## RACE TROUBLES OUT OF STRIKE

tally Wounded in Chicago.

CHICAGO, May 21.-Chicago is threatened with a race war of serious proportions. Emblttered by the shooting of Enoch Carlson, an 8-year-old boy, last week by two negroes, the residents in the vicinity of armed themselves and clashes between white and colored men have become frequent since the Carlson murder that it ans been found necessary to detail scores of policemen in the district to preserve peace. Even this precaution has been unnuccessful in keeping the opposing factions

In a riot which broke out in this district conight between the whites and blacks, sullding in which Bernstein was being neld captive suffering from four bullet wounds was stoned and partially wrecked a mob of 1,000 persons. The trouble started when James Gray accused Bernstein and a white companion of being rouble makers. Since the teamsters' strike Bray has been employed by a coal comand the shoeting of young Carlson were up for discussion. Aftery words soon led to blows and in the fight that followed Gray drew a knife and attacked both men.

proaching Bernstein awung the revolver his own revolver and fired four shots, each nagie.

of the bullets taking effect in Bernstein's In the sixth inning it looked like unother body. As Bernstein fell unconscious, a for the Sioux, when with two out and a crowd which had been aftracted by the first shots hurried up. With the assistance of another negro man; Tinsley picked Bernstein up and ran into a nearby sa-loon. Tinkley stood in the doorway of the saloon, with drawn revolver, but the crowd, which was composed of negroes, was crying for vengeance for the killing of Gray and Tinsley seeing that he, unassisted, would not be able to keep them back, shut and barred the door. The crowd, which had now grown to a mob, rushed at the building and its entrapces. Finding all the doors locked and being unsuccessful in their efforts to force them open, large stones and other missiles were thrown at the building and every window and fixture in the place was shattered and demolished.

While the disturbance was going on three negroes who had followed Tinsley into the saloon dragged Bernstein into the basement and with clubs in their hands stood ready to defend him.

In the meantime the police at Centra station had been notified of the trouble and two patrol wagons and an ambulance filled with policemen were hurried to the scene, but it was only after a desperat fight, in which several of the rioters were badly bruised by the policemen's clubs that the mob was forced back from the sa loon, shouting for Bernstein, the slayer of police told them that Bern stein had been killed and, to make good the remark, the barrender, who was un conscious, was placed on a stretcher, cover thrown over his face and brought the door of the saloon. This had a quieting effect on the crowd and they soon dis-

After he had been fevived in the hos pital Bernstein declared that Gray had started the trouble and that he had killed the negro in self defense.

### BALFOUR IS MISINTERPRETED Lord Esker Says Premier is to Larger Fleet and

Army,

LONDON, May 21 -Lord Esher, who was chairman of what is known as the Lord Esher, who was chairman of what is known as the Lord Esher commission, appointed in 1908, for the purpose of advising the government concerning the creation of a board for the administrative business of the War office, in a letter published by the Times this morning, says he laters that the general interpretation of Premier Balfour's speech in defense of the empire is incorrect.

ST. JOSEPH, Mo., May II.—(Special Telegram.)—Vollendorf proved invincible against St. Joseph in this afternoon's game and as a result Denver won, from St. Joseph by a score of 2 to 1. On the other hand Denver was successful in bunching hits, assisted by Fleming's weak throw home. The work of both teams was of the double carrait variety and apectacular work on the field was the feature. In defense of the empire is incorrect.

In defense of the empire is incorrect. Lord Esher contends that the premier's argument, which was necessarily clothed n parifamentary and diplomatic language. was rather for an increase than a decrease of the military and naval power. Lord Esber argues that Premier Balfour's argument contemplated a naval force so large as to insure the country from invasion even when the main fleets are absent and for an army strong enough to meet the possibility of the Russian and Indian fron-

OMAHA MAKES RALLY IN THE NINTH

Onslaught Comes Too Late for Anything But to Save Home Team from Second Successive

Shut Out.

If Gonding's hard drive to the left field fence had been a little harder in the ninth inning it would have gone over the fence cause it would have tied the tally and more hits than the Champions and fewer errors, and these are two important factors

of the game.

