Union Pacific. CONFERRING DIPLOMAS AT UNIVERSITY

Democrats and Populists Fail to Get Together in First District and the Democrats Nominate Mayor Brown.

(From a Staff Correspondent.) LINCOLN, June 15 .- (Special.)-It will be

up to the State Board of Assessment to business at its next meeting. State Treasurer Mortensen will move that the Union Pacific railroad be assessed at an average of \$12,000 a mile, which will mean an increase to \$18,000 from \$16,000 on the main line, while the branches will remain the same. The average valuation now is \$11,000 per mile.

Mr. Mortensen will offer this as a con promise in an effort to conclude the business of the board. He and Governor Mickey have stood out faithfully for an average valuation of \$65,000 a mile on the Union Pacific, but so far have been unable to secure a vote on the proposition. It has been known or presumed that the new members would not stand for this increase, consequently to secure some kind of an assessment and an agreement between the board members. Mr. Mortensen is willing to vote for a lower assessment.

In a conversation with Auditor Searle this morning Mr. Mortensen said that politics should not enter into the board's findings, and that each member of the board should arrive at his conclusions without being prejudiced by any political favors he might receive at the hands of the railroads. Auditor Searle readily agreed with Mr. Mortensen and it is not improbable that the board will get together at its next

University Confers Degrees.

This morning at 10 o'clock the commencement address to the graduates of the University of Nebraska was delivered by William Bryan, and the presentation of diplomas, together with the conferring of degrees, by Chancellor E. Benjamin Andrews. The commencement procession, under direction of Captain Wilson Chase, commandant of the university cadets, proceeded from library hall to the auditorium in the following formation: University band, regents, chancellor and guests of the university, administrative officers and members of the faculty, alumni and former students, candidates for degrees and students and friends. The faculty and administration officers, together with Chancellor Andrews, Governor Mickey and Mr. Bryan, occupied seats on the platform. Rev. F. W. Eason of Holy Trinity Episcopal church opened the program with prayer, after themselves before the chancellor for the conferring of the same.

Degrees were conferred upon seventyfour graduates and seventy-eight certificates presented. This number is somewhat less than usual, but this is accounted for by the fact that this year's law class was the first to graduate under the three-year extension of the course, which made the class much smaller than ordinarily.

Chancellor Andrews introduced Mr. Bryan, whose address was upon the subject "Man." Mr. Bryan especially urged that modern education, with all its splendid facilities and environments, was for the purpose of equipping the student to the extent that he would be able to give to society and the world the benefit of his knowledge in compensation in full for all the blessings which the world gave him. He argued for the suppression of selfishness nent and the giving of all man's ability for good to the world without the presence of a desire for re-

Dr. Clark, who is past 50 years of age, began to take the course three years ago, studying at home and during his travels and coming to the university to stand the examinations. He is in receipt of a letter from the faculty congratulating him on his examinations. The major examination was in theoretical and practical sociology, while the minor was the whole field of social science. Dr. Clark cause, received the degree of B. A. from the Rochester university, following which he took a three years' course in theology at the University of Chicago.

No Fusion in First. The democrats and populists of the First congressional district failed to get to gether today on the nomination of a fusion candidate for congress and as a result the democrats nominated Mayor Frank N. Brown of Lincoln unanimously, while the populists, in such small numbers that they could not be discovered, met at the Lindell hotel this morning and adjourned without doing a thing but thinking.

The nomination of Lincoln's mayor was accomplished in a jiffy without any trouble or dissension. No other candidate was mentioned at all. The declarations upon which Mayor Brown will stand declare against the free pass and commend President Roosevelt in his stand against the railroads. R. L. Metcalfe of the Commoner was chairman of the resolutions committee W. J. Bryan made a speech tending to encourage the democrats present, who by the way, filled less than 100 chairs in the auditorium. Mr. Bryan congratulated President Roosevelt for taking the stand always advocated by the democrats and told the party representatives that the democratic party was progressing nicely. which the candidates for degrees presented H. H. Hanks of Otoe county presided over the deliberations of the convention and talked along the same lines as did Bryan. Mayor Brown was not present and after a committee had failed to locate him an intimate friend announced that he would accept the nomination.

Too Quick with Capture. Because someone was in such a hurry to spread the news of the capture of Max Ploehn, who is charged with the murder of Alma Goos at Plattsmouth Saturday night, the captors will be deprived of the \$300 reward which the state had intended to offer. A few days ago Governor Mickey received an inquiry as to whether the state would offer a reward in such a case. The governor replied that upon receipt of the proper notification of the murder reward would be offered. The data in the case was received this morning and while Secretary Allen was preparing the proclamation for the signature of the governor the news of the capture was received. Naturally the

proclamation was not issued. Bryan Talks to Officers

Propose to Straighten River. FREMONT, Neb., June 13 -- (Special.)-The farmers and property owners along the Eikhorn river are agitating the question of straightening that tortuous stream by putting in cutoffs across the numerous bends, some of which are several miles around and only 100 yards across This season a good many thousand dollars worth of lands have been washed away and the damage to roads has been heavy. The plan contemplates the cost of the work being raised by an assessment on adjacent property owners on such basis as all concerned can mutually agree upon and with the consent of the county board. Cutoff channels are not an experiment on this river. The first one was put in a few years ago near Hooper with the approval of the county board. A broad, shallow ditch was dug across one of the bends, the river was turned in and the strong current did the rest of it. By putting in these ditches the farmers think they can save hundreds of acres of valuable land and

Mat Gering of Plattsmouth is En gaged to Defend Man, Who Has Hearing in a Few Days.

