

Our Loaning Rate

Is the lowest of any association of our kind in Omaha, and our dividend rate is as high as any.

Borrowers of this association pay \$1.10 per month per \$100 borrowed, of which 60c is interest and 50c dues (principal). More than this may be paid if the borrower so chooses, thus shortening the time his loan will run.

\$100 of principal may be repaid any day and interest stopped at once on the amount so repaid.

We have money to loan and invite home buyers or others desiring to borrow money on improved real estate as security, to call and consult us.

This is the largest and strongest association of its kind in the state, with Resources of \$2,800,000, and a Reserve and Undivided Profit Account of \$83,000. Our dividend rate is 5 per cent per annum.

Grand Opening Oriental Rugs

We take pleasure in announcing the grand opening of our permanent Oriental Rug Store, and cordially invite the people of Omaha and country surrounding to grant us a visit, which we assure will be most interesting and of an appreciative character for the lovers of things artistic.

Our Oriental Rugs are collected by us personally, consisting of thousands of rare antique Persian textiles—throughout the Orient. They are worth your inspection.

N. V. SIMONIAN

1609 1/2 Farnam Street, Between Sixteenth and Seventeenth.

to visit San Juan or Havana or both on his way back to the United States. The present expectation is that the secretary will return to this country possibly as early as May 20 and may land at Pensacola, Fla.

PROCEEDINGS OF THE SENATE

Day is Spent Discussing Agricultural Bill.

WASHINGTON, April 30.—The senate had under consideration all of today the agricultural appropriation bill. Practically all of the committee amendments were disposed of, except those relating to the forest reserves, which will be taken up tomorrow.

PROCEEDINGS OF THE HOUSE

Appropriation for Examination of Railroad Books is Increased.

WASHINGTON, April 30.—Consideration of the sundry civil appropriation bill was resumed today. Mr. Townsend (Mich.) offered an amendment increasing from \$50,000 to \$55,000 the appropriation for the enforcement by the Interstate Commerce commission of that clause of the

Hepburn act directing the commission to cause to be made examinations of the accounts of the interstate railroads of the country to determine whether that law is being violated and to make public the results of such examinations. After a debate lasting four hours the amendment was agreed to.

More News from the New England States.

If anyone has any doubt as to the virtue of Foley's Kidney Cure they need only refer to Mr. Alvin H. Stimpson of Willimantic, Conn., who, after almost losing hope of recovery on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. He is now entirely well and free from all the suffering incident to acute kidney trouble. All druggists.

Walking boot?
Or oxford tie?
Some need low shoes,
Some need high!

Our children's shoes for summer wear have a distinctive quality that gains instant attention. The particular buyer will admire the correct style, the careful workmanship and quality of leather. Our stock is now complete with oxfords and high shoes in all new leathers.

POWER DEPENDS UPON TREES

Vast Amount Already Developed Along Appalachian System.

GREATER AMOUNT IS WASTED

Official Report at Washington Deconstruction of Forests Causes Floods Responsible for Annual Loss.

WASHINGTON, April 30.—The greatest development of water power that has ever taken place in the United States has been accomplished during the past few years on the rivers which drain the southern Appalachian mountains, according to an official report on the water resources of this region, it is estimated that there are at least 2,000,000 horsepower developed by the streams which have their head waters on this water shed and more than half of this indicated power is available for economic development.

Only a comparatively small part of this has been made use of, but the portion that has been utilized has been one of the most important factors in the recent industrial development of the south.

One great difficulty encountered by the users of water power is the fact that it cannot be depended upon the year round, but must be supplemented for a time each summer by costly fuel power, the streams running too low to be of service.

As the years go on the low water periods are growing longer. This is because the forests at the head waters of the streams are being cut off, it is claimed, that there is melting winter snows and the spring rains pour off the denuded and hardened land in devastating floods, sending down a few weeks far more water than they can use and moreover, reducing the capacity and usefulness of their mill ponds by filling them with hundreds of tons of sand and soil which the floods scour off the unprotected upper slopes.

If indiscriminate cutting of the forests on the crests of the water shed can be stopped there is a possibility, according to a recent report of experts, of increasing the development of water up to anywhere from three to thirty times the 1,400,000 horsepower at present available.

The method proposed to develop the Appalachian river resources to the total of 22,000,000 horsepower is by storage reservoirs, which would catch the surplus waters of the spring and retain them until the summer months when the mills now have to fall back on fuel or close down.

The United States geological survey has kept records of stream flow in the Appalachians for a number of years and recently made a careful study of the possibilities of storage reservoirs in that region. The report has just published their report under the title, "The Relation of the Southern Appalachian Mountains to the Development of Water Power."

