## GRAIN AND PRODUCE MARKET

Foreign Crop Reports Show Wheat is Generally Prosperous.

CORN UP ON EXPECTED RATE AGREEMENT

Talk Plenty of Small Corn Reserve in the Hands of Illinois and Iowa Farmers-Feeders Buying in Other States.

OMAHA, Feb. 21, 1985.

The May wheat regained today what it lost Monday. The low point Monday was \$1.18%, and the market opened this morning at \$1.18%, but that was the low point, and from there it advanced by noon to \$1.19. The foreign markets were weaker in consequence, with the low point of Monday and the better news from India. Liverpoot closed down %: to %:, antwerp was on %: to %:, antwerp was on %: The foreign markets had any effect on the American the news of the damaging of the wheat crop in the central provinces of India of more than 50 per cent would have been noticeable. It did not have any effect, however, which shows the situation is dependent entirely on domesus conditions. OMAHA, Feb. 21, 1905. The foreign wheat crop summary shows

uation is dependent entirely on domestic conditions.

The foreign wheat crop summary shows for the United Kingdom the plant looking fine; in Germany and Hungary, weather unseasonable, but crop complaints not serious; France is given an improved condition, with larger offerings; Ruseia reports show covering for wheat and small arrivals at ports; italy. Spain and northern Africa are given a fair prospect; and in India shippers how say the Punjab, which was reported injured by cold, is all right. Bradstreet's shows a decrease east of the Rockles of 79,000 bushels and an increase in Europe and afloat of 700,000 bushels, making a decrease in the world's of 79,000 bushels. The Chicago contract stocks of whear have decreased 25,682 bushels for the week. This is all in No. 2 hard, which is a total of 1,029,509 bushels. The northwestern cars, including Chicago, are 250 today, 538 last week and 760 a year ago. Not much corn was on the market today and the undertone was strong. There was a good covering by shorts on reports that the western roads were to get together on the rate question. The May corn was 46%c Monday for high. It opened this morning at 46%c, which was the low point, and advanced by noon to 47c. Galveston cleared 285,000 bushels of corn.

There is more talk of a small reserve in Illinois and Iowa. Stock shippers from these two states are quoted as saying the farmers have fed and sold a large part of last year's crop. Many, they say, have sold as high as one-half or even two-thirds of the crop. Some large feeders are reported to have fed all and to be buying of other farmers. The small renters have been especially large sellers. Southern lows is reported to be buying freely of central lows and Masouri feeders from Nebraska. The price varies, being 38 cents in central illinois, including Peoria and the territory near Chicago, and the reserves in the farmers' hands found to be only 193 per cent, or a reduction of 20 per cent since

of Illinois, including Peoria and the territory near Chicago, and the reserves in the

have decreased to 19.2 per cent, a decrease
since the first of the month of 4.2 per cent.

most of the early arrivals had changed
hands. The same as was the case yesterday, however, the late arrival of some of
the trains delayed the close until a late
hour. The quality of the receipts today
was noticeably better than yesterday,
which helps out the appearance of the mark
ket on paper to quite an extent, there being
a large number of good heavy hogs included in the offering. The light weights
sold largely from \$1.85 down, butchers and
mixed \$4.85 to \$4.70 and choice heavies from
\$4.70 to \$4.80.

There was not a great deal of change in
the market, though some of the late arrivals may have sold a shade lower than
those that came in earlier. Considering the
liberal receipts, a good clearance was made.

SHEEP-There was quite a liberal run SHEEP—There was quite a liberal run of sheep here this morning, though not a many as arrived yesteroay. Reports from the points were not very encouraging, but active and about steady market was experienced on sheep, with some of the choicer grades, particularly ewes, a littly higher. Buyers seemed to want the sheel and it was not long before the bulk of the better grades was disposed of. Ewes, bot westerns and Colorados, soid at \$5.55, which is the top note; of the season, Yearling westerns and Colorados, soid at \$5.55, which is the top note; of the season. Yearlings and wethers mixed brought \$6.35 and yearlings \$5.50.

The lamb market was again rather slow, with the feeling weak rather than otherwise. Buyers did not take hold with any life, and although there were some choice lambs offered, trading was dull. As compared with yesterday, though, there was not a great deal of difference in ruling prices.
