Odd Bed Spreads; in satin and Marcellines, worth up to \$6.50— Basement—at, each..... \$3.50

CHOLERA SERUM ON TRIAL

Experiments Will Soon Reveal Efficacy of New Treatment. CONDUCTED AT STOCK YARDS

Shoats inoculated with Disease, Others with Serum and Healthy Animals All Placed in Pen Together.

The efficacy of serum in the treatment of cholera in swine will soon be made known through experiments under way at the Union Stock Yards in South Omaha. These experiments have been brought about through the instrumentality of F. C. Crocker, president of the Nebraska Swine Breeders' association, who, with the faculty of the State School of Agriculture, has been active in trying to interest the growers of the state in making some concerted effort to stamp out cholera in Nebraska.

This practical demonstration is in charge of Dr. Niles of the government experiment station at Ames, Ia. The Stock Yards company provided thirty Chester White shoats, weighing about fifty pounds, from a farm near Omaha. On July 23 four of the shoats were inoculated with the disease producing blood and segregated from the balance of the drove. July 23 symptoms of cholera in these four had become clearly apparent. At this time eighteen of the shoats were treated with the immunizing serum by vaccination on the inner side of the thigh with twenty cubic centimeters of the serum to each animal, hypodermically injected.

Results Will Soon Come. These eighteen animals were then placed in the same pen with the four in which the disease had clearly developed. The remaining eight, without any treatment, were also placed in the pen with the diseased and protected animals to await developments. If the experiment is successful, the four inoculated shoats and nearly all of the unprotected eight will die, while the eighteen animals protected by the vaccination should all survive and be rendered entirely immune. The results of this experiment will naturally be watched with great interest, particularly by extensive swine growers, though it is true a great deal of skepticism exists among the farmers regarding any professed cure for hog cholera because of so many spurious remedies that have been foisted upon them. These serum tests have been very successful, however, where properly conducted, and it will be a great accomplishment for the hog raising industry if at last it shall be possible to completely immunize swine from the cholera scourge which has made that branch of the live stock business such a precarious one in years past.

Our Letter Box

Contributions on Timely Subjects Not Exceeding Two Hundred Words Are Invited From Our Readers.

Mr. Patrick's Letter. SOUTH OMAHA, July 29.—To the Editor of the Bee: Yesterday morning you published an article to the effect that John H. Devine had slapped me across the face at Grand Island, giving the article a prominent place on the front page of your paper under sensational head lines. As soon as my attention was called to it I called your editorial department by phone and was answered by your Mr. Thomas, to whom I stated that the article was false and requested that a retraction or correction be published in your evening edition and that equal prominence be given to the correction. This Mr. Thomas promised should be done. Instead, however, of doing me the justice of correcting an unqualified falsehood which you had published under glaring headlines, you republished the article in your evening edition. Unless a retraction of this falsehood is immediately made and given the same prominence which you gave the first article I shall conclude that it is your deliberate intention to persist in a false and malicious libel of and concerning me and shall take such action as may be found necessary in the premises. Respectfully, WILLIAM R. PATRICK.

BERNSTEIN WILL CONDUCT ANTI-CIGARETTE CAMPAIGN

Probation Officer Declares Evil Has Greatly Increased Among Small Boys.

A campaign against cigarette smoking among small boys will be started by the probation officers because of the alarming increase in the habit during the past few months. A dozen boys ranging in age from 10 to 15 years have been brought into the juvenile court office within a week for smoking on the streets. They have been released with a warning, but repeated offenses will bring them into the Detention home as incorrigibles. "Where they get their material for cigarettes is hard to find out," says officer Bernstein. "In some cases men give them papers and tobacco and we want to warn men that it is a punishable crime and has a penalty of six months in jail or a heavy fine. Giving a boy under 21 materials for a cigarette is guilty of abetting a crime. We shall watch for them. At the next legislature we are going to ask for more stringent laws to aid us in keeping boys from getting the cigarette habit."

DRUMMER'S POCKET PICKED

Missouri Loan Losses Hundred and Forty-Five Dollars on First Business Trip to Omaha. H. H. March, a traveling man from Maryville, Mo., is minus his pocketbook which contained \$15 and a draft for \$130, on his first business trip to Omaha. He arrived in the city last night at 11 o'clock from Spaulding, Neb., and in getting off the street car found that the pocketbook was gone. Whether he lost it or was touched he cannot say. He had it in his hip pocket, his coat was off and the car was crowded, and that was all the information he could give the police to help them locate his vanished property.

OMAHA BANKS PROSPEROUS

Monthly Report of Clearings Shows Good Gain.

Table showing monthly report of clearings for OMAHA BANKS PROSPEROUS. Includes columns for Date, Amount, and Increase over last year.

Nobody is Too Old to learn that the sure way to cure a cough or cold is with Dr. King's New Discovery, 50c and \$1.00. For sale by Beaton Drug Co.

Forty-One Million Dollars for Liquor License Fees

WASHINGTON, July 30.—It requires more than \$40,000,000 in the large cities of the United States to pay license fees. The extent to which the drinking mania help to pay the expenses of the government in the cities is indicated by the census report covering the finances of the country for the year 1908 in the cities having a population of 20,000 or more. There were at that time 16 of such cities, but the complete figures were available for only 12 of them and these figures showed that in those places the licensed drinking places paid in aggregate of \$41,560,188. This is a gain of almost \$3,000,000 over the preceding year and of about \$11,000,000 over the year 1906. The increase was due to the large fees exacted by most of the cities. Of the drinking places sanctioned by law there are no fewer than 67,131, and this is a decrease within three years of about 4,000. The falling off was due largely to the fact that a number of cities went dry. Of the 128 places, twenty-four has become "no license" cities when the census was made. The change was most marked in the south Atlantic states and least in the Rocky Mountain region.

Refusal to Wed Causes Girl to Shoot Herself

Nunzia Scolla Decides to Take Her Life When Her Lover Leaves Her.

Heartbroken over the refusal of her sweetheart to marry her, Nunzia Scolla, 19 years old, shot herself twice inflicting mortal wounds, at her home, 1110 South Eighth street, Saturday afternoon. The dying girl was taken to St. Joseph's hospital and her condition pronounced hopeless. The young woman has been ill three days, in a condition which is thought to have been largely responsible for her desperate act. She mailed \$20 to her mother in Italy in the morning and purchased a revolver for \$5. Upon returning home she immediately attempted to kill herself. One bullet passed through her head and the other through her throat. The young woman has been in America but a short time. She was employed for several months, up to her illness, in the M. E. Smith wholesale dry goods concern. About four months ago a young man whom she is said to have been infatuated with, disappeared from the city.

Messenger Boy Hurt by Auto

Unidentified Youth is Run Over and Toe Bruised, but He Falls to Make Complaint.

A messenger boy on a bicycle collided with an automobile Friday afternoon, breaking up the bicycle and injuring the boy. L. P. Mattson of 327 Broadway, Council Bluffs and M. Wainman of Council Bluffs were arrested and later discharged in police court because no one appeared against them. It appears they were turning around on Dodge street between Fifteenth and Sixteenth street when the messenger-boy came to learn that the sure way to cure a cough or cold is with Dr. King's New Discovery, 50c and \$1.00. For sale by Beaton Drug Co.

TRY FOR INTENSIVE FARMING

Dr. F. K. Cameron of Agricultural Department Investigating.

LOOKS FOR SOME FERTILIZERS Will Try Waste Materials from the Smelters and Phosphate Deposits of the Western States—Western Land Valuable. To investigate the needs of Nebraska farmers in the way of artificial fertilizers Dr. F. K. Cameron, chief chemist of the bureau of soils of the government Department of Agriculture, is making a tour of this part of the country. Dr. Cameron returned from the meeting of the American Chemical Association at San Francisco with Gas Commissioner Crowley. "The department is trying to find out whether or not the people of the west are ready yet to do real intensive farming," said Dr. Cameron. "The land in the west is becoming more valuable than it is in the east and so will have to be better taken care of. That means that fertilizers must be used. I shall investigate the practicality of utilizing waste materials from smelters and the large phosphate deposits in some of the states farther west, such as Idaho and Montana." The stock yards also produce by products which could be used as fertilizers.

Sees Flies in the Soda Water

Councilman Charles M. Davis alleges that persons want soda pop when they buy a bottle labeled that and they emphatically don't—or should not—want flies. The councilman's allegations are made in a complaint against several bottling works of the city, which, he declares, through their carelessness, permit the bottling of flies and impurities as well as soda water in their bottles.

RELIGIOUS SERVICES ON BOARD THE STEAMBOAT

Rev. C. W. Savidge Takes His Congregation for a Ride Up the River.

