derchants Report Encouraging Outlook for Fall Trade.

CAL MEN WORRY OVER SUPPLY

'elice in a Quandary What to Do is the Case of Mrs. Hattle Martin, the Girl Wife of a Fort Crook Spldier.

During the last week in September the isually gets its first impetus in South omaha. An interview with a number of son, and this was reinforced by the assurance that the summer season this year has been the best in the history of the after the convention meets. city. John Flynn of the firm of Flynn & 'o, wald:

"The off season this year has been expeptionally good with us, abounding in beter sales than on any previous year."

The same assurances were given by the other merchants visited. The autumn trade is picking up briskly and all of the dealtre are making broader calculations. All of the leaders have been in Chicago within the last month and also in other eastern points selecting their wtocks. Most of these stocks have already been received. South Omaha people are getting the habit of tooking into the show windows of their own town rather than burrying to Omaha. In the shoe business the same general feeling of security, is evident. Standard stocks d makes are handled in increasing quanlities. As in the dry goods business, each month has shown a comfortable increase over the corresponding month last year. In the shoe business there is one fact which is prominent, and that is prices in all leather goods range considerably higher than formerly. The rise has its origin in the wholesale branches of the shoe industry. The local meschants are selling on smaller margins than formerly.

In the coal business the greatest activity is appearing, and in this also the greatest anxiety exists. All of the local men apprehend a winter of the most stringent faroine in fuel. The retirouds are urging the local men to stock up to the limit. Such letters arrive daily and the warning are not passed heedlessly. The coal dealers in turn are anxious to get as much coal stored in the cellars of the consumers as possible before bad weather sets many people are ordering their winter coal in a prompt manner. If the first big supply is well stored South Omaha at least will not suffer from lack of coal. The worst feature of a coal famine is that any attempts on the part of the local merchants to get relief are valueless because the railroads refuse to make deliveries and often hold up coal which is on the road for delivery. Rock Springs and Hanna coal is exceedingly rare. Most of the merchants have none. In price, coal is advancing almost every week. Most of the South Omaha dealers have a fair supply and are ordering as fast as they can get room. All predict serious scarcity.

New Eugine at Armour's. Armour & Co. are fust finishing the installation of their new secondary 800 horsepower engine. This engine is directly attached to a big dynamo and it will be used to furnish the power to carry the night load for the plant. The night load consists of the electric lighting and the refrigeration. The big engine will be shut down each day as soon as the kill is done and then there will be sufficient power in the smaller engine. This works ar economy in fuel amounting to a large sum in a year. The engine was received over two months ago and the work of taking out the old engine which it replaced was at once begun. The old engine was by no means worn out, but the power it was capuble of generating was not sufficient to supply the needs of the plant. While the new engine has been set up, the company has rented power from the Omaha Packing company.

Police All at Sea. The South Omaha police are undecided as to the nature of the prosecution of Mrs. Hattie Martin of Believue for the confessed theft of a number of articles jewelry from J. P. Kraus in Albright. Much will depend on the feeling of Mr. and Mrs. Kraus in the matter. It is most unfortunate that her young hus band, a soldier at Fort Crook, is not in a position to help her greatly. The pay of a soldier would go a pitifully short way in securing counsel or in effecting oung and very sorry, If she is tried for grand larceny it means a penitentiary tentence. It may be that with the con ent of the plaintiffs in this case she vill be allowed to plead guilty to petit

Democrats in Lincoln profess to know nothing at all about the populists and seem to care less, while the few populists here have been betrayed so often by the democrats and have been so brow beaten they are not raising their voices to answer any inquiries. It is understood the democrats will have a few of the populist It is believed that the man in custody, who held the hard-hitting Champions fairly well, leaders get together under the banner of the old reform party and ratify whatever the democrats desire them to. The action of the State Board of Canvassers yesterday in correcting the mistake made by the county clerk of Lincoln county in the vote of George L. Loomis, which gave to Loomis the populist nomination by seven votes, saves the democrats some embarrassment, though the result would have been the same had the board refused to make the correction-Judge Loomis would have gone on both tickets, This is having the desired effect and as it had been decreed in advance that Albert should withdraw. Some of the opposition was not against extending the municipal plant, but against purchasing any of the property of the present private company.

