Wyoming State Railway Will Follow Old Survey Through Sweetwater

PRESIDENT CHATTERTON COMES TO OMAHA

Confers with General Manager Bidwell on the Work in Hand and Goes on to Chicago.

Ex-Governor Penmore Chatterton of Wyoming, now president of the Wyoming State railway, spent yesterday in Omaha while on his way to Chicago.

In regard to the work of the new line in Wyoming, Mr. Chatterton had little to offer that has not already been mentioned.

The Wyoming State railway will run from the Northwestern terminus at Casper and thence extend to Lander and on to Thermopolis through the Wind River canyon.

The officers of the company are: Penmore Chatterton, president; George F. Bidwell, vice president; Gibson Clark, secretary and treasurer; J. L. T. White and J. H. Lobell, trustees with the three others mentioned.

Fail to Adjust Rates. The meeting of railroad freight representatives just held at Denver to adjust the live stock rates from points west of the Colorado common points to the Missouri river and Chicago to an equitable basis did not bring about the desired results.

The Union Pacific, Denver & Rio Grande, Colorado & Southern, Colorado Midland, Denver, Northern Pacific, Chicago & Northwestern and Burlington were represented at the meeting.

Lake and Rail Freight. Advice has been received by local representatives of the Anchor line that the westbound rail and lake freight rates for the ensuing lake season were made effective April 5, although it has not yet been determined when the lake navigation will be opened.

Dodge's Heating Apparatus. Six steam radiators are mentioned in the last report on the stolen property book at the police station.

HESSIAN FLY NOT A BIG DANGER. Spring Frosts Have Had Effect of Nearly Wiping Out the Wheat Pest.

Judging from the looks of the winter wheat in the Lincoln-Fairmont territory, where the Hessian fly made its appearance last season, to the anxiety of the farmers in that section of Nebraska, it is now believed this insect was destroyed in the chrysalis state by the spring frosts after life had been started by the warm days.
