.T. PETERSBURG, April 18.-Gradually many interesting details surrounding the recent arrest of a band of about a dozen terrorists are leaking out. The capture, which is regarded by the authorities as being of immense importance, was accomplished by Kashovisky, the Russian Lecoqui, who was dismissed from the sepolice several years ago on account of his connection with Phillippe, the spiritualist, who created such a stir at court several years ago and who, too, went to

Governor General Trepost upon his apdirection of the central organization which great difficulty. apparently has its headquarters in Switzerland. Alfred Henry McCullough the man killed March II by the accidental explosion of a bomb at the Hotel Bristol, whose real name was Bauman, was one of the chiefs of the terrorists having charge of the manufacture of bombs and Kaleleff, who killed Grand Duke Sergius, also belonged to the same group.

After Bauman's death Kaleieff's duties evolved upon Mile Leontieff, daughter of restored. General Leontleff, who recently was apgovernor of Yakutsk, Eastern Siberia. Mile Leontieff recently became a convert to terrorism during her stay at Lucerne, Switzerland. Kaleleff's identity seffously. The federation orators are bitter was established through the discovery of a photograph belonging to Savinkoff, who has been his comrade, both at the university and in exile.

Perhaps the most romantic feature is doctrine of assassination and that after the arrest of her mentor Mile Trepoff actually attempted the life of her uncle, firing two shots at him, both of which missed. Thereupon the two girls became

panic stricken and attempted suicide, Mile Trepost throwing herself under a train and Princess Denisheff shooting herself. Neither of them succeeded in killing herself. The family has since tried to make It appear that the girls' acts were the result of a mutual pact for self destruction, both being in love with the same man, as officer of the guards.

About 100 male and female students of the conservatory of music, who have been connected with the agitation in favor of Rimsky Korsakoff, who was removed from his professorship in the conservatory because of his attitude towards the striking students, have been arrested and sentenced to a month's imprisonment.

The American submarine boats have proved so satisfactory that the Admiralty has just signed a large order for additional boats which will be built at Libau under the direct supervision of the inventor. Extensive trials have demonstrated the case and reliability with which the boats can be handled and especially their large radius of action. Some of the first lot of wine boats received here are already at Vladivostok.

Instructions Sent to Officials to Pre-

Knowledge that Fleet is in French Waters. TOKIO, April 18 .- The Navy department

oday declared Tsugara straits a zone of

defense, with the usual maritime restric-Duscussing the presence of vessels of the Russian second Pacific squadron at Kamranh bay, on the east coast of French Indo-China, the Jiji Shimpo declares that the use of the island of Madagascar by the Russian squadron was a direct and prolonged violation of the principle of neutrality, but on account of the distance Japan in that instance simply lodged a protest. The paper, however, insists that

effecting a junction with the remaining division of the squadron. "If the use of Kamranh bay is continued," the Jiji Shimpo adds, "Japan must regard its neutrality as completely respect its neutrality. The violations of neutrality in distant ports are not important, but when close to the zone of war it is impossible to view them with

base for action against its opponent and

says it intends to use it as the point for

the same leniency." Strong Criticism of France.

The Jiji Shimpo further declares that France is lending the Russians efficient assistance, thus actually joining issue with Russla against Japan, and that it is now necessary for Japan to notify Great Britain and obtain its co-operation, according to the terms of the Anglo-Japanese alliance. "Protests," the paper asserts, "are un-

availing. The time for action has come." The Nichi Nicht today says France has been a party to keeping the location of the Russian squadron a secret and adds that France does not observe the twenty-fourhour rule. But, the Nichi Nichi continues, the spirit of neutrality affords no excuse for extending such hospitality to a belligerent squadron, and it expresses the hope that France will take steps to abide by its obligations and duties as a

neutral power. French Would Be Neutral.

PARIS, April 18-(3:05 p. m.)-The French government has taken every precaution Beau, governor general of Indo-China again calling his attention to the regulations concerning the observance of neutrality, issued at the outset of the war These are identical with the neutrality rules in force during the Spanish-American war. It is believed that Admiral De Jonguleres, commander of the French naval forces at Saigon, in proceeding to Kamranh bay, where part of the Russian second Pacific squadron has been seen, is

following the governor general's instructions.

No Official Information. The officials here have no information concerning the length or circumstances of the stay of the Russian vessels at Kamranh bay, and therefore they are unable to determine whether the ships are actu-

ally within the territorial limits of French Concerning the statement in the Associgled Press dispatch from Tokio yesterday, that the international status of the waters of Kamranh bay might determine the question of Admiral Togo's attacking the Russians there, the official view prevails here that there are no international

obstacles to prevent the Japanese adopting such tactics as their naval situation requires.

Togo Will Be Cautions. LONDON, April 18.-Baron Hayashi, the Japanese minister to Great Britain, expressed the opinion to the Associated Press today that Admiral Togo would not give battle to Admiral Rojestvensky with his entire squadron, but would continue the cautious tactics which characterized his attacks on the Port Arthur squadron, not because he feared defeat, but owing to his desire to inflict the greatest amount of damage on the Russians with the least loss to himself. While confident of his ability to accomplish the total destruction of the Russian aquadron in a big battle there is the danger of Togo losing one or two

of his big ships. Russians Still in kamraah Bay.

The latest news from the far east shows

that certainly a portion of the Russian second Pacific squadron was still coaling at Kamranh bay Saturday morning, April 15. This news was brought to Singapore by the British steamer Sui Sang and to Hong Kong by the French steamer Phuyen. The former merely reports passing the Russian ships at II o'clock in the morning. The Phu-yen's officers saw twenty vessels coaling in the bay and it is suspected that the remainder of the fleet was inside the harbor. According to the Daily Mail's correspondent at Singapore, the Sui Sang, which was not molested by the Russians, sighted a big French warship two hours later, fourteen miles to the southward, evidently proceeding to

Kamranh bay. Outside Three-Mile Limit.

The piece-meal character of the news excludes the possibility of any accurate estimate of the movements of Vice Admiral Rojestvensky's squadron, but it would seem to show that the vice admiral has divided his forces, a portion of which went northward before Saturday. has happened since then is impossible to say, and there is no clear evidence even three-mile limit, which would bring them, according to international regulations into infringement of French neutrality. The fact that they were visible to passing ships would appear to show that they

were outside the limit. The correspondent at Tokio of the Daily Telegraph says he has no hesitation in declaring that should occasion arise and her preliminary protests be ignored. Japan
