### NO POWER TO CANCEL STOCK

Attorney General Rules for State Railway Commission.

LINCOLN TRACTION CASE IS UP

Governor Shallenberger Returns from West, but Has Nothing to Say of Extra Session-Medleal Examination.

(From a Staff Correspondent.) LINCOLN, May 13 .- (Special.)-The State Railway commission will, if it follows the opinion of Attorney General Thompson, re-

The cancellation of the stock of a railroad company by the commission is not
an incidental necessity to the general
powers of the commission to properly regulate and control such company. Even in
the exercise of its power to fix rates the
authority to cancel stock is not incidentally
necessary, since it has become a wellestablished proposition "that the basis of
all calculations as to the reasonableness
of rates to be charged by a corporation
maintaining a highway under legislative
sanction must be the fair value of the
property being used by it for the convenience of the public." (Smyth against
Ames, 169 U. S. 464).

L therefore, reach the following con-

I, therefore, reach the following con-en and give the same as my opinion: The since the power of the commission to carel stock issued by a railway company is a judicial and not a legislative or adis a judicial and not a legislative or administrative function, since such power has not been granted to the commission by the constitution nor attempted to be conferred by the legislature, since the general powers of the commission are not distinctively judicial and since the power to cancel stock is not an incidental necessity to the discharge of its general duties, it has no authority to cancel or to order the cancellation of corporate stock of a railway company previously issued. Other reasons supporting the above conclusion might be supporting the above conclusion might be urged, but the foregoing reasons appear to me sufficient.

The fact that this store claims to be the Best Store doesn't make it so any more than it does other stores imitating our claims. Neither does it disprove it.