The Champions made an attempt at a Garrison finish in the ninth, but Freeze, who was sent in to bat for Sanders, and One Man Killed and Another Mor- Thiel were unable to deliver the goods and the day was lost. The Sloux had dubbed along, making one run in the first, one in the fifth, one in the seventh and one in the eighth until they had accumulated-four altogether, but Omaha was un able to bunch hits enough to make a run Twenty-ninth and Dearbonr streets have in the game until the last inning, and then it looked for a time as if things were looking up for the home boys. Dolan started this inning with a double to left field and went to third on Thomas' out from Newton to Starnagie. Martin singled toward third, but Dolkn was unable to score on the hit. Schipke's single past third scored Dolan and placed Martin on second. Then Gonding, who is developing into the slugger of the team, clouted it until it looked James Gray, colored, was killed, Harry good for the whole distance, but it stopped Bernstein was mortally wounded and a little short and Gonding reached second, but in the meanwhile Martin and Schipke had scored. The crowd went wild and hats and cushions were thrown to the wind as it looked now, with only one out, that Omaha would at least tie the game and probably win. Pa realized that Sanders is not the hardest hitter in the world, so he sent in Butch Freeze to save the day pany as a driver. The merits of the strike | Butch was too nervous and the best that he could do was to place an easy one in front of the pitcher, who tossed it to first. Thiel did better, as he got the ball by the pitcher and into the hands of the short-

walk. He died while being removed to a hospital.

The Sloux started right after the Omahas in the first inning and made a score after two were down. Sheean went out from Martin to Thomas and O'Harra made a single to Welch, but was caught at second out. By O'Brien, 5; by Minnahan, 2; by Durham, 4. Wild pitch: Durham, 3. Struck out. man on bases Newton drove a hard one that looked to be good for at least three, but Weich thought that it was his day to make the feature play, so he sprinted to the fence and made a running grab and nailed t, to the great delight of his admirers.

Martin booted Starnagle's grounder in the seventh, Baerwald's single sent the latter to third and Dolan's error permitted him to score. After Collins had retired from Sanders to Thomas in the eighth Noblit singled to left and Newton brought him home with a double to left, making the first carned run of the game.

Omaha started after the game in proper style, but they started something that they could not finish in the ninth and the game was not theirs.

Today will be the last appearance of the Sloux City team and it is ladies' day. At-

Des Moines Takes Another. DES MOINES, May 21.—Des Moines' Bunday hoode is no more, for the Underwriters deteated Colorado Springs with case at the Sunday park today by a score of 5 to 2. The game was uninteresting and featureless. Alded by errors, Colorado Springs accred two in the second inning. In the third Des Moines made this up and one more, and from that time on the game was all onesided. Burns' team continues to play listless and careless hall and he has ordered morning practice. Of the four hits made by the Millionaires two were by Anson R. Mott, who was purchased by Burns from Cantillon yesterday and reported in time for the game today. Mott was drafted from the Texas league, where he ranked near the top of the batters. Joe Cantillon assigned him to Milwaukee, but he was transferred to Des Mothes. He injured his heal early in the season and was unable to play when the team went west to open, and Cantillon farmed him to Oskalossa in the State league. He was the star man of yesterday's game. £	JETTERS BEAT THE STORZ TEAM

Close Game Between Brewers Goes to South Omaha Players. Base ball teams representing B. Jetter and Storz & Co. met Sunday afternoon at Jetter's park, and the B. Jetters won by 7 to 6. Both Ballenger and Premeau pitched champion ball, making the game a very close and interesting one. The support behind Ballinger was the better, and he made a nice three-bagger, thus winning his game.

Coronas Defeat Clarks The Coronas Defeat Clarks.

The Coronas administered a drubbing to the Walter G. Clark Campany team Sunday afternoon at Jetter park, South Omaha. The Coronas found Ham for a total of eleven hits and twelve runs. He was replaced by Smith in the eighth inning, but the Coronas had too big a lead to overcome. Murphy pitched in his old-time form, allowing but five scattered hits, and his own heavy hitting was a feature. The Coronas will go to McClelland, Ia., next Sunday to play the Quick Bros. team.

AUTOS ARE HELD BACK BY MUD

Good Roads Man Gets in, but Little

Machines Are Much Delayed.

