Men in Industrial Section Become Turbulent During the Night-Two Hundred Thousand Out at Warsaw and Lodz.

ST. PETERSBURG, Jan. 25,-5 a. m.-No eports of disturbances at Dorpat, Reval r Lodg have been received here.

The most rerious feature of the strike tuation is its continuous extension in he Baltic provinces and in Poland, Strikers are cutting the telegraph wires and inerrupting communication and fears are expressed of most serious disorders, especially in Poland.

Despite the fact that the strike in Russia is spreading in the Baltic provinces and in Poland, no disturbance of any import ance were reported Saturday and tranquillity, it is hoped by the authorities, will prevail today. In Moscow, where 20.00 men are still out, although work has been resumed in nearly all the mills, the situation appears to be threatening. The men in the industrial section became turbulent furing Saturday night. The authorities dethat measures already have been taken to prevent trouble in Moscow. Arms have been removed from gunsmiths' shops and putrols of the streets are continued.

Correspondents Are Warned. Governor General Trepost has warned ome foreign correspondents that if they continue to send out false and misleading reports of the situation they will be de

Maxime Gorky, the novelist, has been brought back from Riga to the St. Petersmrg fortress, to which several leading writers on the Nashaziesn (Our Life) and Nushashish (Our Time), the new reform apers, were also taken after their arrest M. Hessen, editor of Prayo and MM. Herejeff and Shirskye, two famous Russian hisorians, and several others who made up the delegation which called on M. Witte January 21, in an endeavor to get him to intervene with Interior Minister Sviatopolk Mirsky, in order to prevent trouble between the troops and the strikers the following Sunday, and who were arrested early it the week, are understood to be charged with trying to set up a provisional govern

ment. There is much gossip about what is oc curring at Tsarskoe-Seloe, but the only thing certain is that the emperor and his advisors have not reached a decision regarding further action. It is known, however, that a project for the creation of a sort of Zemskyzabor, with a limited membership and along the lines of the old Russtan Land Parliament, as a consultative body to his majesty, but without power of

action, has been discussed. Sergius Ordered Posting. The real origin of the charges contained in the London telegram posted at Moscow by Assistant Police Chief Roudness to the effect that Great Britain has been supplying money to tle up the Russian arsenals and dockyards for the purpose of alding its ally, Japan, is now definitely laid at the door of Grand Duke Sergius. The grand duke, according to absolutely reliable information from Moscow, turned over the telegram to a Moscow newspaper, which declined to print it, whereupon by the grand duke's direction M. Roudneff placarded it In the streets. Grand Duke Sergius' connec tion with the matter is believed to be greatly embarrassing Foreign Minister Lamsdorff, who is anxious to avoid a diplomatic incident. Sir Charles Hardinge, the British ambassador, followed up his personal request for an explanation Thursday with a letter on the subject vesterday when the same charges in another form appeared in official papers here. Count Lamsdorff has not yet replied to this letter, although at the Foreign office it is alleged that official as well as unofficial papers print telegrams containing news which has not the slightest government sanction.

St. Petersburg has entirely resumed its normal winter appearance. The ordinary routine is in effect and large forces of men are removing the heavy accumulations of snow piled up during the strike. The people are beginning to discuss topics other dailles except two appeared in their accustomed form. The others will resume

publication tomorrow.

Huss Criticizes Censorship. The papers are under orders to refrain from all save the most cautious comment on the occurrences of Sunday and the following days and they do not print any details beyond the official reports, holding that as they are not permitted to print the truth fully and freely they will print nothing further. The Russ, however, indulges in an open attack on censorship, which it declares to be inadvisable and inimical to the true interests of Russia at such a critical time and appeals to the hewspapers throughout the land to disregard it and

print the truth as they see it. The papers serve plain notice on the government that the recent events indicate that all Russia is demanding reform and that the proposals of the zemstvoists voice the feeling of the Russian people, The elements behind the movement the betterment of Russia, it adds are not pickpockets, criminals or agitators, but landed proprietors, the educated classes and intelligent labor. In the press, the Russ continues, the government has an unbiased and conscientious adviser. rulers of Russia dare not close their ears

Several of the most sensational of the foreign newspaper correspondents are reported to have been summoned to headquarters by General Trepoff and catled to ecount for the lurid accounts of recent happenings which they have sent out.

Trouble at Liban. LIBAU, Jan. 28.-There were some demon strations on the part of the strikers during the night and attempts were made to loot bakerjes, but the rioters were dispersed by the troops, who have been reinforced by a regiment from Kovno. Some telegraph poles were torn down, but they have been replaced.

The governor today issued a proclamation eminding the workers of the patriotism they displayed on the occasion of the recent visit of Emperor Nicholas and the imperiot family to Libau declaring that the strike is the result of the activity of the evildisposed revolutionists who have nothing in common with the workmen and urging the latter to return to work and not embarrass the country while at war. If they resume their employments the governor will help them. Otherwise he will take ener getic measures to restore order.
