MINNEAPOLIS SENDS WHEAT TO CHICAGO Elevators Have Began to Turn Out Contract Corn for May Delivery

-Receipts Continue Light and Feeding Heavy. OMAHA, April 13, 1935.
The crop killers are busy today and the uly wheat has been worked up very well in the dry weather news which is being on the dry weather news which is irculated. A good general rain we knock the bottom out of the market.

news. Only local short wheat has been on the market this morning and Chicago professionals caused most of the advance in July.

There is a lot of dry weather talk and had reports from points in Indiana, Michigan, Illinois, Missouri, Kansas and Texas received. Kansas City hears there is had work in Kansus and Nebraska; Nebraska City says it is very dry everywhere; Auburn says the wheat is turning yellow through the efforts of the Hessian fly; David City says the wheat is looking thin from lack of moisture and is not as far advanved for the time it has been growing as it should be. Minuenpolis has a story from Fort Worth, Tex. to the effect the red rust has attacked the wheat stalks. The Price Current, however, says the conditions continue favorable with but few exceptions, and that the winter wheat outlook has been rarely so promising.

It appears now that the spring wheat crop in the northwest for last year was under estimated, for the official receipts at Minneapolis from August 1 to April 7 total 63,666,000 bushels, or 1,374,000 bushels more than the crop of the year before. The Minneapolis flour output fell off 19,000 barrels, the amount being 256,660, against 187,855 barrels. The primary receipts are 338,000 bushels, against 242,000, and the shipments are 213,000 bushels, against 219,000. The May corn before noon today reached the high and low of 48c and 484,c. against 187,6c and 484,c. Wednesday. All of the elevator interests which are short will begin making contract corn and turned out 14,000 bushels wednesday. All of the elevator interests which are short will begin making contract in a few days. Charters were made. Wednesday in Chleago for 100,000 bushels of corn at 1½c to Buffalo. While the receipts were only 92 cars of corn will be fed up very rapidly. The clearances of corn were 67,525 bushels, the primary receipts being 222,000 bushels against 215,000 bushels against 221,000 last year.

HOGS—There was a liberal run of hogs in signt this morning, and as Chicago was quoted slow and 25g5c lower, just about the same conditions prevailed at this point. At the opening, owing to a brisk demand from both packers and shippers for some choice light weights, a few sales were made at about steady prices, but aside from those the general market was 25g5c lower, the greatest decline being on the heavier, particularly if they were lacking in quality. Trading was not very active and after the more desirable loads had changed hands the feeling was weaker, the late sales being largely at \$5.25 and

changed hands the feeling was weaker, the late sales being largely at \$5.25 and \$5.274. The bulk of all the hogs went from \$5.25 to \$5.30, with a top at \$5.254. As will be seen from the sales below, there was a wide difference in the weights of the top loads and this is the first time in many months that hogs weighing only 17; pounds sold at the top of the market.
