The forecast of the week's currency movement showed a less formidable inroad upon cash resources of the banks than had been anticipated and while the decrease was saifficient to leave room for question of the mintenance of a surplus, considering the small margin of that item last week, the comparatively easy tone of the call money market today had a reassuring effect. As the subtreasury operations have taken 10.585,000 from the banks, it will be seen that interior banks have drawn on their New York correspondents for repayments of the 530,000,000 of government deposits to a rather less amount than was expected. The banks estimate that the interior movement of currency has been in favor of this center on balance to the extent of several million dollars, which will reduce the loss on subtreasury operations by that much. This gain on the interior movement is a decided improvement over the showing for recent weeks, although New York exchange at Chicago has ruled at a discount during the week. As the surplus reserves of the banks stood at less than \$200,000 last week, it is difficult to understand how 'be surplus has been conserved. Last week's bank statement, however, in reporting a loss of 50,000,000 in cash understated a reported gain shown by the known movements of money by over \$12,000,000. A rectification of this gaining discrepancy in tomorrow's banks statement is probable. The progressive easing of the call money market since the 'Che & S. B. Sti. The tendency favors sellers. Spotal grades of fleeces, notably fine Delaine, have advanced. Half-blood and three-eighths fleeces are in strong demand and selling at full prices. The general market, however, is not higher. A great deal has been done in in supplies to arrive and this encourages dealers in the belief that activity will continue and increase as spot supplies enlarge. With 70 per cent or more of the Montana clip disposed of, an early close of the season in the producing sections is assured. In London sales of Merinos and fine crossbreds are firm and medium and crossbreds easy, being 5 per cent off from a w. Some cables made Merinos 5c higher. The opening is considered strong in view of the poor quality of the offerings. It is thought a reasonable expectation that as offerings improve in quality prices will harden. Local receipts are the largest of the season for domestic sources of supply, but the movement is considered slow by mose dealers. The shipments of wool from Boston to July 11, inclusive, according to the same authority, are 144, 299,730 pounds, against 124,182,506 pounds the same time last year. The sales to July 11, inclusive, were 141,41,355 pounds, against 127,940,467 pounds the same period CALVES. of contract grade. EGGS—Firm; westen firsts free cases, 180 HOGS—Hogs generally sold 5c higher than yesterday. Some of the rough heavy packers did not show much gain, but on the other hand some of the good, light weights showed even more advance than 5c. There were in fact sellers who thought that they sold their light weights 5shife higher than yesterday. The bulk of all the hogs sold at \$5.70ch.56, with a top at \$5.90. Yesterday the hogs sold very largely at \$5.6006.75, with a top at \$5.80. The trade was fairly active at the advance, but toward the close slowed up and for a while was decidedly weaker. Later on it braced up and Except slightly warmer in the Dakotas the weather is slightly cooler throughout the corn and wheat belt. Very heavy rains have fallen in Ohlo, Indiana and Kentucky and rains were general throughout the corn belt, except in the extreme west portion. L. A. WELSH, Local Forecaster.
