred and twenty-five cars were ordered out of stors, the report being it goes to country millers. Thirty thousand barrels of flour were sold to the southwest. Minneapolis reports a sharp advance in the price of low grade wheat on the sample tables. The Northwestern Miller gievs the flour production as 188,150 barrels, against 185,355 for last year. The decrease from last week is due to most of the mills being closed for two days the first of the week. The foreign demand for flour is duil. The primary receipts of wheat are \$55,000 bushels, against 185,000 last year. The shipments are \$25,000 bushels, against The eastern roads may not advance the

cerpts of wheat are 565,000 bushels, against 654,000 last year. The shipments are 275,000 bushels, against 205,000 last year.

The eastern roads may not advance the eastern rates, as has been the talk. The rates now are high enough to make a good proposition of gulf shipments and the advance will be that much more advantage to the gulf and the southeast. The advance may be held off for a few weeks. The gulf demand just now seems to be the poorest of the season. Nothing is doing in cargoos. The holders of the long corn seem to be growing tired of holding their burdens and are selling a little of it. The primary receipts of corn are 1,154,000 bushels, against 448,000 for last year. The shipments are 694,000 bushels, against 255,000 last year. The quality of the corn received is high. St. Louis reports cash corn selling there 1½c under the May. The May corn was very quiet, ranging only from 44%c to 44%c, and the July 44%c to 44%c. The opening was stronger than the close.

The demand for oats seemed better today. The receipts have been lighter and the prices seemingly as low as they will get for some time. There seemed a desire to buy a large amount around 31% cents. German advices place the rye crop at 300,000 bushels above the crop of last year.

SHEEP-There was a small run of shee and lambs at all points this morning, an with a good demand the market here rule and lambs at all points this morning, and as with a good demand the market hore rulei active and steady to strong on all desirable grades. It anything the better grades of lambs showed more strength than sneep. Buyers were all out early and everything that would do to kill was soon out of first hands. Choice grades were rather scarce and in fact there was nothing strictly prime on sale. The top on lambs was 36.40 and the top on ewes 34.35.

There were quite a few feeders included in the receipts, but they sold rendity at what looked like good, steady prices.
