FOOT BALL SQUAD TRYING OUT Many of the Old Men Return to Ames.

AMES, Ia., Sept. 5.—(Special.)—Foot ball practice began at the lowa State college last night and tenight about forty men reported for duty, a large per cent of whom were old men. A number of the varsity squad of last year are missing, but there are enough to form a nucleus about which to build a strong team. Clyde Williams returned from his summer spent at base ball Monday and he has the men busy punting and catching. He will be assisted by Sloux Jones this fail, besides the regular training work of Jack Watson. Captain McElhinney is back, but was not on the field tonight. Jobby Jeanson and Hubbard will be the prominent candidates for quarterback and opinion is divided as to which will be the star man. Brugger of the last year's varsity is back, as are Thayer, Lampman, Guy and Si Lambert. While the old men are not those who formed the varsity squad last season, many are good men and were kept off the 'varsity last season because of the freshman rule. The schedule has not been announced definitely as yet, but it will include games with Morningside college of Sioux City, Iowa college of Grinnell, Coe College of Cedar Rapids, Cornell college of Mount vernon. State university of Des Moines. The first game probably will be played about September 28, it coming on excursion day at the college and the date not being definitely set. ember 28, it coming on excursion day at he college and the date not being defi-

The gypsum mine owners of Fort Dodge are the last to complain about the raising of the minimum weight on carload lots from 24,000 to 30,000 pounds. They claim that shipments of stucco can very rarely be arranged for such large amounts as 30,000 pounds and that even 24,000 pounds is a large shipment. When a merchant buys a small amount and has to pay freight on 30,000 pounds it is a hardship. Commissioner Ketchum said today that he was disposed to take the view of the Fort Dodge people and was of the opinion that an ex ception would have to be made in the case of stucco, flour and lime if not in a number of other articles.

ATLANTIC—With the city water plant pumping \$59,000 gallons of water per day, or enough to supply forty gallons each to every man, woman and child in the city, yet it is impossible to supply the demand. Our people who live on the hill in the south part of the town are compelled to go without water for hours each day. They have complained to the council, which is trying to remedy the difficulty. The trouble seems to lie in the needless waste of water by the down-town consumers, and there is but two ways to remedy it, neither being at present available because of lack of funds in the city treasury. One is to put meters on all water consumers, and the other to build a stand pipe on the hill. The officers are endeavoring to stop the needless waste of water by down-town consumers.

LENOX, Mass., Sept. 5 .- Attorney General Charles J. Bonaparte tonight issued a statement regarding the Standard Oil case in the Illinois court. The attorney general's statement is as follows;

eral's statement is as follows:

On August 14 Judge Landis asked, in substance, that the Department of Justice consider portions of the transcript of testimony in the case of the United States against the Standard Oil company of Indians in order to determine whether the Chicago & Alton Railroad company, its officers and employes, were entitled to the benefits of an agreement, assuring it and them of immunity against criminal prosecution in connection with the granting of certain rebates to the Standard Oil company.

The department, in compliance with the desire of Judge Landis, examined the above mentioned records and carefully investigated the entire subject, and as a result of such investigation the attorney general, on August 23, wrote Edwin W. Sims, United States attorney at Chicago, informing him in substance, that the agreement was shown to have been made in June or July, 1906, by T. B. Morrison, Mr. Sims predecessor in office; that Mr. Morrison's action appears to have been duly authorized at the time by the department; that in the opinion of the department the arrange-

ment had greatly facilitated the indictment and conviction of the Standard Oil company, and that while certain portions of the evidence might be fairly open to unfavorable comment, the department regarded the government as bound in good faith, and also as a matter of public policy, to give effect to the agreement. Mr. Sims was instructed to read this letter when the grand jury reconvened on September 1 and to take such further action to the foregoing as might seen to the court and to limed appropriate in the premises.

The department learns that Mr. Sims did not comply with these distructions by reason of his having the admitted to the department of the further consideration before its conclusion should be finally announced. For this purpose he asked and was granted by the court a delay of three weeks. The department is not as yet advised as to what are the facts thus ascertained by Mr. Sims it has great confidence in his sound judgment and devotion to duty and it awaits his reply before taking further action in the premises. Inasmuch, however, as the circumstances of the case may be liable to misconstruction, it is deemed proper to submit now the present statement to the public.

You probably have some little want right now. And nine chances out of ten, or thereabouts, you could fill that want by using a Bee want ad. You may find your servants, and your errand boys, and your gardener without advertising, but, a want adcosts so little, and is so casy and so quick, and such a sure method of finding the cream of the unemployed that you cannot afford to get along without it
