INEBRIATE SENT TO LINCOLN

Board of County Commissioners Sends Martin Stillmach to Inebriate Ward of State Hospital.
Upon showing that Martin Stillmach is an inebriate and is unable to break himself of the drink habit, the Board of Commissioners of Inebriate committed him to the inebriate ward of the state hospital for the insane at Lincoln Thursday. Stillmach's wife, several of her relatives, Probation Officer McAuley and Chief of Police Briggs of South Omaha testified against Stillmach.
Chief Briggs said that in the last year or two Stillmach had become a confirmed drunkard. He admitted having sold him "the stuff," as he called it, years ago when he was in the saloon business and said that in those days Stillmach always paid his liquor bills. "I'm sorry I ever sold him, now," he said.
Probation Officer McAuley said that the Stillmach children recently had to stay away from school because they were with out shoes. He testified further that almost as soon as one of Stillmach's boys was old enough to work without violating the child labor law Stillmach secured a permit for the lad to labor. A brother of Mrs. Stillmach said that but for the proceeds of the lad's toil the family hardly could live.

BOOM FOR THE INTERURBAN

Commercial Club Gets Behind New Line to Papillion.
MONEY RAISED BY RETAILERS
Business Men of Omaha Are Behind Scheme to Push Line, Which Will Eventually Run to Lincoln.
The retailers' committee of the Commercial club will undertake Friday raising \$20,000 to complete Omaha's first real interurban railroad. With one big push the committee expects to secure sufficient subscriptions of 5 per cent gold bonds to extend the line of the Nebraska Traction and Power company to Papillion. This done it will be a property whose income will pay interest on all outstanding bonds and more bonds can be underwritten in the east so that the line can be put through to Lincoln.
The enterprise which the Commercial club has behind is that of the Nebraska Traction and Power company, already in healthy condition and operating a line between South Omaha and Ralston.
The retailers' committee of the Commercial club will start the work at once, as the company now has an opportunity to secure subscriptions to \$15,000 worth of the bonds to insure the construction of the road to that city.
That Omaha needs interurban railroads to encourage its growth is the opinion of the members of the executive committee of the club who have passed resolutions heartily endorsing the project of extending the line of the Nebraska Traction company to Papillion and then on to Lincoln. Indianapolis and Des Moines, Cleveland and Toledo are four cities which are pointed out as places which have reaped the benefit of the interurban railroad in the last ten years and it is believed Omaha's growth would have been 50 per cent larger if capital had been invested in interurban lines.
The business men behind the enterprise are nearly all well known Omahans and members of the Commercial club who have other financial interests in Omaha and are determined to start the interurban era for Omaha.
The officers of the Nebraska Traction and Power company are these: Mel Uhl, president; Frank Koutsky, vice president; F. A. Howard, treasurer; J. F. Emmert, secretary; C. M. Wilhelm and W. D. Crist.
Grading of the line south of Ralston is nearly completed and the ties are on the ground.

Men Rob Woman Through Bars

Reach Through Cell Bars and Get Money from a Female Inmate.
Thrusting a wire through the bars of a cell in the city jail, Tom Ryan and Ed Thompson robbed money from a sleeping woman inmate Wednesday night. The woman, who is known to the police as Mary Doe, and a drug fiend, had suffered one of her periodic arrests in the evening, on a charge of disturbing the peace while under the influence of cocaine.
She kept her money, amounting to \$22.36, concealed on her person upon being placed in a cell. The two men were in an adjoining one. Discovering her loss on the morning the woman notified the turnkey, and it was later discovered that Ryan and Thompson had committed the theft. They admitted it and explained how they accomplished the feat.
Ryan, who had been serving a fifteen-day sentence, was given fifteen days additional, and Thompson, under sentence of twenty days, received twenty-five days more to serve as the result of the theft.

Children Work After Curfew

Probation Officers Busy Trying to Enforce the Laws on Child Labor.
The probation authorities started out promptly Wednesday night to see that child labor laws are not violated on the carnival grounds. Mogy Bernstein is on the ground and both he and the police under Sergeant Dempsey stopped several small boys who were selling confetti, and doing other things for pay after 8 o'clock. Mogy sent home one 14-year-old girl who was selling tickets after 8. The curfew law will also be enforced on the grounds and children under 16 abroad alone are liable to get into trouble.

Will Not Discard Voting Machines

Two County Commissioners Deny the Rumor About Devices for Which Big Sum Was Paid.
Denial that the county Board of Commissioners is considering the advisability of doing away with the use of the voting machines, for which the people of Douglas county have paid \$50,000, was made by County Commissioners Trouton and Pickard Thursday. Both said that so far as they know the matter is not being considered at all. Mr. Trouton said the commissioners have discussed the proposition neither formally, nor informally. "It has not been mentioned to me by any commissioner and I haven't mentioned it to any," he said. "There has been some talk of not using the machines, but it has been by someone other than the commissioners."

COUNTY COURT HOUSE DRAGS

Work is Now Forty Days Behind the Schedule Time.
HEAVY PENALTY FOR DELAY
Some of the Commissioners Are in Favor of Not Granting an Extension of the Time Specified in the Contract.
Penalties of \$4,000 may be exacted from Caldwell & Drake, general contractors on the new county building by the Board of County Commissioners if it seems fit to refuse a forty-day extension of time, request for which has been made to the board by Caldwell & Drake.
Though Commissioner John C. Troutan is in favor of flatly refusing any extension of time beyond May 1, the time specified in the contract, the board has agreed to let the matter rest for the present and act upon it some months later, when the building is nearer completion.
Completion of the building by May 1, now appears to be a physical impossibility. The contract specifies that for each day's delay the contractors must pay the county board a penalty of \$100, unless the delay is caused by the county, or unless the county waives the right to require the penalty. If the county commissioners do not waive collection of the penalties, or extend the time of expiration of the contract, the penalties will cut deeply into the profits of the contractors. So far work on the building has progressed, so slowly that it is extremely unlikely that the building will be completed even within forty days after May 1.
Commissioner Troutan, speaking of the contractors' request Thursday, said: "I am in favor of refusing to extend the time. They have let the work drag. They never have had enough men at work there. I don't see why the county should pay for the mistakes or slowness or carelessness of the contractors."
In bidding on the general contract for the county building Caldwell & Drake made an additional inducement for the county to accept their bid by offering to contract to complete the work in twenty months. The county commissioners and the architect, John Latenser, had estimated the time required at two or two and a half years, and the bids were asked for on that basis. Caldwell & Drake erased the words "two years" and "two and a half years" and in place of them wrote "twenty months."

The "Triple-Trick" Roaster Toasts
Over one top burner, under cover, in pure, radiated heat.
Toast Aerated, Sanitary, Healthful
No products of combustion can come in contact with bread to impair its flavor, no chill air toughen the outer side and render center heavy, while under side is toasting.
An Adjustable Grate makes it possible to keep toast, and all other foods as well, deliciously hot and appetizing until ready to serve, with a minimum fuel consumption and no danger of burning.
"The Triple-Trick" thus solves one of the housewives' most incessant and vexing problems—KEEPING FOOD WARM ON FLAME STOVES.
A Removable Sheet Steel Plate both prolongs the life of the "Triple-Trick" Combination and renders it perfectly sanitary and easily cleaned.
