ciearances are 37,673 bushels. The corn market was somewhat stronger at the opening and early in the session than it was later. The high point reached by the May was 49%c, 5%c better than Thursday. In the May oats the high and low points reached before noon were 30%c and 30%c, an advance of 4%c. The northwest is supposed to be short about 10,000,000 bushels of May oats in Chicago, St. Louis and Minneapolis bought heavily Thursday and today on the talk of drouth in parts of Kansas. Nebraska, Iowa and central Illinois. This talk, with the light receipts, has frightened the shorts.
