With a debt of \$1,095 staring them in the face the future of the club seemed dubious, but the members showed such enthusiasm that the committee which was appointed worked laboriously with the tangle until order was restored from chaos and the club

order was restored from chaos and the club starts the new year on a firm basis and out of debt. This was accomplished by a subscription list instead of an assessment as was at first contemplated.

The officers are John A. Scott, president; W. S. Sheldon, vice president; A. P. Whitmore, treasurer and Al F. Bloom, secretary. The board of directors consists of F. L. Goodrich, E. O. Furen, T. H. Weirich, W. A. Jones, Dr. J. B. Fickes, O. F. Drefold and J. J. Davey.

An effort was made by a number of the members to change the name of the club

Drefold and J. J. Davey.

An effort was made by a number of the members to change the name of the club from the Omaha Rod and Gun club to that of the Lake Nakomas club, but they were outvoted and the name remains the same. The committee which had taken up the matter with the street railway company of securing an extension of the cas line to the club grounds was able to report favorably. R. A. Leussier, secretary of the company, assured the members that if no franchise obstacle was found to interfere the line would be extended as soon as possible.

The fishing season starts in Nebraska Wednesday and a report was made that W. J. O'Brien, fish commissioner of Nebraska, had promised to bring up about 250,000 fish this spring. It was also stated that Crystal lake, near Sloux City was going dry and that Lake Nakomas was billed to receive a good share of the fish, which would be taken from that lake.

The new bylaws, adopted in part by the Board of Directors, provided that all dues must be paid before May 1. It is also provided that a house secretary be employed to look after the affairs of the club at all times.

The number of members in good standing at all times. The number of members in good standing

was reported to be 452. A junior member-ship was provided for in the bylaws.

Beell took the first fall in sixteen minutes with a hammer lock and half nelson, and the second in five minutes, when he got Parr in the grip of his famous head lock. About 550 were present. Emil Klank of Omaha undertook to throw Frank Ducray of Lincoln in fifteen minutes. He failed, but thought so well of the Lincoln youth that he challenged him to a match in Lincoln. This will be pulled off April 8.

Market Hunters at Lake Andes.

SIOUX FALLS, S. D., March 31.—(Special.)—In the heilef that professional market hunters have commenced operations at Lake Andes. Charles Mix county, the game warden of that county and the true sportsmen of that part of the state who do not want the law violated are maintaining the utmost vigilance in the hope that the professional hunters who are supposed to have appeared at the lake may be caught and made to suffer the full penalty of the law. It is claimed that professional market hunters follow the spring flight of fowl from Canada to the guif, each hunter in a single season killing and shipping thousands of the fowl. With them hunting is not a sport, but a business. It is known that some of the strangers who now are hunting wild geese and ducks at Lake Andes came from New Orleans, and for this reason it is believed they are the market hunters, who are doing more than all the true sportsmen combined to ultimately annihilate all wild fowl. In the event the sportsmen and game warden of Charles Mix county can secure the necessary evidence against the professional market hunters who are believed to be carrying on their unscrupulous operations at Lake Andes, the hunters will be made defendants in state cases, and the United States authorities of South Dakota may also be asked to prosecute them under the provisions of the Lacey act, better known as the national game law. "All the way from \$35 to \$39 per month but you don't want to go to the country to work." was the encouragement the agent gave the reporter, who asked the conditions in the country.

Rain inter-fered considerably with the practice of the team Monday, but the men were out never-theless and again Tuesday they put in some hard licks in the forenoon and went at it again in the afternoon. ABOUT ADVERTISING-NO. 4.

# The Man Who Retreats **Before His Defeat!**

By HERBERT KAUFMAN.

Advertising isn't magic. There is no elment of the black art about it. In it's best and highest form it is plain talk, sane talk-selling talk. Its results are in proportion to the merit of the subject advertised and the ability with which the advertising

There are two great enemies to advertising profit, and both of them are caused by ignorance of the real functions and workings of publicity.

The one is to advertise promises which will not be fulfilled, because all that advertising can do when it accomplishes most, is to influence the reader of your copy to investigate your claims.

If you draw men and women to your store on pretense and fail to make good, advertising will have harmed you because it has only drawn attention to the fact that you are to be avoided.

If you promise the earth and deliver the moon advertising

It is unjust to charge advertising with failure under these conditions as it would be for your neighbor to rob a bank and find yourself indicted for his misdeed. In brief, advertised dis-

honesty is even more profitless than unexploited deception. The other great error in advertising is to expect more out of

advertising than there is in it. Advertising is seed which a merchant plants in the confidence of the community. He must allow time for it to grow. Every succesful advertiser has to be patient. The time that it takes to arrive at results rests entirely with the ability and determination you display in the effort. But you cannot turn back when you have traveled half way and declare that the path

You can't advertise for a week and because your store isn't erowded say it hasn't paid you. It takes a certain period to Honey and Tar for coughs, colds and lung attract the attention of readers. Everybody doesn't see what you print the first time it appears. More will notice your copy the second day, a great many more at the end of a month.

You cannot expect to win the confidence of the community to the same degree that other men have obtained it without taking pretty much the same length of time that they did. But you can cut short the period between your introduction to your readers and his introduction to your counters by spending more effort Boe Want Ad Pages you get quick returns in preparing your copy and displaying a greater amount of con-

You mustn't act like the little girl who planted a garden and came out the next day expecting to find it full bloom. Her father had to explain to her that plants required roots and that, although she could not see what was going on, the seeds were doing their most important work just before the flowers showed above

So advertising is doing its most important work before the big results eventuate, and to abandon the money which has been Joe Cantillon is gind that all the other teams beside Washington are going to win the American league pennant, because that will enable him to lead the second division. It would be just as logical for a farmer to abandon his fields will enable him to lead the second division.
