VALUES MAY SINK TO EXPORT BASIS

Pillsbury Will Pay for May Wheat and Grind It-Rumor of Early Texas Harvest-May Corn Oversold.

There is going on a great readjustment of values in the wheat market. High prices have been continuous for nearly a year, the market being above \$1 last August. The good wheat has been saved and the poor wheat used, and there has been a break of almost \$2 cents in ten days. It is predicted that the decline in wheat will be as thorough and as precipitate as was the advance, and that the end is not yet in sight and the wheat will have to go to an export basis before any rally can be expected. This view of the case was strengthened this morning by the action of the market. The May opened at 30c, which was the high point for the day, and then declined to \$8%c. It later railled a little to \$8c and at noon stood at \$8%c. The range Wedensday was between \$3%c and \$1c. The July before noon reached the high and low points or \$10c and \$2%c, against \$8%c and \$3%c Wedenesday. In the first haif hour of the session there was failly 1,000,000 bushels or the May traded. In the July the high point came about noon and was due to the covering of Iscal shorts. Pringle was the largest buyer of July wheat. Liverposi closed with a decline of &c and 1%c. Paris was unchanged, Buda Pest advanced %c and Berlin closed with a loss of %c.

The bears have been showing more fighting strength Wednesday and today than they have shown through the long bull campaign. The general opinion is that the situation, as it is now changed, throws the balance in favor of the bears in all the grains. The short crop Idea has proved to have been without foundation and now the talk is for the export level. The present wheat conditions are much like those which ended Sully in cotton—fireworks and unavoldable. In cotton there was good buying after the bustup on the idea that prices were low enough, but this idea was vrong, for people had lost confidence in the cotton. It is thought by many that the same condition is now ruling the wheat market.

A message has been received by a commission house that harvesting will begin in Texas in three weeks. This would be fro OMAHA, April 27, 1905.

Texas in three weeks. This would be from two to four weeks earlier than normal. Valentine two months ago, it is said, predicted the May wheat at this time would sell at almost 90. The first Minneapoils patent flour in many months has been worked for export. It is understood that the Pillabury line of May wheat, amounting to about 4,000,000 bushels, will be taken in and paid for, as the best milling wheat is considered desirable, as the old wheat will be needed for blending with the new in grinding for some weeks after the new comes in.

In grinding for some weeks after the new comes in.

The Liverpool corn market closed with a decline of %c. The May corn on this side ranged between 45%c and 45% before noon, as against 47c and 45%c for high and low Wednesday. The May is apparently sold to a standstill and the traders were very nervous early in the session at the opening being higher fram the close of Wednesday. The corn clearances were \$2,335 bushels. The primary receipts of corn were 190,000 bushels, against 28,000 bushels last year, and the shipments were 337,000 bushels, against 28,000 bushels.

Prices on Board of Trade.

CHICAGO. April 7.—The price of wheat for May delivery feil 45¢ a bushe today on renewed selling by sincouraged holders. The lowest point of the day was touched at 25½a. The weakness was due largely to a sharp decime at Liverpool and to continued excellent weather in America. The market became quite firm late in the seasion on covering by shorts. At the close May wheat was of 1½c. July wheat is down sec. corn is up 1½arde, oats shows a sain of ixe. provisions are unchanged to 17½c lower.

At the opening the wheat market was decidedly weak. May was off 1½g3¼c at \$5½45½c. Under enormous saies from scattered longs, the price of May was forced down to 85½ 65½c. LONDON, April 27.—Money was in good demand in the market today in payment of the call for the Japanese loan, though the pressure did not equal expectations. Discounts were firm. Trading on the Stock Exchange generally was affected by the dearness of money, besides the attitude of Paris regarding the Moroccan situation, which restricted business. Prices weakened later on continental selling orders. Consols were easier and home ralls were slower. Americans opened considerably depressed, reflecting the feeling in New York, fillinois Central being a notable exception. There were further marked declines later in the afternoon in New York selling, especially United States Steel, and prices closed flat. Foreigners declined in Paris selling. Imperial Japanese government is of 1904 were quoted at 100%.

