**The OPPORTUNITY of TODAY**

The opportunity for the man with little means is probably better today than ever before in the history of the nation. To be sure, there is not the vast open choice of land for the homesteads that existed in the '70s. The lands then taken up under Government laws are now prosperous farms and ranches. There is need of more hands to develop the country. In the Southwest, Indian Territory, Oklahoma and Texas, are vast areas of unimproved land not yet producing the crops of which it is capable. Practically the same thing is true of the towns. Few lines of business are adequately represented. There are openings of all sorts for wide-awake men. Are you one?  
 If you are interested, tell us what you want, how much you have to invest, and we will gladly furnish the information. Write for a copy of our paper, "The Coming Country." Its free. Address
