

Council Bluffs
WHICH MAN TELLS TRUTH
Fred Walters or George Tucker
Author of Fairy Tale.

ONE IN HOSPITAL, OTHER IN JAIL
Walters Stabbed During Encounter
In Which Each One Declares
Other Was Assailant for
Purpose of Robbery.

Fred Walters, 19 years old, whose home
is in Chico, Cal., is lying in Mercy hospital
suffering from a dangerous knife wound in
the left breast, penetrating the lung, about
five inches below the shoulder, and George
Tucker, aged 21 years, of Randsman, N. C.,
is in jail charged with assault with intent
to do great bodily injury.

The young men are harvest hands working
their way northward from the Kansas
harvest fields and have been traveling and
working together for several months. The
cause of the ruction that resulted in the
stabbing as told by each directly contradicts
the other. Both men were lying in
the Northwestern railroad yards about 10
o'clock yesterday morning waiting to catch
a freight train when the trouble occurred.
Tucker had \$7.25 in his pocket and Walters
had \$37.75. Tucker says he was lying on his
face on the ground nearly asleep when
Walters sprang upon him and attempted to
rob him. He says Walters had clutched his
throat and was choking him to death and
that he was struggling for his life when he
struck his assailant in the breast with a
three-inch pocketknife blade.

Walters turns the story around exactly
and says Tucker was trying to rob him
and plunged the knife into him while he
resisted, and that he then seized Tucker
by the throat and would have choked him
to death if Carl Taylor, a switchman, had
not run up and pulled them apart. Taylor held
Tucker until the police ambulance came
and conveyed the wounded man to the hos-
pital and the police took Tucker to jail.
Walters had been drinking and had two
bottles of whisky, but Tucker was sober.
City Physician Tubbs says the wound Wal-
ters sustained is severe, but not fatal unless
complications arise.

Fire Pots Save
Apple Orchard
C. E. Mincer is Only Orchardist in
This Section Who Saved His
Fruit from Frost.

C. E. Mincer of Hamburg, Ia., is the only
man in this part of the Missouri valley
who saved his fruit crop when the wintry
weather returned last April and May and
killed most of the fruit.
Mr. Mincer had more than 1,000 fire pots
going night and day throughout the frosty
weather and maintained a safe tempera-
ture in his orchard while ice was forming
an inch thick in fields and orchards
around him. He had equipped himself with
16,000 gallons of crude oil, deposited it in
an underground reservoir on a hillside and
piped into his orchard so that the fire pots
could be replenished with the least possi-
ble delay. As a result of his foresight and
enterprise he saved more than 80 per
cent of his apple crop, and will have a
crop this year worth more than \$10,000.
The horticultural department of the Iowa
college, working in connection with the
National Horticultural congress, has taken
the deepest interest in this orchard and all
of the knowledge and skill of the college
has been placed at the disposal of Mr.
Mincer. Prof. Lorenz Greene and G. W.
Hansen, of the college, were at Council Bluffs
yesterday on their way to Hamburg for
one of their regular inspections of the only
bearing orchard in western Iowa this year.

LOCAL FIRMS ARE PUZZLED
Get News of Ice Cream Cone Prosecution
When Neither One is
Engaged in Manufacture.

A dispatch from Des Moines yesterday
announced the bringing of an action there
by the state attorney general against a
number of wholesalers and manufacturers
of ice cream cones. Two of the suits are
against Council Bluffs firms, John G.
Woodward company and A. Metzger & Co.
The pure food inspectors and the dairy
commissioners claim they have discovered
that these cones contain borax acid as a
preservative and saccharine as a sweetener,
two chemicals that would keep them in
a state of putrefaction for an indefinite period.
The commissioners announce that vigorous
prosecutions will be begun against all re-
tailers found handling cones that indicate
the presence of either of these preserva-
tives.
No notice of the suit has been received by
the Council Bluffs firms, neither of which
is engaged in the manufacture of any kind
of ice cream cones. All such goods that
have been handled have come into their
possession through regular trade channels,
and neither of them know anything about
the composition of the cones.