Al Cochran Secures Freedom.

KIMBALL, Neb., Sept. 22.-(Special.)-The latest sensation here is the return of Al Cochran from the penitentiary at Canon City, Colo., after an absence of eleven years. -Cochran was sent up from Colorado eleven years ago for rustling cattle under a sentence of thirty years. He drove a bunch of cattle from Colorado through Kimball county and on north, and was captured in Sloux county, this state, with the cattle in his possession. It seems the owner of the cattle was away from home, but on his return took the trail and followed. Some days later he was found dead and buried in the sand, together with his horse. Cocha warrant on that charge was issued in Kimball county. That warrant still stands, but there being no one here now who cares to push the matter there will probably be OPPOSITION TO BUYING PLANT nothing done. Some days ago the governor of Colorado granted Cochran a reprieve of ten years, and a day or so later pardoned him. However, many wideawake owners have steadily advanced their holding price until \$60 and \$70 an acre for well improved farms are often the figures that greet the eastern immigrant looking for cheap lands.

Nebraska News Notes. KIMBALL-The new high school building a Kimball is finished and school began in even grades Monday.

KIMBALL-Kimball is discussing a water works proposition and will vote bonds on that question in a few weeks. SUTHERLAND-Hugh Nevin and Miss Edna Bunn, well known people of this vicinity, were married at North Platte to-day, Rev. Greenlee officiating.

KIMBALL-This county is overrun now with buyers of real estate. Land has advanced and still going up. Good crops pre-vail generally all over the county.

KIMBALL-Kimball county voted "yes" on a proposition for a county high school Tuesday, by a majority of 86. Bonds will be voted on shortly and they will carry. SUTHERLAND—The little Maim child, which was burned by a gasoline explosion, has been in a serious condition for several days as a result of, its experience, but it is now hoped that the child will recover. NORTH PLATTE-The North Platte Normai and Commercial college closed this week. The president, Horace F. Carson, was compelled to discontinue it because of the high price required for board in this city, which practically prevented any considerable number of outside students from attending.

Attending.

KIMBALL—Only two candidates for county office were on the primary ballot.

E. W. Bartholomew for sheriff and F. C. Overton for clerk, both republicans, and they have named no central committee nor delegate to the platform convention as yet. Very little interest was taken in the primary election. Most of the candidates will go on the ballot by petition.

NORTH PLATTE-E. O. Fuller, who for NORTH PLATTE B. O. Fuller, who for more than two years was clerk to the register and receiver of the United States land office here, in the civil service, has been reinstated and has been returned to the office here to assume his former position at an increased salary. decided to again enter the service.

KIMBALL-Kimball is doing a lot of building. August Linn is adding an addition to his hardware store and laying coment walks. F. M. Whitman is preparing to build a large addition to his hotel. Several residences will so up shortly. The county high school will be located here, and the town is moving along at a gait that bids fair to make it a city of considerable importance.

Robison, from his acres of ground on his ranch just north of town, cut the heads of wheat grass and threshed more than 1,000 pounds of seed, which he sold direct to the government for \$15. He then cut the remaining grass and found that he had ten tons of choice hay worth \$5 per top. His five acres made just \$155. This is irrigated land, but very little water has been taken from the ditches this year.

ROGERS—Friday night thieves broke into Newlon Brothers atore. Three pairs of shoes, some pants and a few cigars were taken. The parties had evidently been in the store before, as they seemed to know just where and how to get things. The United States postoffice is also in the store and it is thought that some stamps may have been taken, although nothing is certain at this time. A gold watch lying in the cigar case was not taken.

MIMBALL—The most anique sign in this

cigar case was not taken.

