BOY DROWNS AT CUT-OFF LAKE Young Son of Robert B. Haaker Lones His Life in the Water.

Robert Haaker, son of R. B. Haaker, 4907 Capitol avenue, Dundee, manager of the Regent Shoe company, was drowned at Cut Off lake Wednesday morning. The boy went swimming and fishing near the Swift of the lake. He was in a boat and taking off his clothes and donning a bathing suit stood in the boat and jumped in the water and did not rise again. The youth was 17 years of age. It is

ow thought he was caught in an undercurrent of some kind, as there are few weeds there and the water is fifteen feet deep. His body did not rise to the surface intil it was located and pulled out by harles Backler, engineer at Swift and company's ice house, about II a. m.

Young Haaker had gone to the lake with friend named Chadwick, a boy living in Dundee, and it was his friend who gave the alarm. Chadwick called to Robert Cuscaden and two other men, Mr. Bentley and Mr. Ellis, who were passing in a boat. At that time it seemed he had gone down only once, but it is difficult to tell. The body was taken in charge by the coroner. Mr. Haaker, the boy's father, hastened to the lake upon learning the terrible news.

Mr. and Mrs. Haaker had four sons, of which Robert was the second. Irving, the eldest, about 20 years of age, is in Colorado Springs on a pleasure trip. The two ounger boys, Harold, aged 16, and Harlan, everal years younger, are both at home. Robert Haaker and John Chadwick, who ives at Forty-ninth and Douglas streets, went fishing early in the morning and Mrs. Haaker did not know her son was one until several hours later. His father

was notified at 11 o'clock after the body had been recovered.

Warman Cohn Building Unharmed-The Berman Cohn building on North Sixteenth street was in no wise affected by the heavy rain of Monday night, as a report seemed to indicate. The report said the foundation wall had been damaged, but this was misleading. As a matter of fact the water did some mischief to the sidewalk retaining wall and to that only, but this wall is not connected with the building. Its sole function is to hold up the prism lights and sidewalks.