BERLIN, April 27.—Prices on the Bourse today opened firm, but became weaker and closed in that condition.

PARIS. April 27.—The trading on the Bourse today was agitated and prices were weak, owing to renewed apprehensions in regard to the Moroccan question. There was a slight improvement towards the close. Russian imperial 4s were quoted at 87.50 and Russian bonds of 1904 at 5.08.

Metal Market.

Metal Market.

NEW YORK. April 27.—METALS—The London tin market was somewhat irregular, with special supplies held higher at £139 28 26. while futures were lower at £134 15s. Lecally the market was quiet so far as actual husiness was concerned, but seemed a little standier, with most holders asking full outside prices. The range was from \$30.1% to \$30.50. Copper was unchanged in the London market at £66 5s for spot and £08 5s 9d for futures. Locally the market shows no fresh features. Lake is generally quoted from \$16.00 to \$16.25, though some dealers are asking £15.374, and there are, on the other hand, rumors of metals obtainable for May shipments under £15.00, electrolytic is held even with lake at £15.000 15.25, and casting at £14.75615.00. Lead was unchanged at £45046.0 in the local market, but was lower at £12 11s 3d in London. Speiter was unchanged at £24 in London and at £50.00 in the local market. Iron closed at 54s 1d in Glasgow and at 51s 11½d in Middiesborough. The domestic market is more or less unsettled. No. 1 foundry, northern, is quoted at £1.75598.00; No. 2 foundry, northern, is quoted at £1.75598.00; No. 2 foundry, northern, £16.85617.25.

ST. LOU'18, April 27.—METALS—Lead, steady, £4.50. Speiter, duil, £5.70.

NEW YORK, April 37.—COFFEE—Market for futures opened steady at unchanged prices, or about in keeping with European cables. A few May notices were in circulation without, however, having any effect on the market, which ruled generally quiet. Small receipts at Brazilian points promoted a little buying, but offerings were sufficient to supply the demand and the market closed steady on the opening basis. Sales were reported of 27.250 bags, including May at 6.50cf. June at 6.550cf. The, September at 6.550cf. June at 6.550cf. December at 7.1557.250c. March at 7.30c. Spot, steady; No. 7 Rio, 7%c.

SHEEP—There was a light run of sheep and lambs here this morning, and as all the buyers were anxious for supplies, the market ruled active and strong. Trading began at an early hour and everything was disposed of in short order. There was practically nothing but elipped stock on sale and the quality was fair. The clipped yearlings that sold yesterday for \$5.31 brought \$5.40 today and another string of clipped yearlings brought \$5.50. As high as \$4.50 was paid for clipped ewes and \$6.00 for clipped lambs.

CATTLE—The cattle market was in bad shape at all points this morning, packers ciaiming that the beef market down east was very dull and weak, and as receipts were fairly liberal this morning packers started in to buy their supplies for considerable less money. Salesmen could not see their way clear to accept the prices offered, so that the morning was well advanced before much business was transacted.

The beef steer market could safely be quoted very slow and fully logific lower than yesterday. All kinds suffered in the decline, the good as well as the common, but naturally the less desirable kinds showed the greatest loss. It was late before the cattle began to move toward the scales, as buyers did not seem to be anxious for supplies even at the decline, and as there were quite a good many cattle on sale the day was well advanced before anything like a clearance was made.

The market on cows and heifers was also slow and fully 100/15c lower. The better grades seemed to suffer fully as much as the common and medium grades, and as salesmen could not make up their minds to take off as much as packers demanded it was late before very much business was transacted. They finally had to cut loose, however, as there was no prospect of an improvement.

Bulls, yeal calves and stags all felt the effects of the decline on steers and cowa and were slow sale and unevenly lower.

But very few stockers and fee'ers arrived this morning and as the demand from the country yesterday was in fairly good shape the demand from speculators this morning was equal to the supply and consequently the more destrable grades of cattle sold freely at steady prices. The commoner kinds were neglected to some extent and a trifle lower. Representative sales:
