Council Passes Ordinance Prohibiting Their Use or Sale in City.

DYNAMITE CAPS AND GUNS ON SAME LIST

Poundmaster McRaven Denies He Has Taken Horses or Cows from Private Property and Placed Then in the Pound.

Now for a comparatively quiet Fourth of July. The city council at its special session last night voted unanimously for the passage of the ordinance prohibiting the sale and explosion of giant firecrackers, dynamite caps, torpedoes, etc., and the discharging of rifles, shotguns, revolvers and all "toy" pistols except those designed to fire flat paper caps. The provisions of the ordinance and the penalties for violating same have already been pub-

lished. The council also heard from Poundmaster Frank McRaven his defense of the charges made against him that he and his deputies were in the habit of taking cattle and horses staked on private property and impounding them in order to derive fees for same. McRaven denied that the charges had any foundation and that all the horses and cattle which had been impounded by himself and deputies had been found on the public sidewalks or streets. He explained that people were in the habit of taken a prominent position in republican staking out their cows and horses on their lots and pastures with ropes of sufficient ength to allow the animals to stray into the streets. He defended his deputies and stated that he had given them strict instructions not to interfere with any cattle or horses except such as they found on the streets and, furthermore, he had instructed them not to seize any untagged cause to do so would "embarrass the chilfull confidence of this honorable body," not exceed \$4,000,000. said McRaven, "but the people should unows I find violating the city ordinances." He also asked the council to give him more the people were inclined to disregard his higher courts. authority and treat him as if he possessed

M. E. Sutton appeared in person to make complaint against McRaven, but his own ress for some weeks, have probably failed statement showed that the horse which Officials of both banks say that obstacles the poundmaster was charged with taking off a private lot had been tethered so that | would have had a capital of \$500,000. it could stray into the roadway. The council at the conclusion of the hearing decided to abide by its former orders that all cattle and horses found straying on the public sidewalks and thoroughfares be Schultze of Zearing is very satisfactory impounded, but referred the charges against McRaven to the judiciary committee and the city solicitor for investigation.

Northwestern Can Raise Tracks. Mayor Macrae informed the council of the intention of the Northwestern railroad to raise its bridges over Indian creek at Eleventh street, provided the city would consent to the tracks across Broadway being raised. The committee on streets and alleys was instructed to notify the railroad that this consent would be given provided the railroad would raise its bridges and do what else would be necessary. At the same time it was decided that the city engineer sould take levels on Broadway between Ninth street and the Illinois Central tracks with a view of ascertaining how much the grade could be raised by relaying the granite block paving.

A communication from D. J. Whittemore, chief engineer of the Milwaukee railroad, was read, in which Mr. Whittemore stated that the company was ready to contribute \$1,000 a bridge toward the expense of dredging Indian creek, but it did not see the necessity of raising its bridges after the improvement of the creek as conemplated. It was decided to lay the matter again before Mr. Whittemore with further explanations as to what the other railroads had consented to do.

The matter of rescinding the action of the council at its previous meeting in cancelling the contract for the auto combination street sweeper and sprinkler was brought up, but nothing was done. Alderman Maloney stood for cancelling the contract and stated that he would file a protest if the former action was rescinded. Alderman Crippen, chairman of the committee on fire and light, stated that the fire department was in sore need of 1,000

feet of hose and that he had been informed that if it could be purchased before July 1 the city could save \$100, as the price at that date would jump from 90 cents to \$1 a foot. In order to purchase the hose pefore that date it was stated it would be necessary to do so without advertising for bids, and to this several of the aldermen were opposed. After considerable discussion the matter was referred to the committee on fire and light to report on at a special meeting to be called before the regular session on July 3.

Dear Mrs. Pinkham:—

"For nine years I dragged through a miserable existence, suffering with inflammation and falling of the womb, and worn out with pain and weariness. I one day noticed a statement by a woman suffering as I was, but who had been cured by Lydia E. Pinkham's Vegetable Compound, and I determined to try it. At the end of three months I was a different woman. Every one remarked about it, and my husband fell in love with me all over again. Lydia E. Pinkham's Vegetable Compound built up my entire system, cured the womb trouble, and I felt like a new woman. I am sure it will make every suffering woman strong, well and happy, as it has me."

Dear Mrs. Pinkham:-

larity of feature.

OMAHA, June 19, 1905 .- To the Editor of he Bee: I have been visiting your city innually for over twenty years, agitating reforms social and moral among youths including the newsboys. Some ten years ago I began on the adoption of the curfew and two other laws for the benefit of One of these to procure the imprisoning the youths apart from old criminals, and the third one requiring the officlais to apprehend and restore to their homes all tramping boys and runaway girls. The curfew ordinance, however, seemed more urgent than the others. In fact I found that if the curfew was enforced there would be less demand for the other two laws, hence I concentrated my efforts on the former. Since my arrival here three weeks ago I have examined very carefully into the enforcement of the curfew ordinance in Omaha, South Omaha and Council Bluffs, and from the testimony both of the officials and business men find that the curfew ordinance is very fully enforced. In fact every one with whom I conferred commended it. I noticed on my arrival in the city a decided improvement socially and morally among youths generally, including the newsboys, over what it was one year ago. I find your probation court to be in good hands. I have only one suggestion to make in the management of all probation courts. It is that the trial of boy and girl offenders be made as private as possible none present except the judge, probation officer and parents, and witnesses admitted only one at of the fraternal delegates to the Central a time. Judges in many of the cities of the country have stated that too much publicity tends to make heroes out of these juvenile delinquents, and I think it is the judgmen of police officials of long standing that this association and the Young Women's Chris- is the proper view to be taken in the case tian association upon the hopeful outlook of young criminals. I am greatly indebted the Drake Athletic union, and prominent Nineteenth and Twentieth streets from G for new and commodious buildings.
