OUARTERS FOR THE CRIPPLES

New Building at the Christian Home is Formally Opened.

MANY ATTEND THE RECEPTION

Structure, with Its Furnishings, Represents an Expenditure of Thirty Thousand Dollars and is Finest in the Group.

The public opening yesterday of the new boys' dormitory building at the Christian Home attracted a large crowd of friends of the institution and citizens, both in the afternoon and evening. Manager H. R. Lemen was the recipient of congratulations and compliments from the hundreds who visited and inspected the magnificent new building, the largest and handsomest of the recent modern structures erected at the institution.

The new building, constructed of pressed brick with stone facings, is located at the southwest corner of Avenue E and Seventh street, facing east. It is two stories and basement, 65x12s feet, and with its furnish-

ings cost \$30,000, The first floor will be occupied by the orippled children, the girls in the south wing and the boys in the north end. The girls' department has a capacity for twenty and is now fitted for twelve, who will im mediately occupy it. The department for crippled boys, which is exactly similar to that for the afflicted girls, is designed to modate a like number. Between the two departments are the rooms of the two matrons. In a wing on the west side on the first floor are the dining room and kitchen.

On the second floor is a dormitory 25x125 feet in dimension, fitted for seventy boys; the gymnasium, 25x52 feet, with a ceiling twenty-four feet high in the center, with the accompanying bath rooms. In each end of the dormitory are reading rooms. The tollet and bath rooms are tiled and all the fittings are of the latest design.

The wood work is finished in "mission effect. The building is supplied throughout with gas and electric lights and in the basement is a laundry equipped with all modern facilities.

This makes the third large, modern brick and stone building erected at the Christian Home within the last few years. The other two are the girls' dormitory, which contains the general dining room, and the dermitory building for small boys and infants. The total value of the Christian Home property, which comprises three city John Harrison was arrested yesterday on an information filed in the court of Justice Cooper by T. Maximum Penalty for Offense

Twenty Years' Imprisonment. A verdict of guilty as charged was returned last evening by the district court grand jury in the case of Roy W. Stevens, the linetype machinist, charged with atshortly before 5 o'clock and the verdict was returned at 8 o'clock, after an adjournment for supper. The maximum penalty for the crime of which Stevens stands convicted is twenty years in the penitentiary. There is another indictment hanging over Stevens, on the charge of "enticing away" Alma Dohse, aged 10 years. It is doubtful,

however, if he will be tried on this charge Stevens went on the stand himself in the morning and testified that he drank so noon and evening of June 17 that he lost sault with intent to commit great bodily all memory until he turned up at the Ogden hotel late that night. From there he said he went to the city jail and told Jailer Sloan that he was drunk and had fallen into Indian creek. Sloan advised him to go home and to bed, which Stevens said he did. A few hours later he was arrested at

his room by Detective Weir. The state introduced two witnesses in rebuttal to show that Stevens was not as badly intoxicated on the night in question as he claimed.
