

The Low Instep
Often a foot correctly proportioned in other respects has an instep below the usual height. The ordinary shoe, even if it chances to fit other parts, is loose here, unsightly and far from comfortable. A Crossett with a low cut instep will solve this trouble—try it this time.

Express Rate Case Postponed

A continuance of the state injunction suits against the express companies doing business in Nebraska was secured by three railroad attorneys at the hands of the state supreme court this afternoon, on a showing that the regular lawyers for the express corporations could not be present. The cases were called for this court April 10 on the application of the attorneys for the railroads. The state supreme court was asked for a writ of injunction to prevent the companies from violating the Sibley law, which reduces rates 25 per cent.

Murder Committed Years Ago

For a murder alleged to have been committed in 1887, Thomas Taylor, alias Steve Taylor, will be taken back to Marysville, Kan., for trial. He is charged with killing Charles B. Batterson with an iron bar. He fled and was not captured or identified until his arrest in Dundey county. He was identified by Green Allen, who was in jail when Taylor was held for burglary.

Aldrich Sent With Friends

State Senator C. H. Aldrich of David City was in Lincoln today enroute for an invasion of "the enemy's country." The "enemy" is Congressman E. H. Hinshaw, whose seat Aldrich is after. The David City man was going to Fairbury, the home of his opponent, to take counsel with political friends, after which he will visit Hebron, another Hinshaw stronghold, on a similar errand. This is the first trip Aldrich has made to the southern part of the Fourth district, and he will put in the rest of the day there, rounding up Jefferson and Taylor counties, with a side trip to Beatrice and Wynote.

Palmyra Man Ill with Rabies

NEBRASKA CITY, Neb., March 31.—(Special)—Dr. W. J. Cameron, a physician at Palmyra, had a fine stallion running in a pasture near his home and noticing that he was acting queer and continued to bite himself had the horse secluded and gave him a hyperdermic injection so that he could not bite himself and then sent for a veterinarian. The horse continued to grow worse and finally had to be shot. The physician took home the syringe and laid it upon his desk, intending to clean it, but his attention was called to something else, and a few days later the syringe was cleaning his desk, when he ran the needle point of the hyperdermic syringe into his finger and broke it off. He at once ripped open the finger and applied carbolic acid to cleanse the wound, but that night he awoke feeling rather queer, and getting up drove to Lincoln, and took the first train for Chicago, where he entered a hospital. Last evening a message was received from him stating that rabies had developed, but that the physicians had hopes of saving him because of his precaution in treating the wound at the time of the accident.

CURE BY CUTICURA AT CITY MISSOURI

Young Woman Found in Awful Condition with Scabies—Body a Mass of Sores from Scratching—Tried Many Remedies for Seven Weeks—Result was Discouraging, But ITCHED TORTURES YIELDED TO CUTICURA

"While I was doing missionary work in the lower portion of several cities I found it necessary to know a little of the efficacy of a few medicines and after while I found that a little knowledge of Cuticura was about all I needed. One of the very bad cases I had to deal with was that of a young woman who had come to us not only broken in spirit but in a most awful condition physically. Her doctor examined her and she had a very large quantity of scabies, incipient paresis, rheumatism, etc., brought on from exposure and the effects of best ragged diet. Her poor body was a mass of sores from scratching and she was not able to retain solid food. We tried many things, a good tonic was prescribed and baths with a rubbing of lard and sulphur. We worked hard for seven weeks and you can think we were a good deal discouraged when, after all that time, we could see no little improvement. One day I happened to see a Cuticura advertisement and I bought a box of Cuticura. I used it as directed and after a few days I was cured of a bad case of skin eruption, and although I had but ninety-seven cents left, I had a new skin and a new life. I located the price of a box of Cuticura and I was not exaggerating when I say that I had a new life.
