A Continued Story

In which we told them what we would not do. The manufacturers asked us (in our last ad) what we were going to do about their goods, which were being sold below cost, etc.

We told them we would not sell \$1.00 patent medicines for MORE than 75c! We also told them we would mind our own business and AB FARE WAS WERE CONSIDERED other druggists had the same privilege.

THIS IS WHY there are so many 75c prices on \$1.00 patent medicines; that is our HIGHEST selling price. SOME other druggists have met it—when they were forced to—but none have gone below it.

The druggists who are YAPING about forcing us into their combine and claiming they are selling drugs at their own price, especially the Council Bluffs and South Omaha druggists, make such a fight against our 75c price?

Can any of them deny the facts of this continued story?

(To Be Continued.)
