JUDGE OF THE SUPREME COURT Was Alarmingly Afflicted With La Grippe. Cured by Pe-ru-na.

The Grip is Properly Termed Epidemic Catarrh. As Pe-ru-na Cures Every Form of Catarrh. It Cures More Cases of Grip Than All Other Remedies Combined.

HON. W. H. PARSONS.

W. H. Parsons is Ex-State Senator and Ex-Special Judge of the Supreme Court of Texas, and was also Brigadier-General in Confederate Army. In a recent letter from 925 H street, N. W., Washington, D. C., this prominent gentleman says: "Upon the recommendation of personal friends and many strong testimonials as to the efficacy of Peruna in the treatment of the numerous symptoms of the grippe with which I have been afflicted for four months past, I have been induced to undergo a treatment with this justly celebrated formula. I feel a decided change for the better after using it only one week."

A bottle of Peruna taken during the beginning of the disease is worth more than a dozen bottles after the trouble has become deep-seated. Pe-ru-na Cured When All Else Had Failed. Miss Eugenie Lafortune of 116 Berthe street, Montreal, Can., writes: "Peruna cured me of a severe case of la grippe when nothing else had any effect on me. Five bottles did the work and they were worth hundreds of dollars for the comfort and health restored to me. I therefore feel that the least I can do is to gratefully acknowledge its merits."

A reward of \$10,000 has been deposited in the Market Exchange Bank, Columbus, Ohio, as a guarantee that the above testimonials are genuine; that we hold in our possession authentic letters certifying to the same.

There is no remedy in the world that meets the conditions produced by the grip better than Peruna. Peruna strengthens as it renovates, soothes while it stimulates, heals as it expurgates. Peruna is not a purgative, or cathartic or sedative, or stimulant, nor a vegetable or mineral poison. It reaches the sources of all diseases of the mucous membranes by its action on the vaso-motor system of nerves.

After-Effects of the Grip. Every person who has had la grippe during the last year should take a course of Peruna. No one need expect perfect recovery unless they do so.

D., Jan. 6.—(Special).—Blacking, which some time ago made its appearance among the cattle herds on the ranch of the Sutherland brothers, near Mount City, has this far caused the loss of about \$60 worth of cattle. An animal purchased at the Minnesota State fair was the last to succumb. Some of the animals were vaccinated, but died nevertheless, proving that vaccination will not always save cattle which are affected with blackleg.

Nine Nations Now Use Ligozone. Won't You Try It—Free?

Ligozone advertisement. Millions of people of nine different nations are constant users of Ligozone. Some are using it to get well, some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere: your neighbors and friends are among them. And half the people you meet—wherever you are—know someone whom Ligozone has cured. If you need help, please ask some of these users what Ligozone does. Don't blindly take medicine for what medicine cannot do. Drugs never cure germs. For your own sake ask about Ligozone; then let us buy you a full size bottle to try. We Paid \$100,000 For the American rights to Ligozone. We did this after testing the product two years, through physicians and hospitals, after proving, in thousands of difficult cases, that Ligozone destroys the cause of any germ disease. Ligozone has for more than 20 years been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from a large oxygen gas, by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effect are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like excess of oxygen—is deadly to vegetable matter. There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the host. Any drug that kills germs is a poison and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease. These are the known germ diseases. All that medicine can do in these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.