KIMBALL—The most anique sign in this or any other state is that of the Western Colorade Observer, published by R. D. Wilson. He has placed an old Washington hand pross, which was displaced by a modern cylinder press last spring, on the sidewalk in front of the office and will paint a sign thereon. This old press has done duty here for more than two decades and is still in running order, but was too slow for the progressive ideas of Editor Wilson.

Notes of the Game.

Anderson made two of the four hits made off Bills. Graham made two hits in four times up in the two games. Spellman had thirteen chances at first in the opening game and took them all.

Both games were put through in fast ime, as the Omaha pitchers worked fast. Bills has all sorts of curves, as well as change of speed, which kept them all

Bills made two hits in the first game, but could not hit the southpaw, Bunnell, in the second. The grandstand and bleachers were filled and an overflow crowd lined the field and filled the clubhouse porches.

Gould Dietz offered \$50 to the player who would hit his auto with a batted ball and offered to pay the expenses of repairing it. The machine stood in right field.

Ragan did not pitch as though he wanted the clubmen to hit the ball and one of the two hits scored against him was a grounder past McNeeley, which Mac should have captured.

FOOT BALL AT DES MOINES BEGINS

This Week Will Mark Real Opening

of Sport on Gridiron. DES MOINES, Sept. 22.—(Special.)—College foot ball in Iowa opens the coming week. There was a game or two Saturday, but the real thing starts this week. When a number of games will be played. Information from Grinnell is that Iswa college has the strongest team for many years and a team that bids fair to prove one of the strongest in the west this year. From tackle to tackle the college has enough men for two teams, and while the candidates for the other positions are not so numerous, the men who are in the field for the other positions are all men of experience.

tomerrow. "Big" Turner will play full-back and Bleamaster and Flannagan the halves and McCarthy one of the ends.

Simpson will have a foot ball team, but not for intercollegiate work. The coming of Ralph Post and a new college rule that requires some kind of athletic work from every student has resulted in a small army voluntsering for the foot ball team, more than in the days when Simpson had a team for intercollegiate work. Post is the new athletic director.

Will be here from Washington as a reprince of the Interior department to su perintend the work of the registration and drawing.

Rattleanake Bite Fatal. PIERRE, S. D., Sept. 22 .- (Special Telegram.)-Herman Smackers, a homesteader near Hayes, died yesterday from the effects of a rattlesnake bite. Medical attention did not appear to help him. His dog was bitten by a snake about a year ago and afterward bit the hand of his owner, and the bite never healed and it is thought the poison from that blte affected him to such an extent that the bite of the snake

was fatal.

MILWAUKEE, WIR., Sept. 21-L. : Pettit of Milwaukee was yesterday ejecto a director of the Chicago, Milwaukee . St. Paul Railway company at the forty third annual meeting in place of Josep Milbank of New York, who retired. M: Pettit is president of the Wisconsin Na tional bank of this city. Three othe directors were re-elected, as follows J. Ogden Armour of Chicago, Frederick Layton of Milwaukee and Percy Rocke feller of New York, the latter having succeeded Samuel Spencer. The number of shares represented was f51,000 out of a total of 1,300,000. The directors ro elected all of the old officers.

President A. J. Earling said there was no official action taken relative to the matter of an oriental steamship line to he operated in connection with the system's Pacific coast line. "We expect to complete our line to the coast and th western terminals by the middle of 1909." said President Earling. "The line wil be operated so far as Butte by February of next year. There are already small sections of it in operation in a local way and as fast as they are connected the operation of the line as a whole will be

ommenced. "I do not think present financial conditions are such that new enterprises are practicable. If the Milwaukee road had not financed its transcontinental line before this, we would find it impossible to build it. The attacks upon corporations have made capital limited, and today no one can obtain a hearing who wishes to launch a new enterprise. Al expenditures are being restricted as a result and the money market is extremely tight. I do not look for a serious panic but I do believe the stringency will con-