Max Ploehn, the Plattsmouth murderer who was captured yesterday in a barn on the farm of Peter Mumm, near the scene of the crime, was brought to Omaha yesterday afternoon by Sheriff J. D. McBride of Cass county. The prisoner was placed morning donned the cap and gown and in the Douglas county jail, where he will remain until he has a prelminary hearing, which will be in a few days, it is believed.

Ploehn has retained Attorney Mat Gering of Plattsmouth. Sheriff McBride stated that while he had no fears of mob violence at Plattsmouth, yet he deemed it a wise precaution to bring his prisoner to Omaha and thus avoid any trouble that Ploehn's presence at Plattsmouth might

"Why did you shoot your cousins?" was asked of Ploehn yesterday afternoon as the man paced his cell and smoked a pipe. "I was just crazy with drink, I went down town in the morning and drank and drank," replied the man.

On further questioning Ploehn said the girls did not give him any provocation to do the shooting, and said he had not been jealous of them. "Then you was just drunk and wanted to shoot some one?" was suggested to the

prisoner, to which he replied, "I guess so." Ploehn said he had no thought of really running away; that he knew he had done omething wrong and thought he ought to be treated in the same manner in which he had treated his cousins.

The city assessment has been increased by \$54.000 over last year, and it is expected that a proportionate increase will be maintained over the county, the board raising about as many assessments as it reduces. FATAL ACCIDENT AT MILLARD Lars Johnson Falls Under Train, is

Killed and Mangled. MILLARD, Neb., June 15 .- (Special Telegram.)-Lars Johnson, an old resident of this place, was instantly killed by the cars here this morning. Mr. Johnson was going from his home to the butcher shop and was crossing the tracks about 8:30 o'clock. when train No. 4 on the Union Pacific was pulling out of the station. He was struck by the engine and fell on the tracks, the cars passing over him, breaking his shoulder blade, collar bone and mangling his face in a horrible manner. The body was dragged about 125 feet along the track. But one person saw the accident, an employe of the company, who says he thought

Mr. Johnson was 60 years old. He was born in Denmark and had resided in Millard more than twenty years, conducting a that time. He leaves three children-Mrs. Rolla Crawford of Bancroft, Mrs. William Florence and J. Johnson of Millard. He has a brother in Illinois and a sister at Hooper, Neb.

Trites,

Many a bright and promising carser has been blighted by injurious habits of folly before the age of knowledge and understanding, and many have been cut short by the unfortunate contracting of some poisonous special disease which, through neglect or improper treatment, has completely undermined and shattered the physical strength and mental faculties. No greater mistake can be made than to consider lightly the first evidence of the introduction of any private disease into your system or, to neglect the first symptoms of weakened mind and approach of nervous debility, caused by improper or unnatural habits, excesses, dissipation, etc.

Such indifference and neglect of the first symptoms is responsible for thousands of human wrecks, failures in life and business, domestic discord, and unhappy married life, divorce, insanity, suicide, etc. Meni Why take such desperates chances? The manifestations of the first symptoms of any disease of weakness should be a warning to you to take prompt steps te safeguard your future life and happiness. You should carefully avoid all uncertain, experimental, dangerous or half-way treatment, for upon the first treatment depends whether you will be promptly restored to health again, with all taint of the poisonous disease removed from your system, os whether your disease, with the various resulting complications, etc.

If we could but see and treat all men whon the first symptoms show themselves there would be few men seeking a rejuvenating of their physical, mantal and sexual powers, and there would be none marked with the indellible stamp of constitutional Syphilis; and the sufferers from Varicoccie, Gleet, Stricture, Kidney,

Varicocele, Gleet, Stricture, Kldney, and Bladder Diseases

would be reduced to a minimum. But as long as MEN continue to disregard the golden adage," A stitch in time saves nine," and continue to neglect themselves or to excrete indifference in securing the right treatment at the outset, just so long will there be multitudes of chronic sufferers.

SKIN DISEASES SPEAK FOR THE BLOOD Skin Diseases speak for the blood and tell of the acid-laden, poison-

ous condition of that vital fluid, and of its effort to throw off and rid the system of the poisons and waste matters that have accumulated in it. Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Boils and diseases of this type are all caused by a weakened and polluted blood circulation, and though they may have lain dormant in the system during the cold weather, at the coming of Spring and Summer, when In 1896 I experienced at times patches on the in