The experts of the geological survey, who made the investigation, after picking out reservoir sites and estimating their capacity and the area from which they would receive the run off of streams, the figures given above extremely conservative. Even with only 1,000,000 horsepower, the annual return at 20 per horsepower, per year would amount to \$20,000,000, equal to a gross income of 3 per cent on a capital of about \$666,666,667.

PRESIDENT'S PLAN DISAPPROVED

Only Bare Quorum of Senate Committee Present for Vote.

WASHINGTON, April 30.—The president's suggestion looking to legislation authorizing the government to make a charge for the use of the water of streams for power purposes was today voted down by the senate committee on commerce. The vote was three in favor of the proposition and five against it. There was only a bare quorum of the committee present and the result can scarcely be accepted as a final announcement of the committee's policy on the subject.

WOMING LINES UP FOR TAFT.

CHRYEENNE, Wyo., April 30.—(Special.)—One by one the several counties in the state are lining up for Secretary Taft in his candidacy for president of the United States. The counties that have already selected delegations instructed for the war secretary are: Laramie, Sheridan, Crook, Fremont and Johnson. Among the counties that will undoubtedly send Taft delegations may be mentioned: Carbon, Albany and Sweetwater, making nine counties out of thirteen that will be for the war secretary when the state convention convenes at Lander on May 7 next. The counties of Weston, Natrona, Converse and Uinta, will probably not send instructed delegations, although it is certain they will send delegations that will fall in line for the war secretary.

Brakeman Arrested for Assault.

GRAND ISLAND, Neb., April 30.—(Special.)—Thomas Graham, a brakeman on the Burlington, has been put under arrest by Sheriff Dunkel of this county on the charge of assault with intent to do great bodily injury, for throwing the man Slattery off the freight a few days ago. Slattery, who, with leg cut off and skull fractured, was compelled to crawl through a cornfield to the nearest house for help, is getting along fairly well at the hospital and it is believed he will recover. The accused man states that he did not strike or kick Slattery, but admits that he ordered Slattery off the train and that Slattery got off.

HOT CAMPAIGN IN SOUTH DAKOTA

Both Factions Express Confidence in Winning Out.

SIOUX FALLS, S. D., April 30.—(Special.)—No matter which side carries the primaries, the claims of both the insurgent and stalwart republican partisans are made in good faith there will be about as disappointed a lot of politicians in South Dakota as ever viewed the wreck of their party and their hopes, for both the insurgent republicans and the stalwarts appear absolutely certain of winning a victory in the primaries, which now are only about six weeks in the future.

Between now and that time the state will be stirred as never before, for the present contest, the insurgent republicans, who easily surpasses for bitterness, anything in the history of political campaigns in South Dakota. The campaign of 1886 was a hot one in South Dakota, but the republicans were united and the contest was between them and the fusionists.

The insurgent republicans, who are having won a victory in the March primaries, now are absolutely certain of winning another victory in the June primaries, when a complete congressional and state ticket is to be elected and a candidate for United States senator is to be endorsed. That some of the progressive leaders are over-confident is indicated by the recent public statement of Lieutenant Governor H. C. Snider, one of the chief lieutenants of Governor Crawford, to the effect that the stalwarts, headed by Senator Kittredge, would not carry to exceed five counties in the June primaries. From the disinterested standpoint there is absolutely no doubt that the stalwarts will carry all of the Black Hills counties as a starter, and they also are certain to carry a number of counties east of the river, which are given up for the insurgent republicans.

For a time some of the more enthusiastic progressive republicans entertained the belief that it was possible to carry Minne-

haha county, the home of Senator Kittredge, but all hope of carrying this county against the leader of the stalwart faction now has been abandoned by the progressives. This is due to the result of the recent city election in Sioux Falls, when the insurgents, who backed the candidacy of Mayor Pillsbury for re-election, were routed and W. T. (Billy) Doolittle, a stalwart and a warm personal friend of Senator Kittredge, was elected mayor by a majority of over 500.

The progressives have several counties which each are counting on to give insurgent republicans majorities of not less than 1,000. They are Bon Homme, Turner, Lincoln, and Hutchinson, while a number of other counties in insurgent republican territory, such as Yankton, Clay and Union, are expected to show insurgent majorities of not less than 500 each.

The progressive leaders, men who keep in close touch with conditions in the various counties, confidently count on carrying several counties which in the March primaries were carried by the stalwarts, and on the other hand, the stalwarts declare they will have majorities from every county which had stalwart republican delegates in the Huron convention on April 7, and in addition will capture a number of counties which were reported at the Huron convention by insurgent republican delegates.