Alderman Younkerman has arranged

visited friends at Savannah, Ill., and
thence up the Mississippi river to Du-

has been completed and the members are
now holding regular nighty services at
the Peoria street hall, although the former
meeting will not be held until Tuesday
night. Staff Captain Kiddie of the Indian
tribe and the former band of Omaha will
assist in the work. The band will furnish
the music for the street meetings. The

Frisbee and Mrs. Frisbee are in charge
of the local work.
The funeral of Mrs. Frank Groves, local
base ball scorer and technical reporter,
was painfully injured at the Burlington
street car station where he is employed.
The truck on which was loaded a 1,600-pound
stone became overbalanced and upset,
knocking the scorer to the ground and
badly wrenched his ankle. He will be
laid up for several days and his recovery
will probably be retarded by his excellent
service at the Sunday ball games.

By agreement of the attorneys repre-
senting the Alamo Creamery company of
this city and the city prosecutor's office the
case against the company was yesterday
closed in the court. The company has
agreed to pay the fine and to accept a
suspension of the license to sell milk.
The Alamo's test was over two degrees too
low, according to the report of Milk In-
spector Peter Smith.

The funeral of Mrs. Thomas Galvin took
place yesterday morning at 9 o'clock at
St. Joseph's Catholic church. Solemn
requisite mass was conducted. Rev. Father
McManus, celebrant; Rev. James O'Neil,
deacon; and Rev. Burkholder, subdeacon.
The services were largely attended by
friends and relatives. Interment was in
St. Joseph's cemetery. The pallbearers
were: F. M. Egan, C. F. Paschel, J. F.
Mulliken, Dr. F. T. Seibert, George F.
Husick and H. L. Tinley.

Council Bluffs
Mrs. Grace Evans
Sues for Divorce
Petition Filed Against Wealthy Man
Alleging Rather Peculiar Con-
dition of "Servitude."

F. A. Farr, a Sioux City lawyer, accom-
panied by a handsome, dark eyed and
well attired young woman, appeared at
the office of George S. Wright of the law
firm of Wright & Baldwin yesterday and
secured his acknowledgment of the
woman's signature to a divorce petition,
which was later filed in the office of the
clerk of the district court.

In the suit Grace M. Evans is the plain-
tiff and H. A. Evans is named defendant.
The petition does not state where they
were married or where the present resi-
dence of either is located, but early in
the stream of legal verbiage the allegation
is made that Mr. Evans is worth \$25,000
and that Mrs. Evans demands \$8,000 of this
as permanent alimony. City and county di-
rectors fail to disclose a corresponding
name, but the presumption is that the de-
fendant must be a resident of this county
or otherwise the court would not have
jurisdiction.

Mrs. Evans alleges cruel and inhuman
treatment, and specifies among other
things that Mr. Evans required her to "re-
side in an unprepared portion of a
village where a large number of criminals
would congregate" and would then stay
away from that environment himself each
night, often until late in the morning.
Other instances mentioned concern times
when she was sick at home or in a hos-
pital and he was away enjoying days.

RED OAK, Ia., Aug. 6.—(Special Tele-
gram.)—The Council Bluffs team, Lou
and Herb, in the straightaway defeated the rest
of the contestants yesterday, and are
as a result still the champion fire team
of the world. Their time was 1:01, two-
fifths of a second faster than that of their
nearest rivals, Clinton and Des Moines. Red
Oak, West Liberty and Holstein were the
winners in the volunteer entries. Fast
time was made and the crowd, though not
as large as on the preceding days, was ex-
cellent. The meet closed with Red Oak
winning the leaders' race gold medal for
the second time. Most of the firemen went
home tonight.

a new world's record in 0:45.
In the hitching contest Council Bluffs
won fourth place. Sioux City's first team
was first in 0:24, the same department's
second team taking second place in 0:10.
Des Moines third in 0:10, and Council
Bluffs fourth in 0:11. In the free-for-all
race the previous day Council Bluffs was
third, winning \$100, and \$100 was won yester-
day.

A painful accident happened in the
straightaway yesterday afternoon. Driver
Ed Groves of the Des Moines team sus-
tained a broken leg when he jumped or
was thrown from the wagon after the
horses ran away with the harness but half
hitched to the wagon. Weaver, one of the
other firemen in the wagon, climbed to the
driver's seat and endeavored to stop them.
After going half a mile one of the horses
fell, liberating the other from the harness.
The driver was badly bruised in addition
to sustaining a broken leg.

Seven hundred and fifty firemen and their
delegations took part in the parade Wednes-
day morning, and in this event, Atlantic,
with eighty-one men in line, took first prize
of \$100 and Villisca came second with fifty-
five men, and took the \$50 purse. For the
best appearing company, Villisca took first
money, \$50, and Atlantic second, \$25. For
the best appearing auto, William Thomas
won first prize, and for best pony float,
Miss Edith Armstrong won first.

SOLDIER RIVER APPRAISEMENTS
Supervisors of Harrison County Ap-
pointed Men to Assess Damages.
LOGAN, Ia., Aug. 6.—(Special.)—The
supervisor of Harrison county has ap-
pointed Engineer J. C. McCabe, Frank
McEwing and A. H. Vanocoy as commis-
sioners to appraise the benefits and dam-
ages of the Soldier river drainage district.

The Soldier river drainage district has
a territory of about 20,000 acres. The plan
proposed by Engineer Wasties of Missouri
Valley and approved by the supervisors is
for the complete deflection of the entire
volume of water of the stream through a
channel which has its beginning in the hills
of Jackson township and after running six
and a tenth miles to the south-west its
termination is the Missouri river.

The new channel for the Soldier river,
with lateral ditches, will cost the land-
owners, according to estimates of Engineer
Wasties, \$100,000 when finally completed.
Through the Soldier river has filled its
channel in many reaches on the Missouri
bottoms and has flooded hundreds of acres
of valuable farm lands annually and
through carefully planned engineering
projects have been proposed from time to
time in the last six years, yet objectors
would defeat the drainage project in the
courts. They made a desperate effort to
do so with the present plan, but failed to
win out by litigation.

COLFAX, Ia., Aug. 6.—(Special.)—The
Iowa Epworth league assembly and sum-
mer institute opened a ten days' encamp-
ment here Thursday. This is the fifteenth
annual meeting held in Colfax. Perhaps no
finer piece of ground could be found in the
state for assembly purposes than Epworth
park, which contains twenty-five acres of
beautiful woodland, fine scenery and equip-
ped with everything for comfort and pleasure
of the campers and visitors. The
grounds are covered with tents. An excel-
lent program is arranged. Some of the
greatest lectures and entertainers on the
American platform will be here during the
assembly. Round table orchestra, ap-
peared at the opening session. On August
5 Hon. W. J. Bryan will deliver his new lec-
ture, "The Price of a Soul."

MAY ENLARGE CHANNEL.
LOGAN, Ia., Aug. 6.—(Special.)—Engineer
J. S. Wasties of Missouri Valley, assisted
by Engineer Frank Young of Logan, is now
at work on the examination of the Lower
Boyer river with a view to enlarging the
channel capacity of the Lower Boyer more
fully to accommodate the flood waters of
the stream and tributaries of the Upper
Boyer. Since the channel of the Lower
Boyer was planned and constructed the
Upper Boyer river has been straightened,
or is in process of being straightened,
through Harrison county, and in addition

eighteen miles of ditch is to be constructed
in straightening the stream in Crawford
county, according to the plans approved by
the supervisors, all of which makes the en-
larging of the Lower Boyer river channel
an imperative necessity.

IOWA NEWS NOTES.
MASON CITY.—Mason City consolidated
board Friday received the appointment of
regimental band for the fifty-sixth reg-
iment, Iowa National guard, succeeding the
Iowa band.

MARSHALLTOWN.—Judge C. B. Brad-
shaw, the present incumbent of Toledo,
was nominated for re-election to the bench
of the Seventeenth judicial district at the
district democratic convention held here
Friday.

NEVADA.—Charles Smith of Des Moines,
who is employed to operate a traction en-
gine, was probably fatally injured today
when he was caught and crushed between
the rear of the engine and the front end
of a separator.

NEW HARTFORD.—Three barns were
burned, thirteen head of horses were de-
stroyed and large quantities of hay and
straw were consumed in three fires here
Thursday night caused by lightning.
The total loss is \$75,000, partly insured.

IDA GROVE.—The Iowa Epworth league
and summer institute of Caughy brothers,
southwest of Ida Grove, in Garfield town-
ship, was struck by lightning and burned
to the ground. It was one of the largest
and best barns in the county and was in-
sured for \$60 in the Blaine Center Mutu-
al. The loss will be several times that.

IDA GROVE.—Thursday night when, as
is alleged, Gus Mauch, a prominent Ida
county farmer, started to abuse his wife
his 18-year-old son, William, seized a chair
and, coming to the rescue of his mother,
threw his father with it. Friday upon
information sworn out by the mother in
the court of Justice of the Peace Branham,
the father was put under \$500 bonds to keep
the peace.

