DEPARTMENT OF THE INTERIOR,
United States Geological Survey, Rectamation Service, Washington, D. C., March II., 1935.—Scaled proposais will be received at the office of the United States Reclamation Service, Chamber of Commerce building, Denver, Colo., until 2 o'clock p. m.
Tuesday, May 16, 1935, and thereafter opened, for the construction of about 45 miles of main canal, involving about 2,80,000 cubic yards of earthwork and 150,000 cubic yards of earthwork and 150,000 cubic yards of rock work for the irrigation of lands in the North Platte valley in eastern Wyoming and western Nebraska. Bids will be received on excavation and embankment for one or more divisions, which will approximate 250,000 cubic yards each. The right is reserved to award to one bidder as many or as few of such divisions on which he has bid as the interest of the service may require. Specifications, forms of proposal and plans may be inspected at the office of the Chief Engineer of the Reclamation Service, Washington, D. C., and at the office of the Reclamation Service, Denver, Colo. The bid on each division must be accompanied by a certified check for \$2,000, payable to the order of the Secretary of the Interior, as a guaranty that the bidder will, if successful, promptly execute a satisfactory contract and furnish bond in the sum of 25 per cent of the contract price for the faithful performance of the work. The right is reserved to reject any or all bids, to accept one part and reject the other and to waive technical defects, as the interest of the service may require. Bidders are invited to be present. Proposals must be marked: "Proposals for Construction of Interstate Canal, North Platte Project." E. A. Hitchcock, Secretary.

LEGAL NOTICES.

BIDS FOR BUILDING COURT HOUSE. Douglas, Wyoming, March 2th, 1906.—Sealed proposals for the erection of a court house building at Douglas, Converse county, Wyoming, including labor and all materials, will be received by the Board of County Commissioners of Converse county. Plans and specifications are on file at the office of J. Bevan Phillips, architect, or at the office of the County Clerk, Douglas, Wyoming.

Vyoming. Separate proposals will be received for the plumbing, heating and electric wiring. The party or parties to whom the contracts are awarded will be required to give bond ac-ceptable to the Board of County Commis-sioners for the faithful performance of the contracts.

ceptable to the Board of County Commissioners for the faithful performance of the contracts.

All sealed proposals will be received until 2 o'clock p. m. on the 13th day of April, A. D. 1986, and will be opened at the office of the County Clerk to the board on that date. All blds for the construction of the court house building must be accompanied with a certified check in the amount of five bundred dollars; also separate blds for plumbing, heating and electric wiring must be accompanied with a certified check in the amount of one hundred dollars, payable to the County Treasurer of said county, as an evidence of good faith on the part of the bidder. The Board of County Commissioners reserves the right to reject any or all bids. Hids should be marked, "Sealed Proposals for Court House Building," and addressed to A. D. Cook, County Clerk, Converse County, Wyo, 26-26-Al8

BURNS IS CROSS-EXAMINED

Only Short Time in Morning Consumed by Direct Examination.

HUGHES ASKS SEARCHING QUESTIONS

Large Crowd, Many of Them Women, Attracted to Court Room to Henr Defendant on Cross-

Examination.

Proceedings in the Dayle-Burns case yes erday were enlivened by the cross-examination of the determant, James P. Burns, by Attorney C. J. Hughes, jr., who sublected the witness to a severe and searching catechism. The announcement that Burns would be under the fire of crossexamination attracted a large audience to the court room and as during Doyle's examination there were many fashionably

dressed women in attendance. At the morning session Congressman Smith occupied but a short time in completing his direct examination of Burns, whose concluding testimony was substantially as follows:

I employed Judge Harrison and Senator.
Patterson to represent me in the O'Haire
suit and later I also employed J. Morris
Finn. When Doyle settled the O'Haire
suit he asked the Board of Directors of
the Fortland company to pay him the sister Jennie 75,000 shares of Portland stock and I also gave 56,000 shares to my sister Kate. About June, 1894, the Portland Gold Mining company purchased a safe. Three of the compartments in it were assigned to Doyle, myseif and Harnan. Each had the possession of one and used it for his private papers. I never asked nor suggested that Doyle should give false testimony in any case or proceeding. At the annual meeting held at Council Bluffs in February, 1977, Doyle tried to secure control of the Portland company and to oust me from the board and management. At that time he did not attempt to vote any of the shares of stock which I held nor did he

put some of it in Burns' name and some of it in the name of James Doyle, trustee. He also admitted that in his answer to the suit subsequently filed against him by O'Haire he swore that Doyle had no intention of transferring his stock to evade O'Haire's claim. The fact was that at the time O'Haire made Burns a defendant to

the suit Doyle had already transferred his stock.

Questioned in his direct examination as to the cause of the dissolution of partnership with O'Hsire and O'Driscoll, Burns stated that it was entirely because of a quarrel over a lantern globe. On his attention being called jo his testimony in the case of O'Haire against him, he admitted that he had testified then that there were the state of the above schedule when the number of telephones exceeds 2,000, an additional 25 cents per telephone exceeds 2,000, an additional 25 cents per that he had testified then that there were toll line business.

terprise while they were there on Battle when some definite action is looked for. Mountain, to his knowledge. He was shown his testimony in the O'Haire case where he stated that Doyle went to Lawrence at one time and bought \$2.50 worth of meat and paid for it out of his own pocket. About the Partnerships.