HUGHES WILL REMAIN IN RACE

New York Delegation Gives Out Statement for Him.

NEW YORK, April 30.—The name of Governor Charles E. Hughes will not be withdrawn from the presidential canvass until the national convention at Chicago has made its choice of candidates. This statement was made today by General Stewart L. Woodford, president of the Hughes League of the United States, who presided at the meeting of delegates elected to the national convention from New York state at the Hotel Astor today, called in the interest of Governor Hughes' candidacy.

It had been reported that the announcement of the withdrawal of the governor's name as a candidate for the presidency be announced at his meeting, but this was positively denied by General Woodford, who said:

"Any statement from any source that Governor Hughes' name will be withdrawn from the presidential canvass is absolutely without foundation. He has never sought the presidency. There is no living man whose support he has asked. He consented to the use of his name, and his name is at the service of our party until the convention has made its decision. If nominated he will do his best to secure the victory for our party in November. If not nominated he will have no regrets and will remain, as always, a loyal republican. He is today far more interested in securing needed legislation in New York than he is in any possible candidacy for any office."

MAINE ENDORSES THE SECRETARY

Although Delegates Are Not Instructed, They Are for Taft.

PORTLAND, Me., April 30.—Six presidential electors were nominated and four delegates-at-large and four alternates to the republican national convention were chosen at the republican state convention in this city today. The delegates-at-large are: Colonel Thomas P. Shaw of Portland, Edward P. Ricker of Portland, John F. Hill of Augusta and Charles J. Dunn of Orono.

After adopting a set of resolutions in which the administration of President Roosevelt was heartily endorsed and a preference for the nomination of Secretary Taft was expressed, although the delegates were not instructed to vote for him, the convention adjourned.

E. P. Brown of New York, who has been working in this state in the interest of Governor Hughes' candidacy, arrived last night with 106 delegates claimed to be pledged to defeat any attempt to instruct for Taft. Brown said his fight would be for an unqualified endorsement.

Delegates pledged to support Taft were elected by the First district convention here today.

WOMAN SUFFRAGE A REALITY

Great Political Problem at Last Solved by Ezra, the King.

TO THE PEN WITH ALL THE MEN

Parade All the Women and Children and Lock Up Several States and the Trick is Turned.

The problem of woman suffrage has been solved. This great political reform for which lives have been given and fortunes spent is to become a reality immediately. The manner in which the reform has been brought about is the simplest and simplest it is that it seems odd that none ever thought of it before.

Who is the emancipator? every one will ask.

Ezra, the King, is the emancipator. You have never heard of Ezra, the King? Neither had the men until the emancipator's pronouncement was received Thursday.

Ezra writes under date of "United States, Heaven, 55-4-25." The limited mind, of course, cannot grasp the meaning of the cabalistic figures and the king does not explain them. Thomas P. Shaw of Portland, the youngest and simplest it is that it seems odd that none ever thought of it before.

DEATH RECORD.

Wylie Heald, MARSHALLTOWN, Ia., April 30.—(Special.)—Wylie Heald, a former Marshalltown young man who has lived in Omaha during most of the last ten years that he has spent away from his home, died at Mercy hospital, Des Moines, Tuesday afternoon. Death was due to abscess of the brain, resulting from mastoiditis. Three operations were performed to save him but they were of no avail. Mr. Heald, during the past year or two, has been in the employ of the Iowa Telephone company at Des Moines. His wife, who was formerly Miss Josephine Halpin of Omaha, survives him, as does his aged mother, Mrs. Ladorna Heald, of this city. The body will be taken to Omaha for burial.

LET NOT This Seemingly Coolness Discourage You

Old Sol has his trunk checked for Omaha. He will be here soon with General Humidity, Sizzle, etc.

You'll be both comfortable inside and mightily impressive looking outside if you're in a MacCarthy-Wilson Summer Suit this summer.

\$25 to \$35 is about the right price.

HAIL TO PHILADELPHIA SQUAB

Famous European Chef Pronounces This Dish Most Palatable of American Cuisine.

NEW YORK, April 30.—"I find that in America the best food in the world is served," said Mr. Escoffier, the famous European chef, on the eve of his departure for Europe, after a week's stay. "It's good food; it is well cooked. If I were a younger man—I am past 60 now—I would come to New York. The best hotels in Europe have nothing to give that a man cannot get in New York."

"What did you find to be the best American dish?"

"Philadelphia squab. Such squab cannot be had in all Europe or any other place."