MARSHALLTOWN.—When seized with an
acute attack of insanity Mrs. Manie
Doane, wife of Joseph P. Doane,
Anthony farmer, attempted to murder her
daughter. She was taken to the hospital
after being captured it was necessary to
strap her to a cot until the commissioners
could order her committed to the hospital
for the insane at Independence.

IDA GROVE.—Having evidently become
frustrated with the idea that the new In-
dian type machine would eventually beat him
out of his job, the foreman of the Ida
County Pioneer accumulated a big drunk
while the owner, Frank F. Clarkson was
out of town, tried to wreck the machine
with a hammer, took \$100 in change
from the cash drawer and skipped. He
swung three terrific blows into the vitals
of the machine and tried to wreck the
casting block, after which he put three
more blows into the assembly wires.
Temporary repairs enabled the Pioneer to
issue on time and new parts for the ma-
chine arrived from Chicago today.

POLITICAL ADVERTISING. POLITICAL ADVERTISING. POLITICAL ADVERTISING. POLITICAL ADVERTISING. POLITICAL ADVERTISING. POLITICAL ADVERTISING.

In announcing my candidacy for the republican nomination
for governor, I wish to make a brief statement of my attitude re-
lative to matters of most public concern.

Clean Government Paramount
While it is inevitable that new questions of pressing im-
portance will arise from year to year, the issue of clean and
prudent government I deem always to be paramount. Simply because
I was the zealous advocate of an issue of passing importance
would not entitle me to public confidence. It is not alone what I
stand for today, but what has been my attitude in the past that
should be the real measure of my value as a public servant.

Record in Public Life
I have been a resident of Nebraska nearly thirty-four years,
part of that time engaged in newspaper work and the remainder
in commercial pursuits. My office-holding record is confined to
two terms in the legislature—in the house in 1889 and the senate
in 1905. In the session of 1889 I was fortunate in being permitted
to aid in accomplishing the defeat and downfall of the best organ-
ized and most corrupt lobby with which the state was ever in-
fested. I also prepared legislation that prevented exploitation
of the state saline lands. I prepared and introduced the bill pro-
viding for the submission of an amendment to the constitution

creating an elective railway commission, which passed in the
session of 1905. The adoption of this amendment, together with the
legislation enacted to give it effect, have worked a beneficent
reform felt in every department of our state government. I ad-
vocated and voted for an anti-pass bill in the same session. Though
not a member when passed, I advocated the primary law, believing
then and now that it is desirable not alone to bring the govern-
ment near to the people, but what is of greater importance, to
awaken in the individual voter a keener sense of the responsi-
bilities of citizenship. While the law may not have realized in
full the anticipations of its most zealous advocates, yet I confi-
dently believe that it is destined to be a tower of strength to good
government.

Politics Subordinate to Efficiency
I have always affiliated with the republican party, whose
candidate I now aspire to be, but I firmly believe that the high-
est partisan service is rendered by an honest effort to demon-
strate that the party with which one affiliates is the best medium
through which to attain good government. I do not believe in
making the public institutions havens for indigent politicians, or
auxiliaries of a political machine, but that they should be con-
ducted on strictly prudent business lines, always with a view to
the welfare of the inmates.

Position on Liquor Question
Personally I have never believed the adoption of county
option necessary to control the liquor traffic. The enactment of

this law, however, is purely a legislative function, with which
the executive has nothing to do until presented to him for his
approval or disapproval. If the people through their represen-
tatives demanded this legislation, I should deem it my duty, if
governor, to approve. I do not construe the power of veto vested
in the chief executive to be a personal asset, but a discretionary
power necessary to vest in some one, to meet the requirements of
grave emergencies and possible invasions of the constitution.
To threaten in advance of its enactment the veto of this legisla-
tion might consistently be supplemented by the threat to invoke
the pardoning power in behalf of every violator of the law, should
the veto be disregarded.

For Taft-Roosevelt Policies
I believe that President Taft is in full sympathy with the
policies of Mr. Roosevelt, and that his administration will merit
and receive general commendation. There has been no wiser
legislation in recent years than that creating a tariff commission,
giving assurance that future legislation will be based on a more
impartial, scientific and less sectional and partisan basis.
With this purely personal statement, I submit my candi-
dacy. Should the people see fit to nominate and elect me gover-
nor, I will devote to their service whatever of experience and
ability I may possess, animated by the sincere desire to admin-
ister their affairs in a dignified, economical and business-like
manner.
