Omaha's High Business Record

Omaha last week again led the country in its increase in bank clearing, counting the cities where the clearings total more than \$10,000,000 a week. Of these cities, fifteen in number, Omaha and Kansas City alone showed increases over the corresponding week of last year. The increase in Omaha was 9.6 per cent, while that in Kansas City was 5.4. All of the other cities showed decreases, although the percentage of decrease is getting smaller with each week. New York for instance, shows a decrease of 10 per cent, whereas the decrease in January was nearly 50 per cent. The other large cities of the east are also showing signs of gradual recovery, the average from January being less than 15 per cent.

Table with columns: CLEARING HOUSES, APRIL, 1908, 1907, FOUR MONTHS, 1908, 1907. Lists cities like Omaha, Milwaukee, St. Paul, etc., with their respective clearing amounts.

This is in keeping with Omaha's record all through the depression, which has been prevailing in other sections of the country since last October. With but rare exceptions, the weekly clearings have shown a persistent increase, furnishing indisputable evidence that business conditions in this section of the country have not been seriously affected by the general depression. This is further illustrated by the report of the clearings from other cities for the four months ending with April. In this list, Omaha is the only city that shows an increase for April, compared with April of last year and the only city to show an increase for the first four months of the year, compared with the same period of 1907. The figures from some of the cities are as follows:
