Brown, the Democrat Candidate, Also Consults His Advisers and Says He is Satisfied Either Way Question is Decided,

(From a Staff Correspondent.) LINCOLN, Neb., June 26,-(Special Telegram.)-The question of the legality of the governor's proclamation calling a special election to fill the Burkett vacancy has been seriously considered by both republicans and democrats tonight.

Candidate Pollard spent the day in Omaha and this evening he was in consultation with Judge Holmes and others, who advised him to request the governo to withdraw the call. At the conclusion of the conference, Mr. Pollard said he believed the call was valid and that the election would be held. He made no positive statement, however.

Candidate Brown, W. J. Bryan and Chairman Metcalfe composed the other conference. Mr. Brown said at its conclusion, that while many of his advisors belived the call was not valid, he was ready to go on with the election or let it go over until the general election, just as Pollard and Governor Mickey decided. Mr. Bryan arrived in Lincoln late this evening and left on a late train. He came

HOLDUP MAN CALLS EARLY IN DAY

Robs Fremont Woman of Fifteen Dollars in Cash.

FREMONT, Neb., June 26 .- (Special Telegram.)-Mrs. W. P. Gannon was held up and robbed by an unidentified man at her residence, 219 C street, this morning. Mr. Gannon is a conductor on the Northwestern and was called up to take his run out at 3 o'clock this morning. His wife got his breakfast for him and about ten minutes after he left, while she was stoop ing in front of the refrigerator in the kitchen, the door was opened and a stranger walked in. She jumped up and ran into the next room, which was dark. He followed her, turned on the lights and grabbed her by the throat. She screamed oudly for help and for a few minutes fought vigorously and succeeded in giving him some good scratches on the face, which brought blood. He finally overpowered he and demanded money, threatening to kill her if she did not give it to him. Exhausted and scarcely able to breathe-for one of his first movements was to hold his hand over her mouth and nose-she finally vielded and gave him \$15, all the money she had in the house. The man then left the

Water Board Files New Motion Demanding

Seeks to Show What Heavy Consumers Pay for Water-Presents Thirteen Affidavits in Addition.

The Omaha Water board, through its atorneys, John L. Webster and C. C. Wright filed a motion in the United States circuit court Monday afternoon asking that an order be issued for subpoenas directing parties having knowledge of certain facts to the hearing of the injunction brought by the Omaha Water company against the Water board of Omaha and to testify to the same. The motion states that the Water board has been unable to secure affidavits to the facts desired from these witnesses in order that it may make a showing to resist the application for the

infunction. It is made to appear that the South Omaha Stock Yards company, Armour Packing company, Cudahy Packing company, the Omaha Smelting company and the Union Pacific Railway company refuse to make the requested affidavits.

The Water board expects to be able to prove by R. C. Howell, W. J. C. Kenyon, Patrick Sheehey, W. T. Page and Ben Laneaster, the amount of water consumed daily by their respective plants and the rate charged for the same. It is desired also to secure the testimony of E. M. Fair field, general manager of the Omaha Water company, together with the books of the water company.

Hunt, Underwood and Others. It is further necessary, as stated in the notion, to cross examine A. B. Hunt, F. E. Underwood, F. O. Kunz, H. L. Un derwood, E. M. Fairfield and C. J. Collins in relation to matters set forth in their affidavits that subpoenas be issued for

them as they are unwilling witnesses. There was filed in addition to the motion twelve different affidavits including the following parties:

Lyman E. Cooley, civil engineer of Chicago, Ill.; Benezetti Williams, civil engineer, Chicago, Ill.; Mac Ritchie, civil engineer, Chicago, all members of the Board of Appraisers called to appraise the value of the Omaha water plant; C. C. Wright, former city attorney; Andrew Rosewater, city engineer (three affidavits); Arnold J Koenig, secretary of the Water board (four affidavits); R. S. Hall, attorney; George W. Craig, assistant city engineer, and H. O. Edwards, manager for Swift and Co. A feature in the affidavit of Lyman Cooley of Chicago, is to the effect that he was a member of the board of appraisers to fix an estimate upon the value of the Omaha water plant. The schedules and plans as submitted to the Board of Apprais-

ers showed the going value of the plant to be \$3,000,000. The present value of the entire plant is \$71,588.95 in excess of the \$3,000,-Certain deductions should leave the 000. value at \$3,000,000. The plant could be re produced for less than \$4,000,000, and eliminating useless features of the plant, all essential parts could be reproduced for \$3,500,-The operating expenses of the plant is \$180,000. The estimated pumping capa city is 18,000,000 gallons per day. On that basis the working cost would be \$58.30 per 1,000,000 gallons, or at the rate of 5 83-100 cents per thousand gallons. The summaries of the findings of the Board of Appraisers is: Estimated value of the plant \$3,889. 694.08; depreciation, \$818,104.08; depreciated

valuation, \$3,071,589.95. The affidavit of H. O. Edwards, manager for Swift and Co., states that his company pays for water at the rate of 41/2 cents per 1,000 gallons. The average amount of wa-616,950 gallons.

The affidavit of C. C. Wright states that some of the packers refuse to give the affidavits requested as does the South Omaha Stock yards. However, it is shown by one of the affidavits that about 1,000,000 gallons of water was being used daily at a cost of but 41/2c per thousand gallons.

TRIES MURDER AND SUICIDE

Former South Omaha Woman Kills Herself After Poisoning Child. GRAND ISLAND, Neb., June 26 .- (Special Telegram. Mrs. Voisila Kveseck, wife of James Kveseck, a farmer of Cameron township, this county, committed suicide yesterday afternoon by taking carbolic acid and tried to administer a deadly portion of the same drug to her 3-year-old Coroner Sutherland called yesterday afternoon, but held no inquest, it being plainly a case of suicide.

Dr. Redfield of Wood River was summoned as soon as the husband of the woman discovered what had taken place and the little boy, it is believed, will recover. The woman was beyond aid. It is believed she took the polson first, that the little boy, disliking to take medicine of any kind, resisted, and that the mother's pains became violent before she could force the poison down the child's throat, the burning being mostly on the exterior of the child. Mrs. Kveseck had undergone an operation about a year ago and has not been in the best of health. Domestic unpleasantness, arising from their removal from South Omaha to this county about a year ago, is also said to have been probably a contributory cause.

Mr. Koloviolek, a relative of the woman from South Omaha, arrived for a visit to the woman and the family, only to find

It was finally decided to call a specific lection in the proposition to the gathering and the proposition was thoroughly discussed. It was finally decided to call a specific lection in the proposition as this prior right to cross the reservation, as this permission was granted by the department May 4, while the Great Northern did not get permission to survey even until May 4. Another basis of the protest is that the Homer people have begun to grade and are proceeding in good faith and under their rights on the reservation. They claim they acquired these rights before they had any knowledge of the intention of the Great Northern to occupy Thurston

Are you alling and prodding along, contaminated with some specific or private disease, or menaced by some secret weakness or drain upon your strength and vitality? Perhaps you have been intending to commence treatment for some time, and have been deferring the matter from day to day, month to month, or year to year, while your health has been gradually slipping away. Many are also influenced by "Free Treatment" and "Quick Cure" schemes, while others are buying ready-made remedies at drug stores—taking unknown concoctions for unknown ills. It is no wonder that they become discouraged and give up in despair. If you need skilled medical attention, can you afford to jeopardize your future health and happiness in this way, or will you yrofit by the experience of others and secure proper treatment first? Many of our patients were cured so quickly by our method that they often do not appreciate what they have avoided.

If you are suffering from any disease or weakness you want a permanent cure. You want all that science can do for you. Don't wait until your whole system is polluted with disease, or until your nervous system is tottering under the strain. Don't drag along a wretched existence of doubt and uncertainty. Come to our office and we will make a searching and scientific examination of your aliments; an examination that will disclose your true physical condition, without a knowledge of which you are groping in the dark, and without a thorough understanding of which no physician or specialists should be allowed to treat you. We want all alling men to feel that they can come to our office freely for an explanation of their condition without being bound by any obligation whatever to take treatment unless they so desire.