"If you strike any thing good I will go in with you." He did not consider O'Haire sequently O'Haire sent up \$2 in money some powder and caps, and from that he located a claim together, and that constituted their partnership. The trend of the examination on this point showed the apparently slight matters which resulted in partnership relations, and it was shown that mining partnerships could be formed side, by the acts of the parties, and Mr. Hughes explained the law of Colorado on that point. Mr. Hughes endeavored to show by the witness that subsequent to the dissolution with O'Haire and O'Driscoll on February 2, 1892, his actions with Doyle were the same as they had theretofore been with his former partners, but the that he could show the actions before and after, but not prove that they were the

Imported Figs.

Continued High Temperature Accelerates Distribution in All Leading Lines.

Prove Even More Favorable Than Anticipated When Year Opened.

NEW YORK, March St.-R. G. Dun &

Freight congestion has followed the near shipment of spring merchandise and rai way earnings in three weeks of Mars were 8 per cent larger than in 1994, or clai returns make the cotton crop fully third larger than the one preceding at still prices are far from demoralized. With the subsidence of the floods the mills har resumed, water traffic is heavy and to percentage of unemployed is seasonal reduced. Buyers are striving in large nur-bers at the leading jobbing centers. The

Articles were also filed by the Keokuk
Lumber company of Keokuk, with a capital
of \$75,000. J. H. Kendig is president, Z. W.
Hutchinson vice president and C. D.
Streeter secretary and treasurer.

Sue Road for Damages.

The argument of the German Insurance
company of Freeport, Ill., was filed in the
supreme court today in the suit against the
Northwestern railroad. The company had
insured the residence of a man named
Nichols in Glidden, Ia., for \$1,000, and it is
claimed that sparks from the railroad's
engine set fire to the building and destroyed it.

Democrats Have Big Plans.

Is less ice in the linkes than at this time
is year, but another week is needed to
restore navigation. Immigration continues
to surpass all records and international
markets improve as concuston of the war
seems imminent. Foreign commerce at
the port for the last week showed a gain
of \$2,40,617 in imports and a decrease of
\$17,294 in exports as compared with 1904.
A steady demand is noted in all departments of the iron and receil industry, orders
constantly coming forward and most piants
are assured of activity for many months,
while some milis decline contracts for shipments any time before 1906.

Mild weather improves the quality of
hides, especially from the southwest, and
the tone of the market is decidedly firmer.
New England footwear factories are receil ga fair amount of new husiness from
sale-men at the west and duplicate spring
contracts also arrive, cailing for immedate delivery.

A better Feeling is noted in the
restore navigation.

BUSINESS OF ASSOCIATED BANKS Clearings of the Great Commercial

Centers of Country, NEW YORK, Moreh 31.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended March 30, with the percentage of increase and decrease, as compared with the corresponding week last year:

BRADSTREET'S REVIEW OF TRADE

Totals.

Business Active and Signs Point to Continuance of These Conditions. NEW YORK, March 31.-Bradstreet's tomorrow will say;

Excellent weather, favorable grain crop reports, expansion in industry, well maintained spring trade, particularly at the west, enlarging retail trade in the leading cities are a sextet of conspicuously satis-

weathered the cold weather in execilent condition.

Special reports from 108 cities and towns of the United States point to an expenditure for houses, offices, factories and other edifices of \$455,000,000 during the present calendar year. Allowances for cities not yet reported would indicate that the total expenditures for edifices for this year would run well up to \$500,000,000. In addition to this, marked activity in railroad building and heavy orders for equipment foreshadow an expenditure of probably \$200,000,000 by the railroads, this all pointing to an expenditure for material and labor of close to \$500,000,000 ty in trade is still noted at the west. Signs of improvement are noted at the south, though here the cotton situation is still a drawback and comparisons are with excellent trade a year ago.

cotton situation is still a drawback and comparisons are with excellent trade a year ago.

Milder weather, allowing prompter shipments of soft coal and coke, is a favorable feature, reflected with free grain and merchandise specials in an enormous car movement on all railronds. Labor conditions in the coal industry are not altogether favorable, owing to the prospect of trouble over the wage scale in certain districts of Pennsylvania. Coke is easier, but freer shipments are eagerly taken by iron furnaces. All the usual lines of distributive trade, such as dry goods, clothing, shoes and millinery, feet the stimulus of spring demand, whils enlarged building activity is reflected in better inquiry for lumber, inardware, paints and oils. Prospects favor a very early opening of water navigation, particularly on the Great Lakes, with an enormous ore trade downward and a heavy scal husiness up is foreshadowed. Prices of commodities, aside from those affected by weather, note marked firmness: particular strength is shown in tron and steel in all its forms.

Husiness failures in the United States for the week anding March 20 number 19, as against 18 last week and 11 in this week a year ago.

Wheat, including flour, exports for the week ending March 20 number 19, as against 18 last week and 11 in this week a year ago.

Wheat, including flour, exports for the week ending March 20 number 19, as against 18 last week and 11 in this week a year ago.

Wheat, including flour, exports for the week ending March 20 are 488,630 bushels, against 1,644,6917 in 1902. From July 1 to date the exports are 44,827,439 bushels in 1902 and 144,6917 in 1902.

Corn exports for the week were 2,450,452 bushels, against 1,545,000 bushels in 1902 and 194,320,532 bushels in 1902.

in 1902. Corn exports for the week were 2,470,052 bushels, against 2,976,836 bushels last week, 1,438,212 bushels a year ago, 2,822,048 bushels in 1903 and 350,831 bushels in 1902. From July 1 to date the exports of corn were 57,470,837 bushels against 40,500,226 hushels in 1904, 47,972,449 bushels in 1903 and 22,970,498 bushels in 1902.