James W. Abbott, special agent of the Rocky Mountain and Pacific Coast division of the office of public laquiries of the United States Department of Agriculture, arrived in the city Sunday and is at the Paxton. Mr. Abbott is accompanying the Olds runabouts which are making the transcontinental race from New York to Portland for the \$1,000 purse offered by the Portland exposition, and is keeping up with the racers by using the trains. He is securing data to present to the Good Roads convention which meets in Portland June 21-24 and also for a report which he will make to the Department of Agriculture.

Mr. Abbott says that the racers left Des Moines at 1 o'clock Sunday and that he has given up trying to forecast their arrival at any given point because of the bad roads which they have encountered. He says that he holds the same position with the government for the western territory that R. W. Richardson of this city holds for the middle west. Mr. Abbott says that Mr. Richardson is the prime mover in the good roads convention which is to be held in Portland and that it is due to Mr. Richardson that there is so much interest in the convention and the race which was planned as an advertisement for the convention.

"Autos are going to do more for the improvement of roads than any other one thing in many years," said Mr. Abbott, "and if this race is a success it will stimulate transcontinental travel and there will be a stream of autos moving from coast to coast. No auto has yet traversed the country between Portland and Omaha, and it is quite a problem to figure out the route to use in crossing the mountains, told the boys that when they reached Omaha their troubles would be over and that they could spin along the line of the old overrand trail, which is the Union Pacific railroad, without encountering the difficulties which they have in the middle states. When the autos reach Omaha they will have traveled 1,600 miles of the 3,600 which they set out to Good Roads Man Gets in, but Little Machines Are Much Delayed.

PRISCILLA WINS TWO TRIAL RACES

Dixon's New Boat Outsails Manaya in Dixon's New Boat Outsails Manawa in Two Heats in Light Wind.

E. W. Dixon's new boat, the Priscilla, won both trial races at Lake Manawa yenterday afternoon. A light, shifting breeze was blowing from the southeast and the south course, twice around, was chosen. In the first race the Argo crossed ahead of the Priscilla and took the windward borth. This leg was a long run close hauled and the Argo held its position until after rounding the first buoy. The next leg was before the wind and the Priscilla put out its spinnaker, which was just showing its effect when the boom snapped in the middle. This was quickly replaced by another carried aboard and the Priscilla soon slipped away from the Argo under its lee. This fend it increased on both remaining legs and at the turning buoy was 1:30 ahead. The second time around, however, the Argo gained slightly, but finished 1:18 astern. Elapsed time: Priscilla, 1:63:36; Argo, 1:96:54.

At the start of the second race the Priscilla took the lead to the south buoy. The wind was fluky and favored first one boat and then the other, but the Argo could not pass. After rounding on the next leg both boats used spinnakers, but the Priscilla responded better and gradually drew away. The second time around it widened this gap on the two long runs, and the Argo threw up the sponge and turned for home without making the last two buoys. The Priscilla finished in 1:25:07.

Plan Said to Await Only Result of Peace Negotiations, Mr. Griscom Being Needed in Japan

Until Dove Settles. (From a Staff Correspondent.) WASHINGTON, May 11 .- (Special.)-There s a well authenticated report in Washington to the effect that the president has already decided the controversy between Assistant Secretary Frank B. Loomis of the Department of State and Herbert W. Bowen, late United States minister to Venezuela. The verdict of the highest sourt to which such a case can possibly be

referred is in favor of the assistant secretary. Possibly Minister Bowen did nothing more than to report rumors which he had heard, but it appears that Mr. Bowen was indiscreet enough to impart the substance of the rumors which he had gathered to a newspaper correspondent. Indiscretion in a diplomat is practically high treason and Mr. Bowen has virtually severed his diplomatic relationship with the United States by his action. Mr. Loomis, on the other hand, has the entire support not only of Secretary Taft, but of the president as well. There will be several changes of the utmost importance in connection with the State department within a brief period. Mr. Loomis will, in all probability, retire from his present position to accept the very important post of ambassador to Mexico, and in his place will come Mr. Griscom, at present United States minister to Japan. This change would be made at once were it not paring to use Its good offices toward
