### EQUITABLE UNDER SCRUTINY

Affairs of Assurance Society Are Being Examined by New York Officials.

PRESIDENT ALEXANDER MAKES STATEMENT

He Denies Charge of Vice President Hyde that He is Seeking to Gain Control of Company's Assets and Business.

NEW YORK, April 3.—The most important development in the Equitable Assurance society's affairs today was the announcement tonight by Governor Higgins at Albany and by President James W. Alexander of the society in this city, that the state superintendent of insurance, Francis Hendricks, had begun an investigation of the company's affairs.

This was followed by the introduction in the state senate tonight of a resolution providing for a legislative investigation of the Equitable. The resolution was presented by Senator Brackett.

Mr. Hendricks returned to Albany last night after several days spent in conference with those interested in the Equitable matters in this city. The governor's announcement came less than twelve hours after the superintendent had reached his Albany office and was followed by a formal announcement from Mr. Hendricks' office in this city tonight to the same effect.

In an authorized statement tonight, the first Mr. Alexander has made since the state superintendent was called into the controversy—the president of the Equitable says that the investigation by Mr. Hendricks is now in progress.

"It is my belief," he said, "will establish the truth or falsity of many matters which are now being alleged on the one hand and controverted on the other."

He also takes occasion to deny some of the statements made formally by Mr. Hyde last Saturday night.

Mr. Alexander's statement follows: "It has been my settled purpose to avoid as far as possible a discussion in the public press of any matter of any phase of the controversy now existing within the Equitable Life Assurance society. It is a matter of course in the discharge of my duties as president of the society to make judgments on any matter affecting the society or any individual. I am confirmed in this resolve by the fact that an examination of the society was asked for by the board of directors on February 21, 1905. This examination is now in progress. Its result will establish the truth or falsity of many matters which are now being alleged on the one hand and controverted on the other."

In a signed statement issued by the vice president of the society, James H. Hyde on Saturday, April 1, 1905, certain statements were made which I cannot allow to pass unchallenged. He says that he has been asked to make a statement against the society and that he will give the individuals to obtain control of the Equitable society and its assets. On the part of myself and of the other officers of the society who are associated with me in this movement, I desire to deny that our action is influenced by any motive except a desire to discharge our duty as officers of the society.

Mr. Hyde further says that he has exercised no power except that of the president's concurrence. In reply I assert that Mr. Hyde's usurpation of the president's authority and his habitual action without the consent or knowledge of the president are among the subjects of our serious criticism of his conduct as an officer of the society.

It is the duty of the board of directors of the society's affairs by the superintendent of insurance must be viewed as an acquiescence of my conduct in this respect, which a few days ago, Mr. Hyde was disposed to regard as a matter of course. I have thus far made no statement of the frequent assertion that as one of the trustees of the society I am vested with the power of voting it. The trust expressed provides that no vote shall be given by any trustee at any election of the society by the three trustees, except upon the approval of the majority of the trustees. It is also one of the trustees.

**Law Covering the Case.**

The section under which Superintendent Hendricks today began his investigation is section 38 of the statute which provides that the superintendent of insurance may, as often as he deems it expedient, "appoint one or more persons as examiners to examine into the affairs of any such corporation and its books with reference to its business. Every such corporation, its officers and agents shall produce its books and all papers in its or their possession relating to its business or affairs for the inspection and examination of such examiners wherever required by the superintendent. The law also provides for a hearing to the corporation on the examiner's report before filing such report.

The announcement of an investigation was preceded by a statement that the hearing before the superintendent of insurance on the application of Crimmins' policyholders' committee, which had been set for tomorrow, had been postponed.

### NOVEL CURE FOR BITE OF DOG

Mother of Boy Prefers It to Following the Advice of Police Surgeon.

A 13-year-old boy named Nicholas Danze, of 1206 Pierce street, was attacked and severely bitten near his home yesterday afternoon by a bulldog owned by John Mathes, who lives on Poppleton avenue. The boy was brought to the police station in order that an information might be made against the owner of the dog, and this led to an examination of the wound by Police Surgeon Kennedy. When the temporary bandages were removed bunches of short brown hair were found carefully applied to all of the cuts.

"What is this?" inquired Dr. Kennedy. "That is hair from the dog," replied the mother.

"Why did you put that on?"

"Well, that is the very best thing to do," she replied very seriously.

"You had better let me cauterize the wounds," suggested the doctor.

"Oh, no," she replied; "hair from the back of a dog that has bitten a person is the very best cure for a bite."

As the woman would not agree to have the wounds cauterized or have the hair removed, Dr. Kennedy decided to identify himself with that sort of surgery and the woman took her boy home.

### RECEIPTS FROM TAX SALES

Total Amount of Money Gathered in as Result of Scavenger Law.

Footings made in the county treasurer's office of the total receipts on account of the scavenger tax sales show a total of \$48,706.75. This is divided as follows: Omaha, \$27,781.88; South Omaha, \$46,231.82; county of Douglas, \$123,773.02. County treasurer Fink estimates that the sales to be started in May will increase this total by \$150,000 to \$300,000.

The above figures include only money actually received as a result of sales under the law. The receipts in the treasuries of the various civil divisions indirectly moved Mr. Fink to say that the law has been even a greater success than his friends hoped for.

County Treasurer Fink reports that many of the large lists of real estate are being made out and paid from day to day. In this connection the treasurer wants to remind the people that real estate taxes become delinquent on May 1. He especially desires that the big lists be attended to prior to that date, because along toward the end of April, when the rush begins, the treasurer's force will be compelled to give attention first to the small taxpayer. The payment is growing in volume from day to day, and the outlook for a heavy total before the day for delinquency is very good.
