Mrs. Lucas Enters Denial. COUNCIL BLUFFS, Jan. 10.—To the Editor of The Bee: In your article of January 10th under the head of "Doctors Secured Hospital" there is an erroneous statement which is credited to me. The first intimation I had received that any member of the association entertained such a feeling of disposition as to be shown in their withdrawal from membership was when reading the article above mentioned. We were very sorry to learn that any woman who is or ever has been identified in our hospital would allow any change in our administration or management, or from the fact they were displeased with a majority vote, to so discourage them as to feel they no longer cared to affiliate with an organization of which we have cause to be proud. I emphatically deny that the statement that there will be others to take their places was made by me. EMMA G. LENEAS, President Women's Christian Association.

Embezzlement Case Reversed. MARSHALLTOWN, Dec. 28.—(Special Telegram.)—Word from Des Moines states that the celebrated embezzlement case of the state against N. A. Carman had been reversed in the supreme court. The case that was reversed is one in which the firm of Rothger, De Long & Miller of Hampton was the complaining witness. This firm claimed that it had given a note to the Rhodes Carman Buggy company and later made a payment to apply on the note. In the meantime the note had been negotiated to M. I. Meckley and the remittance had not been applied. The case was tried at the October term, 1902. On the grounds that the officers of a corporation were criminally liable for the wrongful acts of

(From a Staff Correspondent.) DES MOINES, Jan. 10.—(Special.)—The supreme court assembled today for the January term and handed down five decisions. Perhaps the most important was the decision respecting a case at Cedar Rapids of John A. Reed against F. M. Cunningham. The city corner of Cedar Rapids, by resolution, offered 20 per cent bond for the recovery of tax ferrets. The money was paid to the county treasurer for services in discovering property omitted from the assessment roll. Citizens brought the suit to recover the money for the city. The district court dismissed the case. The supreme court holds that citizens are empowered to bring such suits, otherwise the public treasury could be plundered with impunity by city officials so long as they stood together. The case against Joseph Usher for the murder of William Garrity, yesterday as the case against G. J. Garity, also from Cedar Rapids, is remanded for new trial and resumption on May 25, 1905. Garity was his hired man. Usher at first covered up the crime and later, after the trial began, admitted the killing, but claimed self-defense. He appealed from the judgment of the court and his appeal was granted by the supreme court on errors of the lower court. The lower court was reversed in holding N. A. Carman of Marshalltown, Ia., criminally liable in the assignment of the Rhodes Carman Buggy company of that city.

Tedford's Bond Approved. Howard Tedford of Mount Airy has filed his bond of \$2,000 as state binder and the governor has approved the bond. This ends a little fun at the expense of a certain amount of money, placed at a certain point and upon an appointed time, was demanded, the penalty for failure being the young man's life.

Run Down by Train. ATLANTIC, Ia., Jan. 10.—(Special Telegram.)—L. A. Strong, in some manner not fully understood, fell under the wheels of the locomotive tender at Lewis and was so badly injured that the surgeon found it necessary to amputate his right arm between the shoulder and elbow. He was otherwise injured about the chest and head by some ugly bruises and cuts, but it is thought he will recover. Mr. Strong is employed in the store of W. J. Woodward, and was delivering some butter to the engineer of the Atlantic-Criswell train and arrived at the depot just as the train was entering and is said to have attempted to hand the butter to the engineer as the engine passed him. In some way he was thrown between the platform and engine tender and dragged some distance, when the engineer, seeing his predicament, brought the engine to a stop and saved Strong's life. Mr. Strong has been in the employ of Mr. Woodward for a number of years and has a large circle of acquaintances.

What the Book Is: No more human document has been published for years than these utterances by the President. Seldom has a public man so candidly revealed himself and laid bare his inner personality. It is a book that should be read carefully by every American, no matter what his party affiliations may be. Nowhere else can be found expounded the faith and tenets which our fellow countrymen have decided to regard as American, pure and simple, and nowhere else can be found so convincing an exposition of our duties and rights as American citizens. (This book is published by R. G. Cooke, New York.)

"These utterances must appeal to every American."

"It is worthy of a place in the library of every household."

BAD DISORDER

In the fall of 1895 I contracted that fearful disease, Blood Poison. It gained such headway that I was compelled to resign my position and seek relief at Hot Springs. After spending all the means I had I went to Mendonville. In less than three weeks I was in a hospital, and after nine weeks of suffering I was discharged as cured. In less than a month every bone in my body seemed to be affected and felt as if they would break at the least exertion. Again I was compelled to resign, and I returned to the hospital for a seven weeks stay. When I came out I was advised to try farming. When I first went on the farm I prevailed on the only firm who handled drugs to get me one dozen bottles of S. S. S. At that time both of my hands were broken out with blisters and I was covered with boils and sores. In the meantime my druggist had gotten two dozen bottles of S. S. S. for me and I began its use, and after taking the thirteenth bottle not a sore or boil was visible. R. B. POWELL, East 9th St., Little Rock, Ark.