"The sheep and the goat mingled nicely," said Rev. C. W. Savidge in speaking of the trip which his congregation took up the river Friday evening on the City of Peoria. "The trip was a great success," added Mr. Savidge. "We thought we might have a little trouble with the different people, but all turned out well. Besides our crowd there were about 150 of the regular patrons of the boat who appeared and wanted to dance. I had promised my people there would be no dancing on board. What to do was a problem. It was easy, though, for we let them all on board and took the dancers to the large up the river, gave them the string music and let them dance while we held our religious service on ship board." Another incident happened as the boat was ready to start. A man, under the influence of liquor, appeared and wanted to get on the boat. The boat authorities wanted to put him off, but Mr. Savidge interposed saying, "Let him come. It will do him good to mingle with this nice crowd."

BRANDEIS STORES SPECIAL HAIR GOODS SECOND FLOOR SALE NEW STORE

Strayed Couple Meet in Jail

Mr. and Mrs. N. Munger Become Separated and Pass Night at Police Station.

Separated in the course of a meal at a public restaurant, Mr. and Mrs. N. Munger of Neola, Ia., without each other's knowledge, passed Friday night as guests of the police station, and, upon the mutual discovery of their proximity, were happily reunited Saturday morning. Mrs. Munger came to the station with tears streaming down her face Friday night, and reported she had been deserted by her spouse while the two were having a restaurant meal. The man had departed from the table ostensibly to get a cigar and return immediately, she said, but failed to return. The woman was afforded the hospitality of Matron Gibbons' room for the night. The police sergeant on the morning watch then discovered that an N. Munger was registered on the police blotter as a prisoner charged with intoxication. The two were then reunited.

DOG CATCHERS ARE ACTIVE

Force Up the Revenue to the City From the Tax Levied on Canines.

The city of Omaha is getting rich off the dog owners. During the first seven months of the year, the revenue has been \$16,615, and the greatest amount ever collected before in a year was \$16,000. This is partly due to the raise in the tax upon dogs and partly to the increased vigilance of the dog catchers. C. B. HORTON IS PROMOTED Made Acting Superintendent, to Take the Place of J. C. Nelson, Who Goes to Denver. C. B. Horton has been appointed acting superintendent of the Omaha district of the Western Union Telegraph company, beginning his duties August 1. Mr. Horton succeeds J. C. Nelson, who has been made general superintendent of the company at Denver. Mr. Horton's promotion is from assistant superintendent.

FINED FOR KEEPING A FENCE

Shoemaker Assessed \$25 for Receiving Stolen Goods.

Joseph Sallanito, a cobbler at Tenth and Howard streets, was fined \$25 and costs by Judge Crawford Saturday morning on the charge of buying stolen goods from Mick Pichler, a 15-year-old lad, residing at 1291 Vanneet street. The boy confessed in court that he had at various times stolen wearing apparel from Swensen Bros., where he has been employed for the last year, and that he found Sallanito for it with the shoemaker, with whom, he alleged, there was a mutual agreement not to tell on each other. Judge Crawford stated that he wanted to put a stop to men encouraging young boys in the art of thieving.

FAMOUS RELIGIOUS WORKER DIES AT HOME IN CHICAGO

James L. Houghtening, Founder of the Brotherhood of St. Andrew, Passes Away. James L. Houghtening, a prominent Chicago real estate man who died the other day there, was the founder of the Brotherhood of St. Andrew of the Episcopal church. He founded the order in St. James' Episcopal church there in 1883, and since then it has spread until in almost every church of that faith there are some members doing work for religion in the name of the order. Mr. Houghtening leaves a wife and three sons and three daughters. He was 55 years old at the time of his death. Building Permits. G. W. Shields, 1515 South Thirty-third, frame dwelling, \$4,000; W. O. Jensen, 2904 Manderson, frame dwelling, \$1,600; C. O. Copley, 324 North Twenty-sixth avenue, frame dwelling, \$1,100; Mrs. L. A. Kearney, 2908 South Fifteenth, brick dwelling, \$2,200; Stanley Serpan, 2220 South Fourteenth, frame dwelling, \$1,600.

Eighty-One Men Arrested in Day

Captain Savage and Men Report Big Day's Work—Stamping Out Robberies. Captain Savage and his men had another big day's work to report Friday evening, with a total of eighty-one arrests made. Fifty of the prisoners suffered a charge of vagrancy, and most were given strict orders by Judge Crawford to get out of the city. The wholesale arrests are being accomplished in a campaign to rid the city of the men of the class that turn thieves.
