PITCHED BATTLE IN TEHERAN Fight Between Troops and Nationalists Lasts All Afternoon. RAPID FIRE GUNS ARE USED Thirty Insurgents and Twelve Soldiers Killed—Insurgent Position and 300 Prisoners Captured in Final Assault. TEHERAN, Aug. 2.—Casualties in yesterday's battle in the city street between the government and the Nationalist insurgents were about equal, killed and wounded on the government side. The Nationalists, who were fighting under the leadership of Satar Khan, made famous by his long defense of the city of Tabriz against the forces of the deposed shah, lost thirty killed and wounded. Three hundred of their number were captured in the final assault, which was made after their position in the northern part of the city had been under fire from infantry and rapid fire guns during the entire afternoon yesterday. Satar Khan, the principal subordinate to Bakr Khan, was among the prisoners and Satar Khan was wounded.

American Boat Wins Gold Cup Schooner Westward Five Miles Ahead of Nearest Competitor in Race Off Ryde. COWLES, Isle of Wight, Aug. 2.—The American schooner Westward, owned by A. S. Cochran of New York, easily won the International Gold Cup, sailed off Ryde today. Its nearest competitor, the Germania, owned by Lieutenant Krupp Von Bohlen Und Halbach, was five miles astern when the winner crossed the finish line. Emperor William's yacht Lipton's Shamrock, disregarding the accident of Saturday, when the Shamrock, with the king on board, lost its top mast in the stiff breeze. The Shamrock is again meeting its rival of former seasons, the White Heather, in the race for the Commodore's cup, having repaired the damage. A. S. Cochran's American schooner, Westward, which did not start in the race last week, sailing under the handicap system, entered again today in the race for the gold cup, which is sailed under the handicap system. The Westward and Germania allow the Westward six minutes and forty-eight seconds in the forty-mile course. These three yachts, together with the Cleely and Sussana, started in the race. The Cleely got across the line first, with the American boat a close second. The Meteor made a bad start, being timed across the line six minutes behind the other boats.

DAY SAFE CRACKERS FAIL Effort to Blow Strong Box in Grape Growers' Office Futile. COMMON GUNPOWDER IS USED Work Evidently Done by Amateurs—Men Seen but Are Not Yet Captured—No Cash in Safe. The safe in the office of the Council Bluffs Grape Growers' and Shippers' association was blown by burglars about 1 o'clock yesterday afternoon and badly damaged, but the burglars got away, but would undoubtedly have been captured if the police department had been equipped with a good automobile. The office is in the east end of the warehouse and shipping station at Eleventh avenue and South Seventh street. Manager George W. Reye of the association was in the office for an hour during the middle of the day, and left it at 12:30. At 1:30, just forty minutes later, people across the street and in the immediate vicinity, heard a muffled explosion, and several boys, looking through the street windows of the office, saw two men moving about with white handkerchiefs over their faces. The police department was notified, but when the officers arrived a few minutes later, the men had fled. Entrance to the building was effected by breaking out a small window on the east end of the office. The combination of the safe had been broken off with a hammer. The explosion was very weak and did not damage the office furnishings. A bit of homemade cloth fuse, part of a bar of soap and some wrapping paper furnish all of the clues left by the yegmen. Chief of Police Froom assisted the detectives in making the examination. Good descriptions of the men have been secured. Both were young men. When Manager Reye left the office his attention was attracted to two young men who seemed so much interested in his office that he was on the point of going back and asking them if they were looking for him. The description he gives of them corresponds with the description of the men seen inside by the boys and of two young men who were seen hurriedly to leave the building from the south side a few minutes after the explosion. Apparently common black powder was used and the men were not experts. They were not local thieves, or they would have known that no money is ever kept about the place, as all of the financial transactions are by checks and vouchers. No cash is either paid out or received there, and Manager Reye does not remember ever having more than \$5 there, at one time, unless it was in the pockets of the men doing business.

HEAVY LOAD TALLYHO DASHES DOWN MOUNTAIN One Man Killed and Thirteen Persons Hurt in Runaway Near Pottsville, Pa. POTTSVILLE, Pa., Aug. 2.—George Soff of Pottsville died today as the result of injuries received in a runaway accident yesterday when a party of twenty in a tallyho was thrown out and buried under the wreckage of the vehicle when the brakes refused to work on the Tuncocora mountains and the horses dashed wildly down the grade. Thirteen other were badly injured, all having arms, legs or ribs broken. Frank Charles and John Kern, who gave their addresses as Cleveland and Chicago and who were arrested yesterday by Officer Hudson with it, said, a chief and a hatcher in their possession, are held on suspicion in connection with the case.

FRANCE IS AEROPLANE MAD Interest in Big Cross-Country Race Intensified by First Day's Success. PARIS, Aug. 2.—All France is aeroplane mad over the marvelous success on the first lap of the 400-mile cross-country race from Issy les Moulineux through Troyes, Nancy, Metz, Charleville, Douai and Amiens in which six of the eight aviators successfully yesterday completed the first stage of the race to Troyes. All the aviators unite in declaring that the success of the flight by so many machines forebodes the definite conquest of the air. Thousands of automobiles gathered at Troyes today with the intention of seeing the race, the second stage of which starts tomorrow through to the finish. On account of the difficulty experienced by the machines yesterday in following the course, it has been arranged to fly around the spires of churches along the route. Three military aeroplanes, the drivers of which, under the rules, are not allowed to participate in the prize, flew from Meurmelon to Grand Nancy today to visit the contestants when they arrive there tomorrow at the conclusion of the second stage. Hubert Latham, who was unable to start with the others yesterday on account of illness, started from Paris on his machine today in an endeavor to complete the trip to Troyes and place himself in an equal footing with his competitors. An hour and sixteen minutes later, however, Latham alighted on the lawn of his mother's chateau, near Dreux, about forty-two miles from Paris.

HAMON'S SERIOUS CHARGES (Continued From First Page.) not to get anything at all. We were in the dark as to how matters stood at Washington, but we thought Hamon would be able to fix things straight. More of the 10,000 Indians, who signed the contracts are to be interrogated tomorrow. W. T. Hollman, a Choctaw Indian, testified he had been employed by J. F. McMurray holder of the contracts, to act out among the Oklahomas, Indians and induce them to sign the documents. At the same time Hollman related he was paid "a dollar a head" for securing contracts, appointing McMurray to act in the case. In this way, McMurray procured 10,000 contracts to be held.

SUSPECTS IN JOHNSON CASE (Continued From First Page.) their brief account of his adventure. He attributes the fact that he was shot to his impatience at being accosted and threatened by two men much smaller than himself, and his rash resistance to them. Mr. Johnson is a strapping man of over six feet in height and 200 pounds in weight, athletic in make-up. The hold-up men were apparently fully made up in the difference in power between us, and the bullet put me out of the fight in an instant." Mr. Johnson felled the man with the gun, but received his wound as the man fired in his fall.

OMAHA GAS NEWS 1509 Howard Street. But the Cabinet Type of Gas Range We particularly recommend this range on account of its convenient features and the satisfaction insured by its use. It has a large baking oven, a broiling oven and a warming closet, all heated by the same burners, and all elevated from the floor, so you do not have to stoop to reach them—a roomy burner top and a large plate shelf. It stands clear of the floor, so that you may clean and sweep beneath it. It is much larger than the double oven range, but it does not use the slightest bit more gas, in fact, with the same gas consumption you secure the added feature of a warming closet, something the smaller range has not. Cabinet Ranges, \$30.00 and up. Double Oven Ranges, \$20.00 and up. Omaha Gas Company
