Governor McDonald and Party Meets Special at State Line.

CROWDS AT TRINIDAD AND PUEBLO

Mr. Roosevelt Makes Addresses at the Sta-

tion at Each Point.

Here He Appenls to Newspaper Men Not to Follow Him Into Mountains-Train Due at New Castle at S A. M.

NEWCASTLE, Colo., April 14-With the snow two feet deep in every direction from the camp and from three to five feet deep in the hills, with the snow storm still continuing, it is possible President Rooseveit will be compelled to delay his hunt here or content himself with smaller game than the grizzlies he has REPORT ON SCOTCH CHURCHES planned to kill. For a week now the snow has fallen day after day. Not twenty-four hours have passed without its storming. All that prevents the roads and trails from being absolutely impassable is the warm weather that has intervened and to a great extent meited the snow.

P. B. Wells, a Meeker hunter, who is one of the party, has just arrived here. It cannot itself adequately administer. As It took him nearly five hours to make the twenty miles' ride from Camp Roosevelt, and his horse was worn to exhaustion manses and money handed over by the when he reached here.

The weather is at least three weeks bend the normal," he said. "There has en an unusual amount of snow here this the conditions so bad as this season."

Camp in Perfect Shape.

According to Wells, the camp is now in perfect shape. It has been practically decided to track the game with dogs and to follow with horses. This is considered one of the most dangerous sports, and the bad condition of the ground makes it doubly

A full grown grizzly can easily race away rom a horse, and the dogs can almost equal the speed.

All of the straps, including the reins, are made of pure white horse hair and the buckles are of solid silver.

Receives Hunting License. TRINIDAD, Colo., April 14.-President Roosevelt crossed the Colorado-New Mexico boundary line at 11:50 a. m. Governor Jesse F. McDonald of Colorado and his party met the president at Emory Gap, N. M. After greetings were exchanged Governor McDonald presented to the president a special engrossed hunting license, giving him permission to kill any game he may want in Colorado. The president's trip through New Mexico was a continuous ovation, for aithough the train did not stop at small stations, there were crowds at all of them, who let out a good western yell for the nation's chief executive.

Seven thousand persons, including 2,000 school children waving small flags greeted President Roosevelt this afternoon with cheers. The depot platform had been roped off and forty special officers appointed to keep the crowd in order. Another of rough riders and another of veterans acted as a D. Let me say one word of special greeting to the veterans of the Grand Army. To you, my commades, I wish to say that I have just come up from Texus, and it would have doile your hearts good—you men who wore the blue in the great war—to see how wore the blue. Stood the men who wore the gray, united with them now forever and ever with one flag and one country. Final Interment at Arlington.

WASHINGTON, April 14.-Ambassador Porter's dispatch announcing the finding of the body of John Paul Jones reached the State department tonight. It was of considerable length, in the State department code and will not be deciphered until tomorrow. Just enough of it, however, was deciphered tonight to confirm the press reports of the finding of the body.

There is genuine satisfaction among the officials at Washington that the untiring efforts of Ambassador Porter have been crowned with success. It is probable that a recommendation will be made to congress at its next session looking to his reimburseup on the plafform, and a band entertained that there would be little profit in keeping ment. The remains of John Paul Jones are to be brought here and interred in the National cemetery at Arlington, and it is likely that the transfer will be made the occasion of an interesting demonstration. It is probable that Secretary Morton will send a battleship to France to bring the body

(From a Staff Correspondent.) WASHINGTON, April 14 - (Special Telegram.)-H. G. Mr. Wilson, in speaking of the conditions on the Winnebago reservation respecting the sale of liquors, said that during the recent months there had been much less drinking. The recent decision of the supreme court, however, holding there is no law to prevent the Winnebago or other Indians who holds full American citizenship from purchasing liquor, will have a disastrous effect.

"This decision means the finish morally and physically of this tribe of Indians." said Wilson.

"If enabled to purchase whisky they will soon become extinct. In fact, it will be 12 m 40 but a few years until nearly every able bodied man among them will have drank himself to death."

Indians File Protest.

The Winnebagoes have filed a protest with the secretary of the interior and commissioner of Indian affairs of the manner in which that tribe has been robbee of its lands and cast into outer darkness by the white man for the last twenty-five years. The Winnebagoes declare their lands, which have apparently been sold by them have been taken away fraudulently. Members of the tribe, they assert, have been forced to sign blank papers they knew have been taken from them by force or offset by enormous whisky bills; their agents have falsified itemized accounts they sent to the department, and during the last three months have ridden all over the reservation getting signatures from Indians to papers which enabled the speculators to get hold of their property. The climax, they charge, came when their agent himself handed to speculators direct the government checks, money belonging to the Indians to pay fraudulent debts and whisky notes of Indians without investigation or hearing and without the knowledge and consent of the Indians. The complaint is transmitteed by Phillip Long, a Winnebago, and is signed by more than 100 of his tribesmen. Some of the names attached are Red Legs, Charles Earth, George Long-

TO CONSIDER BOUNDARY RIVERS Special Committee Holds Its First

Formal Meeting.

WASHINGTON, April 14.-The president has appointed a special commission to deal with three important questions which have arisen relative to the diversion and interference with the course of international rivers. This commission consists of Judge Penfield, solicitor for the State department Special Assistant Attorney General M. C. Burch and Prof. E. H. Newell of the geological survey, and has just had its first meeting.

All of the questions before the commission have formed the subject of extensive correspondence between the State department and Mexico on the south and the Dominion of Canada, as represented by Great Britain, on the north. On the south there is the long standing controversy growing out of the damming of the Rio Grande and the use of the waters of the upper river for irrigating purposes in American territory to the injury of the Mexican farmers on the right bank of the river. The Mexicans claim that the Rio Grande is a navigable river and consequently that this diversion of the water is in violation of international law.

To the westward the commission is to deal with the Colorado river, where the upper waters, in American territory, also are about to be diverted, to the losses of the Mexican ranches in Lower California On the north, the Milk river projects in Montana have alarmed the Canadians, Arising in the United States, this river flows into Canada and back again into Montana. The Canadians have been making large use of the waters on their side. which has led to a project by the people of Montana to cut out the entire bend in the river on the Canadian side by a canal, the effect of which would be to completely deprive the Canadians of water. The commission will have to deal with some entirely new questions of interna-tional law relative to riparian rights.

American Admiral at Manila Receives Report from Saigon Regarding

TOKIO, April 14 .- It is reported that the min force of the Russians, which retired in the direction of Hsingking, has reached Kirin. The rear guard, which is estimated at 12,000 men, continues in the vicinity of Harlungcheng, closely in touch with the Japanese vanguard. The main force, which retired from Kalyuan over the Kirin road is reported at Kirin, with a rear guard of 8,000 men, at Itsuchow, Haklusu and at

point for the Changtu and Fakumen orces. Although a force, estimated at 13,000 men, has been detailed to occupy Fenchua, and 3,000 to hold Pamiencheng the latter force seems assigned to check
