GREAT ALARM AT WARSAW

All Railways Are Tied Up and Other Classes of Employes May Strike. RUMORS OF AN UPRISING MARCH 4

Warsaw, Feb. 23.—The situation here is causing the greatest anxiety in all circles. The government is at a loss to know what to do. Alarming reports are current concerning the intention and plans of the revolutionary party and March 4 is awaited with much apprehension.

The strike situation is spreading in every direction and bank clerks, journalists, office servants, printers, drivers and stationery engineers and mechanics in general are all threatening to strike. Notwithstanding all this the situation in the city is remarkably quiet.

The Vienna railway is still at a standstill and there appears no immediate hope for a settlement. The directors had a long session today, but were unable to find a solution. They will renew the conference tomorrow.

Harmon of Saunders is chanting to George W. Borge that sweet and popular refrain, "I Don't Care if You Never Come Back." Harmon, as is pretty generally known, introduced the anti-pass bill, which Mr. Borge claimed as his bill.

Another \$25,000 appropriation bill was introduced by Johnson of Adams for the boring of not less than five oil wells west of the ninety-ninth meridian, which is just east of Central City.

McClay, the "flag champion of Lancaster," has in his anti-desecration-of-the-flag bill at last. It was feared by many that the patriotic colonial would allow this bit of routine to slip by his attention.

NEW THEATER FOR OMAHA

Woodward & Burgess Arrange to Build on Harney Street Site. HANDSOME HOME FOR POPULAR SHOWS

Lenses Concluded with John I. Redick for the Lot and Architects Prepare Sketch Plans for the Structure.

The Woodward & Burgess Amusement company has just concluded a lease with John I. Redick whereby the company secures for twenty-five years the lot on Harney street occupied by the old Omaha Athletic club building and the portion of the lot adjoining it.

Sketch plans for the new theater have been prepared for the firm of Woodward & Burgess by Fisher & Lawrie and by John Latenser, but it has not yet been determined which of the architects will be given the contract.

The stage at the rear will be almost as large as that in the Boyd theater, which is one of the largest in the country, and will be arranged to accommodate the heaviest scenic production, should it ever be necessary to put them on.

It is out of the question just now for the firm to give anything like an exact idea of the cost of the structure, as the cost depends on the details of the construction.

The intention is to put up a theater that will be a credit to the firm, and to spare nothing that will add to the comfort and convenience of those who patronize it.

The form of entertainment for which the house will be devoted at the opening has proved very popular wherever it has been introduced, as it permits of four performances a day, two in the afternoon and two in the evening.

Field Club Meeting. A special meeting of the Omaha Field Club is to be held next Tuesday evening at the Royal Arcanum hall, 221 North Commercial street, as first announced. The meeting is for the purpose of considering the expense of the new club house, for which the board of directors was authorized to expend \$10,000 under plans prepared by Fisher & Lawrie. The directors now find it will be necessary to expend in excess of that amount, and they are considering the necessary authority. The bond issue of \$10,000 is not to be increased, however, as there is other money available.
